The charges are laid by Albert McArthur and Andrew Myles and Fred Campbell, who charges Isaacs with uttering forged documents in connection with western land sales.

John Salmon was the first witness called in the McArthur case. The witness gave evidence that he was a photographer. A typewritten letter was taken to him in June last by Albert McArthur and he took an accurate photograph of it.

Andrew Myles, Fred Campbell and the witness were interested in the purchase. Isaacs wished to sell the three of us the land, said Mr. McArthur. "The talk was in my shop. He had a map and plans with quite a number of lots marked on them."

Isaacs agreed to sell the three of us block 27 for \$500. The three of us divided the block up to satisfy ourselves. We wished to get the deeds of our particular lots. We got the papers from M. J. Isaacs, the defendant's brother.

R. D. Isaacs wrote witness a letter from Montreal dated March 23rd in which he said he was enclosing deeds of the Edson property, and told witness he could pay M. J. Isaacs, his brother, when the papers were received.

Witness identified a letter he said was supposed to have come from Edson, Alberta, and signed by R. D. Isaacs. Witness had some talk with defendant before the letter was received. Mr. Myles also had some talk with Isaacs to the effect that something should be done to make the titles clear.

Witness said that on receiving the registration deed he paid the money as directed to Isaacs' brother, M. J. Isaacs, and got a receipt for the amount paid, viz. \$175.

Rocks two feet high in the middle of the road have been blasted out, trees have been removed and it has been skirted, turn-piked and gravelled. The work has been done under the supervision of Oscar Budd of St. George.
