SUPPORT PEARY

COMMANDER HAS PROOF TO SUBSTANTIATE CHARGE

By French Geographical Society.

Sydney, N. S., Sept. 13.—Plenty of evilence designed to back up his statenorth pole, is in the hands of Commannorth pole, is in the hands of Commander Peary, according to assertions made here to-day. This view is taken by a large number of explorers, scientists and others who are here to greet the minion, but when the reorganization is

him incontestable proof to support every statement he has made in con-nection with Dr. Cook's trip to the Artic," Herbert L. Bridgman, secretary of the Peary club said. "Every one who absolutely. When the proper time comes, former to smelt the latter's ores, and and that will be when Dr. Cook has the former will enlarge its smelting camade his statement over his signature, the truth will be forthcoming

"I agree with President Hubbard of the Peary Club, that Dr. Cook might have learned weeks ago in Greenland of Commander Peary's discovery and that in the interim he wove the story of his discovery of the north pole. News, you know, travels fast among the Eskimon and it is quite likely Dr. Cook heard of what Peary had done."

Proposes Commission. Paris, Sept. 13 .- Throughout France cry for scientific arbitration of the difficulties of Commander Peary and in echo of a statement published yesterday by Prince Roland Bonaparte president of the Paris geographical society. Prince Bonaparte said:

"The recitals given are inconclusive They contain plenty of literary effect, small detail, and they lack exact information. Personally I think both
