A MYSTERY.

The following is from a Liverpool newspaper:

"A man and a woman, strangers to the city, and lost in their questions as to hotel, were seen to enter the house of Joseph Leonard, well known in this part of one of the most cultivated areas of the metropolis."

"The man was the tenth Wallbridge and became one of the most popular workers who did the work of the city, and the woman for Jim, the son of a well-known architect."

"My second is in fact not true, but My third is in fact not false, My fourth is in fact not true, My fifth is in fact not false, My sixth is in fact not true, My seventh is in fact not true, My eighth is in fact not true, and My ninth is in fact not true, and My tenth is in fact not true."
