The Full Percentage of Cream

Getting the full percentage of cream from milk depends as much upon the oil used to lubricate the separator as upon the separator itself. Gummy oil will cut the fine bearings of your machine, spoil its balance and waste good cream in the skim-milk pail.

STANDARD Hand Separator Oil

never gums, never rusts, never corrodes. It feeds freely into the closest bearings and insures the perfect lubrication that is essential to the free spinning of the bowl and the complete separation of cream from milk. It lessens the driving effort and lengthens the life of your separator.

One gallon cans. All dealers. Or write to

The Imperial Oil Company, Limited

The Range With A Reputation

A Perfect Baker Economical In Fuel

That's what every housewife seeks in a range—one that is absolutely dependable, every day, year in, year out.
 Built on honor, of the best materials, the **Great Majestic outwears three ordinary ranges. It is the only range made entirely of charcoal and malleable iron. Malleable iron can't break—charcoal iron won't rust like Steel.**

The seams of the *Majestic* are riveted (not put together with bolts and stove putty)—they always remain air tight, neither heat, nor cold affects them. The *Majestic* is lined throughout with pure asbestos, 1/4 inch thick, held in place by an iron grating—you can see it—and it stays there always. Air tight joints and pure asbestos lining assure an even, dependable baking heat, saving one-half the fuel.

The Great and Grand MAJESTIC Malleable and Charcoal Iron RANGE

The reservoir is all copper and heats like a tea kettle, through a copper pocket, stamped from one piece of copper, setting against left hand lining of fire box. It boils 15 gallons of water in a very few minutes and by turning a lever the frame and reservoir moves away from the fire. This feature is patented and is used only in the *Majestic*.

It is the best range at any price—a range with a reputation and it should be in your kitchen. It is for sale by the best dealers in nearly every county in 40 states. If you don't know who sells them in your vicinity, write us and we will send you our book, "Range Comparison." Everyone thinking of buying a range should first read this booklet.
