

GET READY FOR HAY BALING

THE demand of the market is for baled hay. There are the best of reasons why you should bale the hay you have to sell.

There's a larger demand for it. It brings a better price. It is easier to handle. And you should bale it yourself rather than hire it done because the money you would pay the contract baler eats a big hole in your profits.

You have the time to do your own baling. You have idle horses in the fall and early winter to furnish the power. And you have enough help, or nearly enough help, on the farm to operate the press. All you need is a good reliable hay press.

I. H. C. PULL-POWER PRESSES DO GOOD WORK AND FAST WORK

Buy one of the strong steel and iron I. H. C. presses this year, and if you have any considerable amount of hay to bale, it will save you its cost the first season. And you will have a reliable press for many seasons to come.

I. H. C. presses make you independent of the contract baler. They are specially valuable to the average farmer and hay

raiser because they are operated with small forces, at no expense for power, and the work can be done at times when there is little else for either man or horses to do. These presses will bale your hay, straw or anything else you have to bale into solid, compact and uniform bales. The one-horse press, an ideal baler for small hay raisers, turns out 14x18-inch bales. Under average conditions, it will bale at the rate of 6 to 8 tons a day. The two-horse press has bale chambers 14 by 18, 16 by 18 and 17 by 22 inches in size, and bales 8 to 15 tons a day—a profitable machine for joint ownership among neighboring farmers or doing contract baling.

I. H. C. presses are not horse killers, are convenient to operate and there is no pounding or uneven draft. Both are full circle presses, and do not worry the horses with constant stopping, backing and starting.

Call on the International local agent and see the presses, or write to the nearest branch house for catalogue and particulars.

Sunshine grates have maximum strength

Sunshine Furnace has four triangular grate bars, each having three distinct sides. In the single-piece and two-piece grate no such-like provision is made for expansion or contraction, and a waste of coal always follows a shaking.

On the left- and right-hand sides are cotter pins, which when loosened permit the grates to slide out. These four grate bars are made of heavy cast iron, and are finished up with bulldog teeth. The teeth will grind up the toughest clinker; and

SUNSHINE furnace

because the grates are made in sections, not only can nothing but dust and ashes pass through, but after each shaking a different side can be presented to the fire. Also, with the Sunshine grate there is no back-breaking movements attached to the shaking. By gently rocking the lever, first on the left and then on the right, the ashes are released on both sides, and fall through into the pan.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

ANY person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon, and cultivation of, the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts, a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties.—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.
