VOTERS' LIST COURT

NOTICE is hereby given that a court will be held pursuant to the Ontario Voters' List Act, by his Honor the Judge of the County Court of County of Wentworth at the Court House, Hamilton, on Thursday, December 23rd, 1920, at 9 a. m., to hear and determine complaints of errors and omissions in the Voters' List of the Municipality of Waterdown for the year 1920.

J. C. MEDLAR,
Clerk of Said Municipality.

PAN-AMERICANISM.

Chief Apostle Wants Co-operation of Canada.

John Barrett, the unique, the irrepressible, the lovable, finally has retired from the directorship of the Pan-American Union after 25 years devoted to the public service, 14 of them spent in the upbuilding of the Pan-American Union. He is succeeded by the capable Dr. L. S. Rowe, a former assistant secretary of the Treasury, later in charge of Latin American affairs for many years. Mr. Barrett resigned for the reason, which he frankly states, that if he remained much longer at his present post he would find himself "in danger of going eventually from the beautiful Pan-American Union, which he loves with the affection of a parent for its favorite child, to the lowly poorhouse." Mr. Barrett says that after spending a month with his aged mother at the family homestead in Grafton, Vt., and a brief trip to Panama to assist in the inauguration there of the new Pan-American College of Commerce, he will establish connections in large American cities as a general counsellor and adviser in Pan-American and other international affairs, based on his long official experience.

An entirely separate and civic project of international character, however, to which he will contribute his spare time and which will most appeal to public interest, will be the carrying to early completion of the organization, already initiated by him, of a great popular and practical "League of American Nations and Peoples," which will probably be known either as the "League of the Americas," or the "Pan-American League." Its purpose will be to organize effectively for Pan-American progress, prosperity and peace that large and rapidly growing number of men and women in North, Central and South America who realize the immense possibilities for the good of the Americas which will result from their economic, social and intellectual co-operation, free from political, governmental or official control. This league will in no sense be a special agency of the United States for advantage over the other American countries or antagonistic to Europe or Asia, Mr. Barrett says, but a natural and logical co-operative effort of Western Hemisphere peoples, from Canada to Chile, for Western Hemisphere good.

A new and important feature will be the active participation of Canadians, who heretofore have been treated to a degree as outside of the Pan-American family. It will not rival in any way or clash with the work and prerogatives of the Pan-American Union, as a great international office which is strictly official and hence limited in its popular activities. It will co-operate with and enlarge upon the work of the powerful Pan-American Society of United States, whose headquarters are in New York city and of which Mr. Barrett had the honor to be the founder several years ago.

Mitchell Kept the Bridge.

A modern Horatius at the bridge was Capt. C. N. Mitchell, V.C., of the 4th Battalion, Canadian Engineers, who is now located at Scottsbluff, Nebraska. It was due to his valor and decisive action that an important bridge across the Canal de L'Escaut, near Cambrai, was saved from destruction in October of 1918.

In total darkness, and unaware of the position or strength of the enemy at the bridge-head, he dashed across the main bridge over the canal. This bridge was found to be heavily charged for demolition, and whilst Capt. Mitchell, assisted by his N.C.O., was cutting the wires, the enemy attempted to rush the bridge in order to blow the charges, whereupon he at once dashed to the assistance of his sentry, who had been wounded, killed three of the enemy, captured 12, and maintained the bridge head until reinforced.

Then under heavy fire he continued his task of cutting wires and removing charges, which he well knew might at any moment have been fired by the enemy.

Lamp wires which will last a year are made of asbestos boiled in wax.
