LAKELET

From what we can learn it is the intention of the Road Commissioners to dig the ditch, nothwithstanding the opposition to it. The road through the field is getting pretty well cut up since the wet weather set in, and a week from Saturday, Mr. The public will have to get to Clifford and the outside world by some other route. Since the meeting at Gorrie here is not a move. There will be no ditch this year, but from what we can learn it is the intention to fill in A mail man must have a road to de- needna be sae stingy. SALARIES THEN AND NOW

In an article on Lucknow in 1882 reference is made to the salaries the chool teachers were getting in those days. The school principle got \$425 per year (he was a married man with a growing family) and his assistants were paid from \$235 up to \$250 per year, says the Lucknow Sentinel.

How did they get along? Were they as happy in those days as in these? Well, at any rate the children were reared and they had food, clothing and shelter enough to per mit the development of healthy bodies and vigorous minds. There was no evidence of suffering nor stinting. One wonders whether the overflowing wealth of today is a real advantage.

The difference in living is largely in the matter of what may be called luxuries, and we must add comforts

The children of those days did no spend money as they do now, and likely they were better for the prac tice of economy. There was little going on vacation 40 years ago. The teachers who got only \$250.00 their year's work didn't go on trips to the Pacific Coast nor to the St. Lawrence. A trip to one of the cities would be a big event to be remember ed and there were not motor trips If we consider these things good (and they certainly add to the joyment in life) now and its high salaries and greater wealth all around than there was 40 years ago. Wealth of course, merely gives opportunity for improvement. It all depends up-on how it is used.

POSTAL REGULATIONS

Penny postage is misunderstood by nany people and almost daily at the post office explanations have to be made. The idea has got abroad that the return of penny postage means a return to the rates that prevailed on all classes of mail matter before the war. This is not the case, letter postage alone being affected. It still costs two cents to post a card and two cents to post a letter addressed to a party in town. Posting one cent cards with messages written on them is causing much of the trouble. These

cards will incur a penalty of two cents to the receiver at the other end.
