Dear Sir,—I notice by M. C. reports that there was quite a lively discussion for the credit of lights on Battery Road, I am reminded that during the Road, I am reminded that during the past three or four years the South Side Road from Job's Bridge West has been under discussion. The road was to be widened and three or four lights crected. The Premier, Sir E. P. Morris, intimated that he would make a personal visit with that object. Sir Edward may have come, but the widening of the road or the lights haven't. The road now is in a very bad state, the sod under where the fence was is the sod under where the fence was is from 6 to 8 inches over the road, thus stopping the water from running off and forming pools of water and con-sequently mud. The fence is nearly all gone and the place needs a new one. Now, Sir Edward and colleagues and Mayor and Councillors, don't all speak together but act, don't los

I also notice that Sir Edward is going to recommend that Mr. B. Squires acts of heroism be recognized. know Mr. Squires for many years as a good, honest, upright man, also that he is a first rate carpenter, and if a new fence is put up I would recom mend him for the job

The Government official at the King's Bridge who persists in wilfully and maliciously lying about "Godless Schools" being the policy of the Liberal Party, should remember that he's a public servant and that there's a fate in store for such as he.
