Once Again New Glasgows Advertised Launching Fails to Come Off as Scheduled

Special to The Standard.

New Glasgow, N.S., Dec. 3.—New Glasgow was honored today by a visit from a number of the directors of the Canadian Northern Railway, who have recently had all government railways in Canada placed under their jurisdiction. There were quite a number of them. Prominent among them was D. B. Hanna, who was the Shaughnessy of the C.N.R., prior to its being taken over by the government, and who finds his sphere enlarged rather than diminished by the changes during the past few months. Col. Cantley took the party in charge, and the forencom was spent inspecting the big plants at Trenton. The steel steamer "Wakata," was to have been launched at 11 a.m. today, and the railway magnates yere right there to witness the event. Unfortunately the severe frost of last hight did not act as a lubricant, and the big steamer, eithough she was moved a foot or two along the ways, refused to take

The C. N. R. magnates were very favorably impressed by New Glasgow, which they recognized to be a live town with a big future. The fact that it was the home town of their colleague, Col. Cantley, did not detract from its importance in their eyes, and they realized that he would likely keep it before their notice if they were to overlook it for the time being. From New Glasgow, the railway directors

Luxembourg, Dec. 2.—(By courier to the French border)—That German troops have been running amuck due to the breakdown of the army food supplies, and in many cases eating cats and dogs, was the news filtering across the Moseile today. A German deserter, whose wife is of Luxembourg nationality, and who crossed the line and surrendered today, corroborated several of the foregoing reports. He declared that some army units are splitting up, the mon going home regardless of orders, similar to the manner in which the Russian army disintegrated.

Prisoners arriving here from Offenburg reported today that a mutiny swept a regiment of Germans at the Offenburg railway station, the soldiers shooting down the officers and electing their own comrades in their places. Montreal, Que., Dec. 3.—When the historic city of Mons was wrested from the enemy in the last fighting of the war, prior to the signing of the armistice, it was a Montreal soldier, Capt. W. Graffley, to whom fell the privilege of being the first Britisher to enter the city since the days of the historic retreat of 1914.

The Third Canadian Division, under Major General Loomis, taken full possession of the city early in the morning of Novem 11th, a few hours before Erzberger and his associates signed capitulation of the German armies at Foch's headquarters. But capitation of the German armies at Foon's neadquarters. But as early as 10 o'clock the night previous an advance guard formed by a company of the 42nd Battalion, Royal Highlanders of Canada, under Captain Grafitey, entered the city. When the Third Division had entered in force a proclamation to the people of Mons was issued by the Commander, a copy of which has been sent to his father, Alderman Crafftey, of Westmount, by Capt. Grafftey. The proc!smation, after informing the long-suffering inhabitants of the city that they had been delivered from beneath the heel of their oppressors, announced to them the joyful news that their hated enemy had been vanquished and an armistice had been signed. The joy of the population manifested itself in an enthusiastic welcome to their deliverers.

He showed himself a lover of poetry and that he has a good memory was proved by his quotation of Sir Henry Newboit's lines:

Strict secrecy has always been preserved in connection with the movements of these French ships and only unofficially can it be learned that they were sighted by vessels upward bound, and that they were apparently meking good progress over the lake.

Meanwhile, considerable anxiety is felt here, as it has not been the first time boats have foundered with all hands and without trace in Lake Superior. They all carried lake pilots.
