NO CHANGE OF CARS

Full particulars and tickets from any Grand Trunk Agent, or write A. E. Duff, District Passenger Agent, Toronto, Ont.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS.

ANY PERSON who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency of the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price, \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

"Go North Young Man!"

WHY?

Because there are millions of acres of agricultural land in Northern Ontario in some cases free, and in others at 50 cents per acre, excelling in richness any other part of Canada, blessing and waiting to bless the strong, willing settler, especially the man of some capital.

For information as to terms, homestead regulations, special railway rates, etc., write to

"Just Work"

IHC tractors are built for "just work." Whether that work be plowing, preparing and planting a seed bed, harvesting, threshing, irrigating, ditching, hauling, road making, well drilling, or the many other things that a tractor will do, the steadiest worker is an

IHC Kerosene-Gasoline Tractor

Is overtime demanded—the IHC tractor never tires; is the load a heavy one—the IHC has plenty of reserve power; is the work dusty and dirty—the IHC has no exposed bearings or rapidly moving parts to be injured. It carries its own daily supply of fuel. It may be set close to a stack without reference to the direction of the wind, without danger of fire, and, with all these advantages, it has done, is doing, and will do more work in less time at lower cost, and will last longer than any other tractor you can buy. These are statements of fact, backed by records made in actual use both in contest fields and on real farms.

Investigate tractor farming. Learn how you can profitably use an IHC tractor. Get all the facts from the IHC local agent. He will point out the many IHC tractor features and advantages in design, materials, and construction. He will tell you about the complete IHC line, which includes gasoline and kerosene tractors, 12, 15, 20, 25, and 45-H. P. in several styles, and horizontal and vertical general purpose engines, stationary or mounted on skids or trucks, air-cooled or water-cooled, 1 to 50-H. P. See him or write the nearest branch house for catalogue.

GILSON "60 SPEED" ENGINE

"Baker" Wind Engines

Are built for hard, steady work, and keep at it year in and year out.

IT is the reputation which "BAKER" Wind Engines have fairly won and steadily held ever since their first appearance on the market, 33 years ago, that should be considered. They are famous for their durability, simplicity of construction and easy running. "BAKER" Wind Engines are so designed that the gears cannot wear out of mesh. The wheel is built on a hub revolved on a long stationary steel spindle, requiring no babbiting. It has a large number of small sails which develop the full power of the wind and enable them to pump in the lightest breezes. Has ball-bearing turn-table and self-regulating device, and all the working parts are covered with a cast shield, protecting same from ice and sleet. The above is only a few of the many features that have placed "BAKER" Mills in the lead. Let the H.-A. Co. agent give you complete information, or write direct for booklet.

We make a full line of Steel Towers, Galvanized Steel Tanks, Pumps, Pneumatic Water Systems, Spray Pumps and Gas and Gasoline Engines.
