

YOU CAN CUT YOUR HAIR

Place

SAFETY GUARD or COMB

of the razor

NOT THE BLADE

next to the hair

before you start

to trim.

Yes Sir! You Can Cut Your Hair with the Durham Duplex Razor

You simply turn the razor over, put the guard next to the head and slide it over the hair.

Tilt it according to the length or style of hair cut you require.

To get the best results wet the hair.

When you have finished using a blade for shaving purposes, do not throw it away, use it for hair cutting purposes.

The soldiers in the trenches and the nurses in the hospitals are finding it a very useful instrument for this purpose.

You can cut your own hair, or your Buddie can cut it for you.

If you own a Durham Duplex—try it, and you will be surprised at the ease by which it is accomplished. You will find any number of owners of a Durham Duplex Razor who trim their own hair.

In order to introduce this hair cutting feature of the Durham Duplex, we are going to give you, if you are a soldier and do not

possess a Durham Duplex, a razor with which to prove to your own satisfaction that you can cut your own hair; or, better still, cut your Buddie's and let him cut yours.

Send your name and address to us—Durham Duplex Razor Company, Ltd., 43 Victoria Street, Toronto, Ont., with 10c to pay postage, duty and carrying charge, and a Durham Duplex Demonstrator Razor will be sent you with one Durham Duplex Blade that you may use either for shaving or hair cutting purposes.

With a Durham Duplex in his possession, the soldier is always trim of hair and clean of face.

He doesn't have to wait his turn at the barber's, and he saves the expense as well.

This offer expires April 15th.

If there is a dealer in your town, he has our authority to form a club and get this razor for you.
