

Want to Feel Just Right?

— Take an NR Tonight —

JUST TRY IT AND SEE how much better you feel in the morning. That "tired," "headachy," "thirsty," "don't-know-what's-the-matter" feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or stubbornly constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after this will be sufficient to keep your system in good condition—keep you feeling your best.

United States Coal Strike Ended

Indianapolis, Dec. 10.—With but one dissenting vote the general committee of the Mine Workers' of America in session this afternoon voted to accept President Wilson's proposal for immediate return to work pending final settlement of their wage controversy with operators by a commission to be appointed by him.

Telegrams were sent out tonight to the four thousand locals of the union by international officials of the mine workers, immediately. Full instructions with regard to the agreement will be sent out tomorrow morning.

Operators tonight predicted full resumption of operations Friday and shipments of coal from the mines beginning Monday morning.

Mine operators and government officials, alike, were highly gratified over the settlement tonight and all sides appeared confident of a final satisfactory settlement of the fight by the commission.

The action today ends a tie-up of the local industry of more than five weeks duration and one which was more far-reaching in its effects than any other in the history of the country. As a result of the strike the country was fast approaching a complete shut down of industry and widespread suffering among its 100,000,000 inhabitants.

The decision of the miners, came after many hours of debate in which the radical element in the general committee made incendiary speeches against operators and others interested in settlement of the strike and for a third time threatened to defeat efforts to settle the strike at this time. The conservative element led by acting President John Lewis and Secretary-Treasurer William Green, gained control of the situation this morning and succeeded in putting down practically all opposition by the time the question came to a vote.

One concession was made to the radical. The convention agreed to the call for a general convention of the miners at a future date, at which time the action of, and reason for, the general committee will be fully explained. The opponents of acceptance of the president's plan made their fight principally on the theory that only a general convention of the miners had power to call off the strike.

Members of the general committee to night steadfastly refused to make public the name of the delegate who cast the one dissenting vote.

Two statements were given out following adjournment of the conference by Attorney-General A. Mitchell Palmer, who first submitted the president's proposal to acting President Lewis and Secretary-Treasurer Green at a conference in Washington last Saturday, and came to Indianapolis Monday to await the outcome of consideration of the plan by the miners general committee. Mr. Palmer's first statement expressed his gratification at the decision of the United Mine Workers and commended Mr. Lewis and Mr. Green for "their wise and patriotic action."

A supplementary statement issued this evening follows:

"The miners at their meeting this afternoon accepted the president's proposal exactly as written, and I understand the operators committee have announced their acceptance of it. It provides for the immediate general resumption of operations in all districts upon the basis which obtained on October 31, 1919, except as to wages, which are to be fourteen per cent higher than at that date. This means that the men shall be taken back to work in all mines in the positions and upon the terms of their contracts of employment then existing and it is confidently expected that the mine owners will accede to the government's earnest request that the status quo of October 31, be promptly reestablished in order that peaceful relations between employer and worker in all parts of the mining fields may be immediately resumed. I am asking the governors of all coal mining states to cooperate in the effort to bring this about."

A WARNING TO WEARERS OF THICK MUSTACHES

London, Dec. 10.—Wearers of thick mustaches should take warning for the dangers of appendicitis lurk in every hair. When the appendix of a patient operated on in a London hospital was opened 25 hairs corresponding with those of a man's mustache were found in a clump forming a small ball.

The man wore a mustache of the "soup straining" species but now described as "Old Bill's." He said his doctor says that mustache hairs adhered to his food and had found their way to his appendix.

"My dear sir," said the salesman, courtesy, as he handed the customer his package and no change, "you will find that your suit will wear like iron." And sure enough, it did. The man hadn't worn it two months when it began to look rusty.

Greedy Cause Of H.C.L.

Winnipeg, Dec. 11.—"Greedy is the cause of the high cost of living and your company takes advantage of the law of supply and demand, you may as well admit it," said Commissioner W. F. O'Connor, K. C. of the Board of Commerce, to James Carruthers, general manager of the Crescent Creamery Company, at today's session of the Board, following a remark by Mr. Carruthers that as long as his firm was in business it would take advantage of foreign demand because "business is business."

The witness had been asked to say whether in his opinion cost of producing butter should be the ruling factor in regulation of selling prices to the Canadian consumer, or if it should be governed by the fact that some starving people in Czechoslovakia were forced to pay high prices because of heavy transportation charges and other costs.

Under cross-examination Mr. Carruthers refused to admit his company was instrumental in boosting the price of butter, declaring that competition was responsible.
