

NORFOLK NEWS

NORFOLK AND THE NAVY FUND

Ways And Means of Raising Contributions to be Discussed Today

NEWS FROM SIMCOE

Simcoe, Aug. 16.—(From Our Own Correspondent).—The executive of the County Patriotic Association has issued to about one hundred citizens throughout the county a circular requesting attendance at a meeting in the court house here this afternoon for the purpose of discussing how best the county can contribute its share towards the Navy Fund.

These addressed have been requested to bring others with them. A large attendance is desired. Inadvertently only one local paper was advised of the move, and inadvertently no doubt the four county papers outside Simcoe have perhaps been overlooked. It is well that the movement should receive the greatest possible publicity and in view of the harvest and threshing season being on in earnest, with the Toronto Exhibition in the offing and due on the week set for the campaign, too much publicity can hardly be given to the movement.

Mr. Frank Reid, treasurer of the local voluntary subscription fund to finance the I.O.D.E. here, has published his audited statement for the year ending June 30th and besides the summary of receipts and disbursements which we gave Courier readers early in July, there is a detailed list of the contributors and the amounts given by each. These latter vary from \$480 to 25 cents. The largest contributor was Harry J. Brook. Other contributors giving \$200 or more, are J. E. McClelland, \$470; W. L. Innes, \$240; C. E. Innes, \$240; W. P. Innes, \$200; Brook Woolen Co., \$300; J. B. Jackson, \$240; Senator McCall, \$360, and among the others many gave magnificently of their means. The committee requests a continuation of the support on behalf of old and new contributors.

Another Youth Worthy of Medal. Frederick George Cooper, aged 11, of Lynedoch, is given credit for rescuing from drowning in Big Creek, a 16-year-old boy, George Nix, by name. This will remind our readers that no public cognisance has yet been tendered our own youth, Mastered Ted Richards, for similar gallantry at Normandale last summer, except a motion of com-

AUSTRIAN EMPEROR ON WESTERN FRONT

Is At German Main Headquarters Confering With Kaiser

By Courier Leased Wire
Amsterdam, Aug. 15.—Emperor Charles of Austria is at German main headquarters, according to a telegram to The Lokal Anzeiger of Berlin from Karl Rosner, its correspondent.

Emperor William and his advisers have been holding an important conference at headquarters, the correspondent reports, and these deliberations on political and military questions are reaching their highest point with the coming of the Austrian Emperor and his advisory staff.

Rosner's telegram, which was sent from German main headquarters, has been the scene of important and fruitful deliberations by the Kaiser and advisers on political and military questions. With the arrival of Emperor Charles and his political and military advisers the deliberations are reaching their highest point.

Accompanied by Count von Wedel, Admiral von Hintze (the German foreign secretary), and his suite, the Kaiser received his august subjects at the station. After an exchange of party greetings and the presentation of the suites the Emperor and their personal retinue proceeded to the quarters of Field Marshal von Hindenburg and General Ludendorff to hear their report on the military situation.

CHANGE RAILWAY SERVICE.
By Courier Leased Wire
Chicago, Aug. 15.—An ordinance giving cities of municipal operation of surface and elevated street car lines and subways to be constructed without owning them was passed by the City Council late last night, subject to a referendum in November unless voted by the Mayor when a two-thirds vote will be necessary to repeal. Under the terms of the ordinance the roads would be turned to a board of nine trustees; the lines will cease to be operated for profit to the surety holders and service to the public will be given at cost. The securities are allowed an interest return of 6.2 per cent until 1922 and 5.3 per cent after that, or an average of 5.3 per cent for a thirty-year period.

ITALIAN OFFICIAL.
By Courier Leased Wire
Rome, Aug. 14.—Following is the text of the Italian official statement issued to-day:
"Monday night attempted enemy attacks on advanced posts on the Pavroch and Konigritz were repulsed. In the Tonale region between the head of Noce Torrent and the head of the Geneva Valley our artillery carried out effective concentrations, inflicting losses on the enemy."
"Under the bombardment our detachments carried out thrusts and succeeded in occupying Monte Mantello, Punta di St. Matia and the spur southeast of Cima Seigolon. One hundred prisoners, machine guns and material was captured."
"The enemy made thrusts again where the Noce, Sarca and Genova have their sources. Excepting for pushing back a few mountain posts he nowhere achieved successful results."

Several hundred cords of wood have been purchased by the city of Sarnia and this will be held as a reserve supply.

HOW CANADIANS TOOK THE VILLAGE OF PARVILLERS

Smart Operation Enabled Them to Straighten Out Their Line

MORALE IS SPLENDID

Canadian Press Correspondent Tells Spirit Which Animates All

JEALOUSY UNKNOWN

By J. F. B. Livesay, Canadian Press Correspondent.

With the Canadian Forces, Aug. 15.—The Canadians captured the village of Parvillers in a smart operation, which enabled them to straighten out their line in that sector of the front. A number of machine guns and prisoners were taken. The latest report was that our troops were holding the village, and reinforcements have gone in support against the strong post the enemy has in the vicinity.

Enemy artillery activity indicates a stiffening of resistance. Hostile aircraft have been considerably strengthened on the whole of this Amiens-Montdidier front.

Some thirty-four enemy divisions have been engaged, including eleven fresh divisions, and two tired divisions from his reserve. The enemy has used up every battalion of two of the four divisions holding his line in front of the Canadians, these being the Seventy-Ninth, and the One-Hundred-and-Eighth.

The better one comes to know the Canadian, the more one realizes the band of brothers they are. There is no jealousy between division and division, brigade and brigade, or battalion and battalion. All have the highest admiration for the other fellow, and most modest conception of the value of their own particular job. There is a total absence of swank. They have pride in their force, and in the intense satisfaction that they are Canadians, but there is nothing personal about it. They are part and parcel of a wonderfully efficient machine, each carrying on his allotted job in humbleness of spirit.

The tenacles of battle that follow are garnered in a visit to a couple of units and therefore are typical of the entire force. The diaries of battalion commanders must team with them and in time these will be available to the Canadian people as a priceless record of a great feat of arms. In the meantime, such as these may serve. All day Thursday, when the battle opened, great difficulty was met in advancing on our extreme left. The nature of the ground and strength and depth of the enemy defense made this a much harder nut to crack than the comparatively free going over the prairie to the north. Finally it was decided that the only way to advance was to turn the left flank. A famous Quebec battalion was entrusted with the task. The unit was to take up their position in the flank by the aid only of the start, maps and compasses. Only military men can comprehend the difficulty of the undertaking. At the appointed hour—half past four in the morning—they were on their feet, and when they advanced and took the position, forcing the entire enemy line in this sector to fall back with trifling losses to us.

One officer had a bet with another

LEFT BANK OF DON

Boleshevik Claims.

London, Aug. 16.—The Bolsheviki Government in an official statement claims the capture of positions in the Archangel district, where there are Allied troops and says that their adversaries have abandoned the fighting near Onega, according to a Renter despatch from Moscow.

A series of successes, which apparently are of minor importance, also are claimed in the operations against the Czech-Slovaks. The newspapers at Kiev report that the Cossacks from the northern region have entered the Government of Veronezh.

A despatch to The Colonist, Zetung says that the Don and Cuban government and the leaders in the adjoining regions have entered negotiations looking to the establishment of a joint central government.

British Halted.
London, Aug. 16.—The population of the Murmansk region received with joy the British force that landed there recently, according to an Allied diplomat, who has arrived in London from Petrograd.

"It was in Murman when the British troops arrived," he said, "and an Allied diplomat, who has arrived in London from Petrograd, the pleasure that the arrival caused. Old men and women wept with tears of joy, crying: 'At last Russia will be saved. The peasants, workmen and soldiers know that Germany is their enemy.'"

"Never has the situation been so favorable as to-day for the presence of the Allies in Russia. Many men in Petrograd who held high positions in the old Russian army say their worst enemy is Germany. They have told me that they know now that the only real friends of Russia are the Allies."

Correspondence Restricted.
London, Aug. 16.—The Soviet Government, says a Russian wireless message, has issued an order that correspondence to foreign countries must not be accepted "for some time to come except for the Ukraine."

PERMANENT MINISTERS IN OLD LAND

Colonial Representatives to Imperial Conferences Will Stay in London

London, Aug. 16.—Canadian Press Dispatch from Reuter's Limited.—The Times announces that the Imperial War Cabinet has decided that each dominion will be represented by a permanent minister in London, who will attend the periodical meetings of that body. Possibly Sir Edward Kemp will continue to represent Canada, and presumably General Smuts will represent South Africa. It would be very unwise to jump to the conclusion that Premier Hughes desires the post of permanent minister of the Commonwealth of Australia.

The expedient is unlikely to be a final solution of the problem, it will be still necessary. Editorially the Times recommends this useful innovation, and says:

"The heads of the dominion governments should periodically come to London, but the permanent ministers here should be able to keep in personal touch with events and act as channels of communication between the British war cabinet and their governments."

GUARANTEES RE-ESTABLISHED.
By Courier Leased Wire
Havana, Aug. 16.—In a special decree issued last night, President Moncal re-established constitutional guarantees throughout Cuba. They were suspended on July 13, 1917. The President also issued a statement guaranteeing the purity of the elections next November and the protection of all voters.

PHILIPPS HIGH IN PARIS.
By Courier Leased Wire
Paris, Aug. 16.—(Havas Agency).—From the first quarter of 1911 to the second quarter in 1918 the cost of living rose progressively 332 per cent. This is based on thirteen main commodities investigated by Minister of Labor Colliard, an

MORE TRAINS FOR THE EXHIBITION.
It is customary each year for the Canadian railways to give special rates to the Canadian National Exhibition. This year there has been no public announcement regarding the intention of the railways in this respect, but it is understood that the local agents have received a circular giving them instructions regarding the matter and anyone applying to them will find this information available. The traffic congestion has been immeasurably improved, since, this time a year ago and prospects at the present time are that there will be a larger and better train service from all points to Toronto and return.

WON BY DEFAULT.
The all-star team of the Brantford city softball league journeyed to Hamilton on a wild goose chase last evening. The team that they were to play failed to turn up, and as a result the Brantford boys had a few hard thoughts of the Ambitious are also regarding the Trans-Caspian railroad to prevent the enemy from gaining access to Afghanistan and the Indian frontier.
