

INTRODUCTION

The following outline on "Our Work in China" is intended primarily for use in Summer Schools, and in Mission Study Classes. It is, however, adapted to more general purposes as well as to individual use. It aims to give a brief yet comprehensive statement of the present situation as related to the Anglican Church in all China, and of our work in the Diocese in Honan.

The chapters here given are a part of a larger treatise dealing in fuller detail with the same work. This the Bishop of Honan has promised to have ready in the near future for publication through the Educational Department. In the meantime what is now provided will meet the-immediate pressing need of authentic and up to date information on this important and rapidly developing part of the Church's Mission Field.

W. E. TAYLOR,
Educational Secretary.
