Dr. Hess' Stock Food WILL MAKE Money for You.

7-lb. sack, 65c. 12-lb. sack, \$1.

It is a scientific compound of the essential elements that are lacking in the various foods upon which horses, cattle, hogs and sheep generally subsist. It produces flesh by compelling the system to do its best. It permits no food to pass off undigested. It wards off diseases. It is called a food for want of a better name. It is not exactly a medicine, nor a substitute for hay and grain and other foods. It is both nutritious and curative.

FOR HORSES FOR CATTLE FOR SHEEP FOR HOGS

It is not a stimulant, but a tonic. It aids digestion, and thereby gets the most muscle and fat and milk and wool out of the various foods that the horses and hogs and cows and sheep eat. Sold by dealers generally, or address: THE GREIG MFG. CO., MONTREAL. For the asking, we will mail you our 64-page veterinary book, which tells how to doctor your own stock.
