It is claimed that a man named Angel Garcia, who contracted the disease some thirteen years ago, in one of its worst forms, after experimenting on himself for years with different kinds of herbs and drugs, had at last succeeded in discovering a combination of herbs, administered in certain forms, that had completely cured him. After his own cure, he treated with the same remedy four others who had been afflicted with the disease for years. These they claim were also cured.

In the dining room Mr. Hoffmeyer was told to make himself comfortable in a chair until the return of Mrs. Bennett, while the man with the revolver seated himself opposite. At 1.30 o'clock, the young man told Mr. Hoffmeyer to lead the way upstairs. Mrs. Hoffmeyer was awakened and told not to make an outcry. At two o'clock an automobile drove up to the house.
