

Windmills Without a Rival

WHEN STRENGTH, DURABILITY AND SIMPLICITY OF CONSTRUCTION ARE CONCERNED

The Superior Back Geared Steel Pumping Mill is the acme of perfection in every respect, made in 8 ft. and 10 ft. sizes, to fit either wood or steel power, without change; can be set by any one in a very few minutes, for either short or long stroke. All the principal bearings are provided with interchangeable bronze boxes and chain oil conveyors. It is perfectly self-regulating, has a slow upstroke, a quick return and is easily thrown out of gear. The brake is such that it is impossible for the wheel to turn when not in gear; the weight of entire mill-head is carried on chilled rollers that remove all friction, allowing it to respond to the lightest breeze. Can be fitted for a mast tower without extra charge, but order must specify this if wanted.

We also supply 14 ft. Vaneless Balance Gear Power Mills

The Superior Steel Balanced Geared Power Mill is the only Solid Wheel Power Mill made with Balanced Swivel Gearing; it is perfectly self-regulating, the more work that is applied, the more the wheel faces the wind, thus transmitting the entire power of the Wind Wheel to the driven machinery. Governed on the same principle as a Steam Engine. We would like to tell you all about these Mills right here, but have not the space. WRITE FOR CATALOGUE.
