NEW YORK:

NEW YORK: pulated capital of profits having been obtained, the Directors will be authorized to pay the first year's Dividends at the close of the present fiscal year; afterwards, each year's Dividends, in regular order, will be redeemed, as the funds of the Institution exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three annual Premiums before his Dividends will be redeemed. This teature in the conditions of this Company, over those who do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will assist in the payment of the Annual Premiums, after a few of the first years have elapsed, or take up notes given for Premiums.

assist in the payment of the Annual Prepiums, after a few of the first years have elapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to fifty dollars, or thore, on Policies running five years or longer, may be paid one half by Note; to remain a debt on the Policy becomes a claim.

This Company was organized in December, 1846, and its prosperity has hitherto been unparalleled. It is now in the third fiscal year of its existence; and numbers (October, 1849) nearly so the housand members; with a constantly increasing accession. Its losses have been small, compared with the numbers which might have existenced, according to the Tables of Mortality upon which Life Insarance is predicated. By unparalleled success in business, and a strict economy in the administration of its affairs, larger Dividends have been made to Policy holders than by any other Company in the United States; averaging more than 60 per cent. annually.
