

NOTED GENERAL PASSES AWAY

SIR WILLIAM BUTLER SAW MUCH SERVICE

Soldier and Author Served in Canada in Early Life—His Warning of Boer Outbreak

London, June 8.—(Rt. Hon. Sir William Francis Butler, G. C. B., K. C. B., one of the foremost British soldiers of the Victorian era, died yesterday.

Born in 1838 in Schville, county Tipperary, the late General Butler was one of the "fighting Irishmen" who, during the last hundred years, have won their way to command and prominence in the British forces, notable among the others being the "Iron" Duke of Wellington, Lord Roberts, Lord Wolseley, Lord Kitchener, in the army; and Lord Charles Beresford, lately retired from the command of the navy.

He was educated at St. Stanislas Jesuit College, Tuillamore, King's County, and began his remarkable military career in 1858, when he joined the 68th regiment. After serving in the East for four years he was promoted lieutenant in November, 1863, and was sent to Canada, where he went through the Fenian Raid and Red River Expedition in 1870. He was awarded, as late as 1898, the Canadian general service medal with two clasps. For the next two years he was special commissioner to the Indian tribes of the Saskatchewan River, and was made captain in 1872. The following year, under Sir Garnet Wolseley, he collected native forces in West Africa, and for these services was several times mentioned in dispatches and later congratulated and promoted by the Duke of Cambridge in the House of Lords, receiving a clasp and the commission of major and being knighted.

His acquaintance with South Africa began in 1876, when he was sent on a confidential mission to the Boers. Four years later he again saw active service in the Zulu war. In 1882 he received the Khedive's Star and other recognition for services in Egypt, and was sent on a special mission to China, 1885, and Wady Halfa 1888.

It was, however, with his appointment to the Cape command that the late general attracted most attention from the Empire. His study of the ominous attitude of the Boers, which had been steadily preparing for war since the Majuba Hill incident of 1851, when Gladstone presented their submission by the British forces, led him to forecast the war of the late nineties. His advice to the British government to "put one hundred men where you now have one" was disregarded at the cost of long and expensive campaigns, in which thousands of lives were sacrificed. Eventually, General Butler came in for much undeserved obloquy on the part of the Anglo-Saxons. A few years ago he was recalled to the Privy Council.

Sir William Butler was the author of several books, some of them dealing with the Canadian West of his early days. The most notable, perhaps, "The Great Lone Land." He also published biographies of Sir Charles Gordon, Sir Charles Napier and Sir George Fomeroy.

His marriage in 1871, to Miss Elizabeth Thompson, brought to him as a life partner an accomplished artist, who had already gained the endorsement of all critics with her painting, "The Roll Call." In 1873 Sir William was throughout his life a devout member of the Roman Catholic church and in many respects was a second Havellack.

BUMPER GRAIN CROP PREDICTED

FAVORABLE REPORTS ON CONDITIONS IN WEST

Light Frosts Are Reported in Some Districts, But Wheat Crop Escaped Damage

(Special to the Times.) Winnipeg, June 8.—Notwithstanding the backward weather during the month of May the grain crops of western Canada in general is equal and in many cases very much better than the average of other years.

This summarizes the reports of a large number of correspondents who were asked to wire full details of the crop situation in their districts.

The reports show that while early sown grain was considerably retarded by the cold weather of the past month, the rains of last week followed by bright warm sunshine have made up for all the time lost.

Many districts report light frosts at the end of the month, but only in few instances did they cause any appreciable damage. In some districts wheat and barley were nipped, but the wheat escaped altogether.

All that is wanted now is plenty of bright sunshine, with occasional showers. In many districts there has been sufficient rainfall for at least two weeks.

The outlook is, on the whole, most promising and with average conditions from now until harvest, western Canada should have one of the best crops in her history.

(Times Leased Wire.) St. Paul, Minn., June 8.—James J. Hill, of the Great Northern Railroad, today in commenting on the railroad situation throughout the country said: "The people will suffer if the railroads are not allowed to increase rates. If the administration wishes to cripple the railroads it has the opportunity. The trouble with a statesman is that he does not know what will be the effect of his acts."

"Railroads need increased facilities, but there is no hope of raising the necessary millions under present conditions. The Great Northern refused to participate in the conferences at Washington."

ELECTING DELEGATES TO GENERAL CONFERENCE

Complaints Against Methodists Voiced at Gathering of Methodists at Chatham

(Special to the Times.) Chatham, Ont., June 8.—Considerable discussion arose yesterday at the London Methodist conference over the method of electing representatives to the general conference. Some claimed that the same ministers go each year and the men in the back ranks never get a chance to go to the general conference.

In commenting upon the race track gambling bill, the committee lamented that legislation seems to balk the progress of moral and social reform. Hon. A. B. Aylesworth was especially criticized for his release of skill and King and the conference considered that the minister of justice should resign his office as his usefulness as minister was gone. "The country cannot have confidence in a government which will retain such a minister in the cabinet," said the chairman of the committee.

SURVIVORS IN NEED OF RELIEF

HOSPITALS CROWDED WITH EARTHQUAKE VICTIMS

It is Now Believed Death Roll in Southern Italy Will Not Exceed 75

(Times Leased Wire.) Rome, June 8.—Southern Italy today is a scene of sorrow and suffering following the short but violent earthquake felt in Campania, Basilicata and Calabria yesterday.

The dead at Calabri, San Sossio and San Sese numbered 50. Other towns have their one or more dead, while the number of injured is large. The great number of injured men, women and children gave rise to alarming reports that hundreds had been killed, but it is believed now that the loss of life will not exceed 75.

The hospitals in the stricken territory are filled with injured. Improvised shelters are overcrowded with persons seeking medical treatment. Many of the injured fear to enter the larger buildings because of the possibility of a second visitation by earthquakes.

The relief resources of the Red Cross Society have been exhausted and the slow moving machinery of the government is holding back needed aid. It is hoped by those in charge of the distribution of supplies that the King and Queen will hasten the work of relief when they return here. Their Majesties are expected here today.

Reports indicate that a hurricane which followed the tremor caused great damage in the earthquake zone. The storm is reported to have killed six persons and injured many others in the island of Sardinia.

Washington, June 7.—The Eastern railway presidents in conference with President Taft have agreed to follow the action of the presidents of Western roads in postponing freight rate increases until the interstate commerce commission is empowered to act in the matter, according to an announcement at the White House this afternoon.

ALLEGED TIMBER FRAUDS IN CALIFORNIA

U. S. Government Institutes Suits to Recover Title to Forty-Three Claims

(Times Leased Wire.) San Francisco, Cal., June 8.—Ninety-seven suits to recover title to 43 timber claims, valued at half a million dollars, are pending today in the United States Circuit court here, alleging that the Curtis, Collins & Hollbrook Company, of New York, and the Pennsylvania Lumber Company obtained title to the lands by fraud. United States District Attorney Devlin, assisted by Frank Hall, an assistant of Attorney-General Wickham, prepared the suits.

Eric Lyders, in charge of the field division of the United States general land office, discovered the alleged frauds and reported the matter to Devlin. INDIANS AND B. C. RESERVES

SOME LEADING CITIZENS HOLD A CONFERENCE

Meeting Summoned by Bishop Perrin in Anticipation of Settlement of Songhees Question

(Times Leased Wire.) Vancouver, June 8.—Some leading citizens of the province are now in session in the city, holding a conference in anticipation of the settlement of the Songhees reserve question, and desiring to assist in the furtherance of the negotiations which are now in progress. Bishop Perrin took the initiative in summoning a meeting, which was held yesterday afternoon at Bishop's house, where the members of the committee whose co-operation might be helpful, explanatory of the aims and objects of the meeting the following invitation had been forwarded to those requested to be present:

"My Dear Sir:—You no doubt recognize the great importance of securing an early settlement of the Victoria Indian reserve matter. A beginning has been made in organizing those who desire to bring the Indian problem, both as a provincial and local, while just to the Indians, shall also be advantageous to the better interests of the province. I have been acting as chairman of the committee which has been formed in Victoria for that purpose.

"The general situation with which we are dealing will be shown by the lecture delivered in Vancouver by Rev. A. E. O'Meara. "Recent events have opened up to us a definite opportunity of endeavoring with excellent prospects of success to bring about a solution of the Victoria reserve problem."

"You have therefore been decided to hold, at my residence, on Tuesday next, at 4:30 o'clock, a meeting composed of members of the committee and others who it is thought will be specially interested.

"Upon that occasion the opportunity above mentioned will be explained, and the taking of such action as may be necessary in order to accomplish the object in view will be considered."

"You are earnestly invited to be present.

"Yours, very truly, "W. W. COLUMBIA."

Accompanying this letter was a copy of a pamphlet containing a report of the lectures delivered in Vancouver in April last by Rev. Arthur E. O'Meara, B. S., on "The Indian Land Situation in British Columbia."

There was a good attendance when the meeting was called to order at 4:30 o'clock, by Rev. Arthur E. O'Meara, B. S., who acted as secretary, and among the others present were: Hon. Edgar Dewdney, Hon. Senator Martin, W. J. Suttou, Rev. J. Wood, Rev. A. E. Roberts, Rev. Dr. Campbell, Rev. Joseph McCoy, E. J. Martin and A. B. Fraser, etc.

Rev. Mr. O'Meara, who called upon all parties interested to have a final settlement of the Indian land question in this province. His contention was set out in his pamphlet, and was as follows: "Three statements may be made with some confidence. First, there is a clearly defined issue between the Indian and the provincial government. On the one hand the Indians have earnestly contended, and still contend, that they hold a title in respect of the lands of British Columbia. Their contention they appear to be supported by the royal proclamation of George II, by the Imperial Letters Patent of 1763, and by the Imperial Letters Patent of 1774, which gave to the province of British Columbia, by the department of the interior and the department of justice of Canada, and by Lord Dufferin. On the other hand, the provincial government have for forty years as earnestly contended that the Indians hold no such title, and they have based their Indian policy mainly upon that view.

"A second statement is that the two governments have never yet come even near to a real solution of the problem. It is a third statement that no such agreement as the agreement of 1876 was made. It appears that the Dominion government desired to arrive at a final adjustment of the question upon the basis of some satisfactory dealing with the claims of each Indian nation, but the provincial government was not prepared to go beyond dealing with existing conditions and requirements."

"The purpose of the meeting was to present and further consideration will be given the proposals to Rev. Mr. O'Meara before any definite action is taken. The meeting adjourned to meet again at the call of Bishop Perrin at a later date.
