The Men at the Head of Hemphill's Trade Schools, operating in all large cities of Canada and U.S.A.

AT ONCE!

TO LEARN AUTOMOBILE, TRACTOR AND TRUCK ENGINEERING

It is the world's most crying need today. It is one of those trades that offer unlimited possibilities, and is also the one trade which requires that the student, to become thoroughly competent, must have actual experience on the machine.

It is unfortunate, but true, that so many so-called Gas Engine Schools are equipped with only a Lecture Room, a set of books and a model to look at. The student who enrolls in a school of this kind is out both his money and his time.

One cannot expect to become an efficient mechanic by listening to a printed set of lectures.

No owner of an Automobile, Tractor, or Truck is going to let any man work on his machine, if that man's knowledge is only "Book Knowledge."

Remember Hemphill's Trade Schools Limited are recognized schools which give you actual experience—where the tools are put into your hands and under the able supervision of experienced instructors you are "put to work."

Men!—Your first duty is to your country, your second to your home. A knowledge of this trade, as taught in Hemphill's Trade Schools will fit you out to do your duty to your country; and at the close of the war you will be master of one of the greatest professions in the world, with pay almost unlimited. The increased pay relieves and makes easier the burden at home.

Enroll in a school of recognized efficiency, where the training you will receive will be complete, and you can take up your work happy in the knowledge that you are right.

Obey that impulse—also duty—send for our complete catalogue now. Be ready to enter our Fall and Winter Term.

We teach Ox-Welding and Tire Vulcanizing in connection with our Motor Schools. Drop us a card asking for full particulars.

Let these Men who have placed Hemphill's Trade Schools at the Head of their Profession fit you for one of the best-paying trades in America today.

Railroad and Commercial Telegraphy

Our Telegraph School is located in Winnipeg; the finest school of its kind in Canada. We teach all branches of the work, including Station Agents' Duties, Handling Freight, and Express Shipments, Selling Tickets, Sending Telegrams, Etc.

Positions waiting at \$90 to \$120 per month after completing course.

The Barber Trade

Only two months required to master this trade. You earn money while you learn and we also supply you with tools. Wonderful demand for Barbers. Hundreds have had to close their shops to join the army, and they look to us to supply Barbers to run their shops. Big wages. Great chance to start up for yourself.

We can start you up on the monthly payment plan. WRITE FOR FREE CATALOGUE.

Moving Picture Operating

Only a few weeks required to learn this pleasant work in theatres and picture shows. Wages are from \$30 to \$40 per week. Or start a picture show of your own. Lots of good buildings can be had at low rents. Investigate this School in Winnipeg only.
