Will Endeavor to Hold
"Merchants' Week" in
Spring - Would Bring
Thousands to City.

The regular monthly meeting of the New Brunswick Automobile Association was held in the Board of Trade rooms last evening.

Considerable routine business was transacted and the matter of good roads took up considerable time in discussion. A committee in charge of this work spoke of the great progress made during the past season by the association and with great assistance by the government the roads in the province were greatly improved.

A committee was appointed to wait on the merchants, the mayor and commissioners, and officers of the Board of Trade with the view of having a "merchants' week" in the spring. The "merchants' week" if carried through promises to be a big affair and will bring thousands of visitors to the city from all over the Maritime Provinces.

REFUGEES AT NEW YORK FROM MEXICO

Twenty-two of Them Arrive
With Little Money, Few Per-
sonal Effects and Generally
in Bad Way.

New York, Nov. 14.—With very little money, few personal effects, but bearing many complaints concerning conditions in Mexico that forced them to leave that country, 22 refugees arrived here today from Vera Cruz aboard the steamship Mexico. In the party were fourteen Americans, nine men, four women and one child, all from mining camps near Torreon.

Emeterio De La Garza, who was a passenger on the Mexico, denied reports that he was formerly a confidential agent of Provisional President Huerta, but admitted that he was a relative of the present minister of war. De La Garza further denied that his mission to this country was in the interests of the Huerta government.

Mexico.
(Baltimore News.)

Mexico is a large place with some people scattered about it. Those one place know nothing of those in another. Superimposed upon this mass of native Indian population is the little minority of Spaniards, and the other foreign elements; most of them grafters and exploiters. It is a social morass. Down at its bottom there must be something on which to lay the foundations of a community.

BIG CRACKS ON HAND AND FINGERS

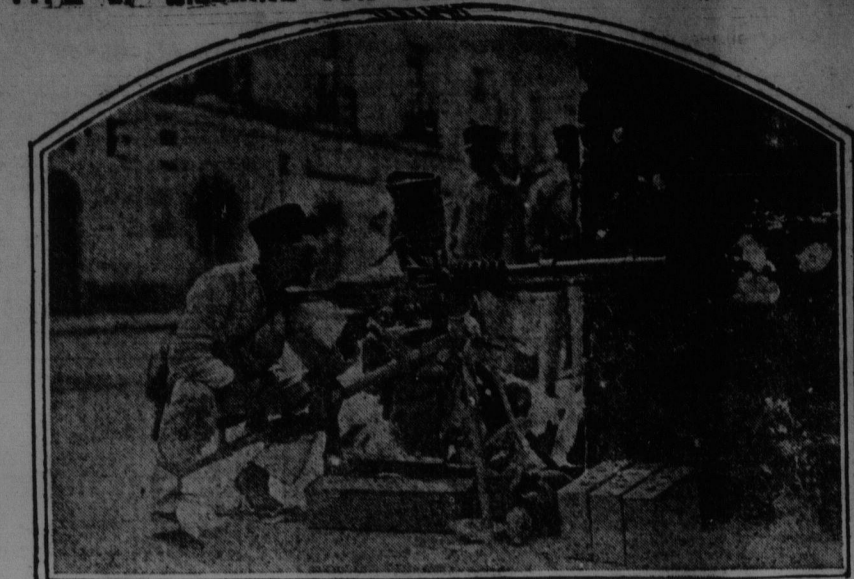

Eczema for Three Years, Broke Out
on Head in Scales, Itched and
Burned Badly. Cuticura Soap
and Ointment Cured.

Lynne Brook, N. S.—"I suffered with eczema for three years. It started on my hands first in sore between my fingers and all over the palms of my hand and fingers were big cracks. Then it broke out on my head in scales. It itched and burned so badly I could not sleep. It was so itching and burning that I scratched and made sores and my hair came out awfully bad. I did not know what it was.

"I was treated for a long time and it did not do any good. I gave up my work for a month but as soon as I started doing my house-work again my hands got just as bad as ever. I used two bottles of Cuticura Soap and a box of Cuticura Ointment and I used them till I saw it stopped the itching and burning, so I got three cakes of Cuticura Soap and a box of Cuticura Ointment and that cured me." (Signed) Mrs. P. J. McKernan, May 27, 1913.

Not only are Cuticura Soap and Ointment most valuable in the treatment of eczema and other distressing eruptions of skin and scalp, but no other condition do so much for pimples, blackheads, red, rough skin, itching, itchy scalp, dandruff, dry, thin and falling hair, chapped hands and shingles. Write for a free sample of each, with 25-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

MAKES RECORD.

Portland, Me., Nov. 14.—The schooner Melbourn P. Smith, which arrived here today from Savannah, Ga., made the trip in the record-breaking time of five days and twenty-two hours. This is said to be two hours faster than it was ever done before by a loaded coastwise schooner. The Smith was built in Millbridge, and is owned in New York. She had a cargo of hard pine.

Probably Not.

"She's always doing something original."

"What is her latest achievement in that line?"

"She's become engaged by wireless telegraphy."

"I wonder if she will be satisfied with a ringless engagement?"

KAISER'S SON-IN-LAW WHO RENOUNCED THRONE

PRINCE AND PRINCESS ERNST-AUGUST OF CUMBERLAND.

The government of the Duchy of Brunswick, which has been without a reigning Duke since 1884, was assumed by Prince Ernst August of Cumberland, who May 24 married Princess Victoria Luise, daughter of the German Emperor. Differences between the Hohenzollern and Guelph families have thus been settled, for the new Duke in a declaration issued recently promised unwavering loyalty to the German Empire and Emperor and to the federated rulers of Germany.

He thus implicitly, though not actually, renounced his pretensions to the throne of Hanover, annexed to Prussia in 1866.

MANKIND AT LEAST HALF MILLION YEARS OLD, SAYS SCIENTIST

Dr. Williams of London Arrives
in New York with Fifteen
Skulls of Pre-historic Man
Found in England.

New York, Nov. 14.—Dr. J. Leon Williams of London, an authority on anthropology and geology, arrived in New York today with fifteen skulls of prehistoric man, one of which he estimated to be 500,000 years old. This skull was found by workmen near Folkestone, England, in strata that dated back prior to the Pleistocene era and its existence and discovery have confirmed Dr. Williams in the belief that mankind is at least half a million years old.

Dr. Williams said the finding of these ancient skulls and other human bones did not disprove in his opinion, the American theory, but altered it in some degrees. Instead of man being a descendant of the ape, Dr. Williams said, these skulls tend to confirm the belief that the anthropoid ape was an offshoot of primitive man. One of the skulls and those of apes, he said, was to be found in the teeth.
