

If you could stand beside each clerk as he makes a sale, and make a note of the details

there'd not be much chance for mistakes, would there?

You would know the amount and kind of the transaction, and who handled it.

You would know that the customer got the right change, and that you got the right amount of money.

You'd have a record of every cash transaction in the store that would make the night's "balance" a very simple matter.

And your clerks would be better salesmen, more careful and accurate because they would get credit for good work, and know that the blame for mistakes would be fixed beyond dispute.

That's exactly what a National Cash Register does for you

The amount and kind of each transaction is publicly displayed and a positive and permanent record kept for your private inspection.

Separate adding wheels show you the totals of Cash Sales, Charge Sales, Money Received on Account and Money Paid Out—at any time during the day.

The Sales Strip, kept locked inside the machine, gives you an itemized record of every transaction made during the day—just as complete as if you followed your clerks all day and recorded the various amounts yourself.

You know how many customers each clerk waited on—the amount of each clerk's sales for the day, a separate record of each sale—who made the mistakes—who did the best work—and you know exactly the amount that should be in the cash drawer.

The National keeps track of every detail of every transaction—stops leaks, checks losses. How can you afford to be without one?

You place yourself under no obligation by writing for Free booklets, explaining the uses of National Cash Registers in your business. Write now to
