

should. If they have been challenged, they have
should be struck off the rolls.

There would appear to be some objection
existing as to the making of the tax levies
under the action of the officers making "assessments".
The "making of these assessments during the quarter
ends the local matter of how the people are actually
at the school during the term. The local matter
of school days is the "quarter" and the matter of
how the people actually pay.

It would appear that reference to the
school boards for purposes of school, it is necessary
by that they be actually and necessarily made out.

The Government should be able to obtain
from the local school boards of people the \$5, \$10, \$15,
\$20, \$25, \$30, \$35 and \$40, and for what they do not
pay for the school. The school boards should be able
to obtain the local matter of how the people are actually
at the school during the term.

THE SCHOOL BOARD
