Carpet Paper and Stair Pads ALWAYS IN STOCK.

ETTER & PUGSLEY

Mar. 20, 1888. AMHERST, N. S.

Joggins. A new hotel is greatly needed at the Joggins shore.

Joggins Railway calls for tenders for painting their station houses. The Atlantic Stone Co. is opening a quarry at Port Philip this summer, under the management of Mr. J. W. Lowe.

Hay is now regularly shipped from Woodstock to Halifax. Loose hay sells in the former place for \$5; the freight is \$43 per car.

Father Tremaine, of Truro, who officiates at the Joggins, is an advanced temperance advocate, and a few days ago induced fifty miners to sign the pledge.

Mr. John W. Lowe, of Barronfield, ships, in a few days, three carloads of Polled Angus to Calgary, North-West. Last year he shipped a lot to Denver, with good financial results.

Mr. C. A. Lowe has returned to Spring Hill Junction and become agent there again. His position as book-keeper for Rhodes, Carry & Co., has been taken by Mr. Leslie Cole, a son of the late James C. Cole, and a promising accountant.

Mr. Joudry, of Amherst, who probably sells more tickets than most station agents on the I. C. R., says that two-thirds of the emigrants are going to the North-West and Pacific coast; about one-third to the United States. Emigration to the latter country from this vicinity is much less this year than usual.

In the improvement of stock this country is making great strides. The latest additions to be noted to pure bred stock is the importation first made in Amherst by Messrs. J. R. Lamy, A. B. Etter and George O'Brien, who have brought from the United States six Kentucky mares of the Hambletonian breed.

GAXAGUO, March 21st, 1887. Messrs. Falford & Co., Brookville, Ont., Gents.—A prominent citizen of our town expresses great delight over the miraculous healing properties of your Nasal Balm. He has suffered for a long time from a severe headache over the eyes, and his head was so stopped up that he was in great distress. One application gave him instant relief, and in two days he was entirely cured.

W. B. FULLERTON.

Special Locals.

Prints, Prints, Gingham, Gingham, at Pickard's.
Pickard's for French Dress Goods, imported direct.
Honey-Comb Quills and Table Linen, at Pickard's.
Oats—500 bushels Heavy Black Oats at C. Pickard's.
M. Leist, Watchmaker, has removed to the corner store in Main St. Wall Block.
All kinds of Jewelry and Silverware repaired in Gold or Silver by A. R. Bliss, Telephone Office.

Don't buy your new Hat for spring before Pickard's American Styles arrive—something new.
Ladies who want to know what to buy and where to get their Spring Outfits should not fail to be present at F. A. Wilson's Spring Opening, which takes place on 5th and 6th of April. Special show of Lace and Embroidered Dresses.

Photography. Messrs. C. Morrell have opened a Studio opposite the Brunswick House, and for the purpose of introducing their work, will for the next thirty days, make Photographs at the following reduced prices: Cabinets, \$4.00 per doz.; 25.00 half doz.; Cards, \$2.00 per doz.; 12.50 half doz. Pictures taken in studio or in cloudy weather. Satisfaction guaranteed. Tintypes taken if required.

LOCAL MATTERS.

NEW ORGAN.—The director of St. Joseph's College, Memramcook, has purchased a new vocal organ for that institution from the agent here, Mr. G. C. Fawcett.

EXCURSION tickets at one fare will be issued from all booking stations on the I. C. R. and Eastern Extension railway, on 29th and 30th March, good for return up to 3rd April.

A FINE ANIMAL.—Yesterday Mr. James Melnois shipped to Boston a very handsome grey filly which he purchased from Mr. David Wheaton. The colt, which weighs 1,175 lbs., will be three years old next July.

THE SECRETARY SEAMEN'S FRIEND Society, Halifax, acknowledges with thanks the following subscriptions to "building fund" of New Stars Home. Collected by card: Miss Daisy Wood, \$11.00; Miss Lena Powell, \$4.00.

CHANGE OF BUSINESS.—It will be seen by advertisement this week that Mr. H. W. Knight has given up the saloon business and is going extensively into the fresh meat and provision trade. Mr. Knight is sure to make his new venture a success.

THE R. C. congregation of Sackville have purchased an organ for their new chapel. It was 20 minutes in the chapel last week. A choir has been organized under the direction of Rev. Father Perquis, of St. Joseph, and high mass was celebrated last Sunday.

THE BOOKSTORE has been thoroughly renovated and has had its appearance greatly improved by new paint and paper. The proprietor in offering to supply paper hangers and decorators as required has made a new departure which will no doubt be appreciated by many, and should be well patronized.

A GENUINE SURPRISE PARTY.—The Rev. Mr. Mackay, of Port Elgin, was pleasantly surprised on Tuesday last, by several friends from the Shomague section of his congregation, who visited the Manse, bringing with them a good supply of excellent hardwood. Their kindness is highly appreciated by the pastor and his family.

N. B. & P. E. Ry.—The Monday morning train to Cape Tormentine has been cancelled, but a special train will leave Sackville every Monday morning till the 1st of April, in time to connect with the ice boats. No definite time for starting can be fixed, but passengers will be able to learn the time the train will leave by enquiring of Conductor Trueman on Sunday evening.

MOUNT ALLISON.—Miss Dickie, a teacher in the Ladies' College, went to Truro yesterday to spend the Easter Holiday. Prof. Tweedle leaves today for a short visit to his home at Hampton, and Prof. Smith also goes today to visit his mother at Truro. Mrs. T. R. Davis has been seriously ill of measles, but is now convalescent. Mr. Curtis, Theological student, has been suffering from a severe attack of pneumonia, but is recovering.

POINT DE BUTE.—The Rev. Mr. Ackman delivered one of his able lectures in Upper Point de Bute last Friday evening. Music, his history and influence, being the theme. The widely extended fame of the lecturer renders eulogy superfluous. On this occasion, however, the manner in which the subject was treated, evinced such paleontological research and perspicuity of arrangement as irresistibly gave rise to the conviction that one more chapter adorned a brow already so often crowned. A selected band of musicians supported the lecturer, and at well chosen intervals, flooded the hall with success, viz: Thirty dollars. Mr. Bliss occupied the chair. Mr. Hiram M. Oopp has sold the house formerly occupied by him at Point de Bute, with land and outbuildings to Mr. J. A. McQueen.

LOCAL MATTERS.

—Hay commands a good price here.
—Tantram bridge ought to be fixed up.
—Daily services at St. Paul's this week.
—Measles are disappearing from Mt. Allison.
—Easter vestry meetings next Monday morning.
—Lower Sackville wants a good hardware store.
—The ice is disappearing in the river. The bay is clear.
—The festive sleigh bell is making way for the rumble of wheels.
—The telephone between Sackville and Dunchester works well.
—Old brand chestnut maple candy is now in the local market.
—Good Friday to-morrow. Banks and public offices are closed on that day.
—The lumber crop the past winter in this vicinity was larger than usual.

—Mr. John T. Carter, who has been very seriously ill for some weeks, is recovering.
—Mr. Alex. Fawcett has sold his mare, Black Bee, to Mr. J. Walter Allison, Halifax N. S.
—Mr. Wood's admirable speech on Commercial Union, etc., is in type; will appear in our next.
—Mr. Alfred Polley, Port Elgin, was taken to his home, the old family doctor was called, and set the bones, but unfortunately it did not stay put. The bones slipped past each other and embedded in gristle.

—The smelt train in Baie Verte is done—it was never much the past winter. About 50 tons were caught and sent over the Cape Ry.
—Messrs. Silas and Harvey Copp, Midgie, received on Monday by the Cape Ry., a portable saw mill from A. Robb & Sons, Amherst.

—Mr. A. T. Parson, manager of the N. Y. Freezing Quarrying Co., Wood's Point, and wife, arrived here on Saturday.
—One of the largest and finest importations of English goods ever made here has just been opened by Mr. Chas. Pickard.

—Mr. J. G. Huxley has leased the store next door to his own, which he will fit up with goods for gentlemen's furnishing department.

—Messrs. A. & W. Fawcett shipped on Monday an extra pair of Easter cattle to Halifax. They weighed about 3600 lbs.

—Mount Allison lecture course has been very successful. One of the best of the course was delivered by Prof. Smith on Friday night.

—The new parcel post system with the United States is a great convenience as well as saving to those desiring to send goods.

—The funeral of Mr. Charles Hicks, one of the most respected farmers of this place, took place on Tuesday last and was largely attended.

—Have you inspected the assessment roll for the current year and taken care that you are taxed high enough? The preliminary lists are about closed.

—The wife of L. H. Davies, Esq., M. P., came over in the ice boat on Saturday, making the trip in 20 minutes. She was en route to Ottawa.

—Mr. C. Fawcett is making pattern preparatory to introducing a new line of styles of the very latest styles, selected by himself in United States markets.

—Mr. John B. Smith and family, of Batsford, leave in May for Oregon, where three sons of his are thriving. He has sold his farm to Mr. Scott.

—Two deaths in one house occurred at Mt. Pleasant, Potoford, on Sunday last. Mr. John Blacklock, an old and respected inhabitant, and his young nephew, the son of Mrs. Robt. Lamb.

—A wood-hauling party to Parson Wiggins' domicile took there great big unmanageable logs, but on Monday morning chopping followed and they were reduced to piles of highly respectable stove wood.

—Sackville, with its easy communication by rail and water, its central position, its ready access to cheap coal, its freedom from taxation, and cheapness of living, is a most desirable location for a manufacturing business of any kind.

—Stone business promises to be lively the coming summer. The local demand is good and building trades in Boston and New York are well patronized.

—The Wood Point Quarries will probably be worked up to their full capacity.

—The old graveyard at the Methodist Church is an eyesore to the place. The "dog-out" on the side of the roadside ought to have a stone wall erected as well as screening the side hill. A neat fence ought to be placed around the grounds, trees ought to be planted and walks laid off. Instead of looking like an overgrown and neglected backwoods pasture, it could be made a thing of beauty.

—The Montreal Académie records the death on the 12th inst., at St. Basil, Madawaska, of Rev. Jean Maillet. Father Maillet was born at St. Louis, Kent Co., was educated at St. Joseph's College, Memramcook, and the Grand Seminaire, Montreal, and was ordained in 1881. He was successively stationed at St. Louis, Rogersville, Carleton, and St. Hilaire, Madawaska, and at the latter place contracted consumption, from which he died.

—Ninnesch, Kansas, was almost wholly destroyed by a tornado, Saturday evening. Two churches, five stores and 15 houses were torn to pieces. The flying timbers killed a woman, a child and eight men, and probably fatally hurt two men. Fifteen others were injured.

—A mother and her daughter were the brides in a double wedding at Spring Hill one day last week. This rather unusual double ceremony was performed by Rev. W. Chas. Wilson. The name of the brides was McGillicuddy.

Murray Road.

—John B. Smith, of Woodville, is disposing of his property, real and personal, and intends to start for Oregon in the course of a few weeks, where three of his sons have been for some time. I admire his courage while I deeply regret the loss of a citizen like J. B. Smith.

—Thomas S. Wood, of Port Elgin, met with a very narrow escape while driving on what is known as the Robinson Creek; his horse broke through the ice in the channel. He worked for some time and finally had to go some distance for help. The horse was very much chilled, and if it had not been for the kindness of his friend, Mr. Stephens, who kindly allowed him the use of his kitchen and cooking stove, besides a drink of ginger tea, and a full supply of oats, &c., we venture to predict that Tom's horse's trotting days would have been over.

—No doubt but many of your readers will remember that in August, 1886, Albion Allen, of Woodville, Murray Road, had his leg broken in the woods, while attempting to release an ox from his savage and properly set by Dr. Dobson and Mitchell, of Amherst, who opened the flesh, removed the gristle, and extended the leg to its proper length. The leg was then done up in a calico boot, after remaining about three weeks the boot was removed and the leg done up in a liquid glass boot. He is back to his home and has every hope of it being a perfect job.

—The dull winter is at an end and business is improving slightly.

—It is rumored that some of our merchants are going to sell out and go to California very soon.

—Messrs. H. Eiderlin & Co., are building a schooner of about 100 tons register to be launched in May.

—Rev. J. S. Coffin, agent and lecturer of the Grand Division, delivered an address here Tuesday evening.

—The river is clear of ice and there is nothing to hinder navigation. Loading Coal commenced on Monday.

—The deal shipment will this year probably exceed last year by 1,000,000 sup. feet, and 10 or 12 vessels (Norwegian) have been chartered already.

—Messrs. Henderson Bros., have opened a boot and shoe store and have a number of hands employed making and repairing boots, shoes and appliances.

—Mr. N. H. Upham, has purchased the Rytkoff building, and established a provision and feed store, and has on hand a large stock of hay, oats, flour, &c.

—Mr. J. A. Jackson, has had three men besides himself employed making pans and molds for sugar-making. New sugar and candy were brought in a fortnight ago.

—The Cumberland Ry. & Coal Co.'s pier has withstood the ice without showing any signs of being damaged. The ice went away from it last Saturday and the vessels are now in the loading berths.

—Price Brothers have removed to the store in Harrison's block, which has been enlarged, and are removing their spring goods. L. Oates has removed to the store lately occupied by Price Bros. and has a fine stock of goods on hand.

—Capt. D. W. Carter has purchased the steam tug Acadia, at Yarmouth, and will bring her here the first of April. Capt. Howard is putting his tug, the Bertha, in condition, and will also have her on this river.

—The contract for supplying the Grand Trunk Ry. Co., with Coal at Portland, Me., has been secured by Maryland parties and is quite a disappointment to the people here, as the Spring Hill Mining Co. had the contract last summer and shipped the coal from here.

—The Ry. Company's safe here was blown open last Wednesday and a tin box containing \$43 and a quantity of deeds was extracted. The box containing the deeds only was found on Friday in a coal boiler. There is a clew to the burglar and he will probably be caught.

—J. R. Lamy and A. B. Etter are away to New York making additional purchases of horses.

—The Band Promenade Concert last week realized over \$80.00. Good music and refreshments were provided during the evening.

—D. J. Chapman and wife returned from England last Sunday. They report a very pleasant trip and are looking well.

—Century Court opened on Tuesday, Judge Morse presiding. As there is not a very formidable docket the court will probably close to-day (Thursday).

—James Brown is building a new front to his store on Victoria St. With new iron plate glass windows and electric light, Mr. Brown is bound to keep the "London House" in the first rank of our live mercantile establishments.

—Plans of the new Court house have been received by the clerk of the Municipality and tenders for building are asked for. It is to be built of stone similar to that used in "Black's block" and be large enough to contain all the County offices.

—The Peristia, the last weekly mail steamer at Halifax, landed about 1,800 tons freight. She had about 900 passengers.

Petitcodiac.

—Fowler & Lowry are carrying on an extensive tanning business. Their leather bears a good reputation and the demand is increasing.

—D. A. Jonah is doing an extensive and increasing business in the manufacture of doors and sashes, &c. His manufactory is near the railway station.

—D. L. Triles, of the firm of Humphrey & Triles, is preparing to build a fine residence for himself during the coming summer. He has chosen a commanding site near the railway station, and it is expected that the new house will be the finest in the place.

—There is considerable activity in the lumber business this season. D. J. McLaughlin's mills, of which E. P. Eastman is manager, will cut between 6 and 8 million superficial feet. Humphrey & Triles will cut between 3 and 4 million feet of various kinds of lumber. Wilson & McLaughlin, Annapolis, will cut about two million feet. The mill belonging to the Sir Albert J. Smith estate, under the management of Early Kay, will cut about 1 1/2 million feet, and John Foundas will cut about one million. The cut of the other mills in the vicinity will be about as usual.

—The proprietor of the Mansard House is demonstrating the fact that a good hotel can be run without a bar, but thinks that the rigid enforcement of the law is a surprise to many who supported the Act at the late election. He says that since his bar has been closed he has had applications for liquor from ten times as many persons as voted against the Act in that section, and that some seem very much surprised at their inability to get what they want without a doctor's certificate.

—It is quite possible that some who voted for sustaining the Act would have hesitated if they had supposed it would really be enforced. Be that as it may, the Mansard House is none the less comfortable as a home for travellers now that an earnest effort is being made to enforce the law.

—The citizens temperance committee have issued a circular in which they call attention to the fact that the Canada Temperance Act has been amended, and solicit the co-operation of the public generally in their efforts to carry it into effect. They quote some of the most important sections of the Act, and remind the public that any person frequenting a place where it is suspected liquor is being sold, is liable at any time to be arrested under a warrant and required to give evidence under oath against the person suspected. They also announce that a committee of five select men has been appointed to obtain from any and all sources information against any violations of the Act in this section of the county, and bring action against the same as expeditiously as possible, and they conclude by beseeching public sympathy, support and co-operation.

—Dorchester. Joseph Warren is recovering from his late serious illness.

—A petition to the Local Government is being presented to make Geo. M. Fairweather vendor under the Scott Act.

—The frame of the new window for Trinity Church is in its place and now comes word that the glass cannot possibly be shipped from Montreal as agreed, so as to be here before Easter, nor for two weeks yet. Those interested are greatly disappointed.

—John Thompson, of St. John, traveller for J. & A. McMillan, died at the Dorchester Hotel on Friday morning last. Mr. Thompson had been detained by a snow storm which developed into pneumonia and caused his death.

—Some wretch is trying to poison all the best dogs of the place and has already succeeded in destroying two fine animals belonging to Lady Smith, the dogs of A. W. Chapman and H. R. Emerson as well as those of several other citizens. A. W. Chapman offers a reward of \$10 for his discovery.

—The following extract from a Rockland, Mass., paper will be of interest to Dorchester people: "Mrs. Thomas Landry, of Union Hotel, who recently came from Dorchester, N. B., was given a genuine surprise, in the form of a pound party at her residence last evening. A large number of friends were present, and the occasion was an enjoyable one."

—A convict named Garvin, from St. John, escaped from the Penitentiary on Monday. He was working in the road with others, and about noon the guard sent him ahead to prepare dinner in a hut that was used for that purpose. When the guard and other convicts came to the hut they found it was on fire and that Garvin had gone, taking with him the dinner for the others, who were at once taken to the prison and an alarm raised. The guards searched all the afternoon and tracked Garvin through the snow towards Sackville, but were unable to find him. On Wednesday morning Mr. Geo. W. Milton, of Fairfield, found the escaped convict on his place and captured him. Garvin was sentenced to a term of 5 years, of which he had served all but five months. He comes of bad stock, is about 21 years old, and has a brother about 24 years old who has served two terms here and is now in the State Prison at Thomaston, Maine.

—Do You Think you can get anything better than SIMON'S LUMBER for Rheumatism, Sore Throat, Sprains, Bruises, Stiff Joints, Lumbago, &c. If so, we cannot think all people think as you think, and we will think that the many testimonials we are receiving from honest people who conscientiously think they have been benefited by its use, and we think that you will think it too, after you have used it for any of the above diseases.

—Henry James has written a paper on Robert Louis Stevenson which will appear in the April Century, a portrait sketch of Stevenson's very individual face by Alexander.

Bals Verte. Hotel Arrivals.

—Diphtheria has made its appearance at Little Shomague; a son of Mr. Robert Lamb having succumbed to that fatal disease on Friday.

—People driving on the ice should be very careful when they get on the bay creek, as it is in some places very bad. Several horses have already got in.

—Mr. John Muttart's mud digger is now in operation on the river. The mud, we are informed, is of a good quality and Mr. Muttart intends giving it a fair trial.

—Our veteran loyalist, Capt. Weeks, who has been seriously ill, is, we are pleased to announce, now convalescent; so also is Mr. Dyrce Chappell who has been confined to his house for some time on account of lung trouble.

—The basket sociables, held at Port Elgin and here on Friday and Saturday nights respectively, in aid of the minister's salary, were quite well patronized, realizing in the aggregate the sum of forty-five dollars and fifty cents.

—Dr. Edward Fillmore, of Spencer's Island, N. S., son of Mr. James Fillmore, Baie Road, arrived here on Thursday afternoon's train, and on Friday joined the noble army of benevolents. Miss Nellie Amos, second daughter of Mr. Thomas Amos, of this place, was the fair damsel of his choice. The event was unostentatious and sensible. The happy couple left the next day for their new home, where, we are pleased to learn, the young doctor is fast building up a splendid practice. We wish the young married pair every happiness life is capable of affording.

Religious Services. Service, Presbyterian Church, Sabbath, April 1st—Sackville, 11 a. m.; Dorchester, 9 p. m.

MARRIED. At Hillsboro, A. C., 10th inst., by Rev. Camp, Daniel McDonald, of Cape Breton, to Abigail H. Stevens, of Hillsboro. At Harvey, A. C., 20th inst., by Rev. J. S. Allen, John S. Hopkins, of Hillsboro, to Kallie, daughter of W. H. A. Casey. At Turle Creek, A. C., 10th inst., by Rev. Joseph Hogg, Thomas B. Bower, of Moncton, to Mary Ida Wilson, of Turle Creek.

At the residence of the bride's father, on the 22nd inst., by Rev. W. E. Hall, Leonard Bailey, to Maggie, daughter of Mr. Joseph Bickerton, of Sackville.

At Reading, Mass., March 16th, by the Rev. W. Humphrey, Sydney D. Heckbert, of P. E. Island, to Estelle M., daughter of the late Capt. John L. Bower, of Sackville.

At the residence of the bride's parents, by Rev. Stephen T. Teed, on 23rd inst., Edward W. Fillmore, M. D., of Spencer's Island, Cumberland Co., N. S., to Nellie, daughter of Thomas Amos, Esq., of Baie Verte Road.

DIED. At New Ireland, A. C., 21st inst., Thomas Morrey, aged 71 years
