

- Puerperium—continued.*
 sapremia in, 546
 septicemia in, 547
 signs of recent delivery, 530
 structural changes in uterine, 523
 sudden death in, 578
 temperature in, 514
 Pulse in septicemia, 548
 Pulse rate in the puerperium, 516
 Purgation in eclampsia, 506
 Purin bodies, 74, 174
 Pyæmia, 567
 Pyelitis, diagnosis and treatment, 183
 of pregnancy, 180
 Pyelonephritis, 180
 Pyloric stenosis in infants, 601
 Pyogenic organisms, 532
 Pyrexia in abortion, 206
 in eclampsia, treatment of, 509
 in puerperium, 515
 in sapremia, 546
 in septicemia, 548
- QUADRIPLETS, 92
 Quickening in pregnancy, 78, 80
 Quintuplets, 92
- RACHITIC flat pelvis, 375—377
 Ramsbotham's hook, 715
 Rectal alimentation in excessive vomiting, 123
 injections in shock, 449
 Renal diseases, pregnancy and, 179
 Reniform flat pelvis, 375
 Reproductive insanity, 576
 Rest during puerperium, 528
 Restitution and external rotation of fetus, 273
 Retraction of uterine wall, 249
 ring of uterus, 247, 425
 uterine, excessive, 424
 Retractor, vaginal, Jayle's, 623, 624
 Retroflexion, 125
 Retroversion, 125
 Rhomboid of Michaelis, 383
 Ribemont-Dessaigne's insufflator, 610
 Ribes, see *de Ribes*.
 Rigidity of cervix, 415
 of pelvic floor in abnormal labour, 418
 Robert's pelvis, 405
 Rotation, backward, of occiput, 271
 external, and restitution, 273, 275
 forward, of occiput, 270
 in flat pelvis, 389
 internal, 269
 in breech presentation, 343
 in face presentation, 331
 ischial planes controlling, 392
 manual, 320
 of occipito-posterior position, 316—319
- Routh's statistics of Cesarean operations, 705
 Rupture, intra-tubal, 166
 of membranes in induction of abortion, 634
 of perineum, 453
 of uterine artery or veins, 144
 of uterus, 436
 abnormalities causing, 440
 complete, 445
 diagnosis, 445
 incomplete, 442, 443
 intra-uterine manipulations causing, 439
 mechanism of, 437
 misdirection of uterine axis causing, 440
 morbid anatomy, 441
 operative treatment, 450
 over-distension of lower segment, 437
 risks of, 447
 spontaneous, 437
 through Cesarean scar, 441
 traumatic, 436
 treatment, 448
 of veins, 452
 tubal, 167
- SALINE rectal injections, 123
 solution, in severe hæmorrhage, 497
 transfusion of, 498
 transfusion, 559
 in eclampsia, 504
 Salpingo-oöphoritis, 562
 Sanger's operation, 689, 701
 Sapremia, 542, 543
 clinical features of, 546
 differential diagnosis of, 547, 551
 temperature chart of case of, 546
 Saprophytic organisms, 532
 Schultze's method of artificial respiration, 607
 Scoliosis with rachitic flat pelvis, 378
 Scoliotic pelvis, 408
 Scopalamine, hydrobromate of, and morphia, narcosis, 301, 422
 Sedatives, administration of, 422
 Segmentation of ovum, 10
 Sepsis, umbilical, 615
 Septic abortion, 211
 Septicæmia, 542, 543, 547
 clinical features of, 548
 diagnosis of, 550
 differential diagnosis of, 547, 551
 in puerperium, 547
 mortality of, 552
 onset of, 547
 prognosis, 552
 treatment of, 553
 general, 558
 specific, 556
 surgical, 559
 types of treatment of, 553
