Dear Sir,—I notice by the 'News' Chas. B. Bartiett app. vs Michael J. Mc.Evoy, resp. Hearing adjourned from Circuit is morning that the Rev. Dr. Whe lan has asked you to publish his letter. As my name is brought in will you give space for my reply. Thank-

ditor Evening Advocate Dear Sir,-In reference to your statement made in an editorial some days ago "that Mr. Grimes had on he road monies would be spent only through the proper channels" the Rev. Gentleman says in reply, "Mr. Grimes

for expenditure at North River, that I always told him that when such monies were available they would be sent to the chairman of the Road Board." The Rev. Gentleman further states. "I know that while Mr nine o'clock Saturday night, having failed to reach Clarenville, where she Grave that monies were taken from en to people to expend who had no legal standing whatever under the Local Affairs Act." If this is so Mr. Editor, it was done without my know-

ledge, and I should like to have him cite all such cases. At the same time he might tell us the names of the persons amongst whom he distributed the seventeen hundred and fifty dollars received from the late Government. Also if it is true that he told three or more electors that he could get what money he wanted from Sir

I do not dispute the fact that abuses occur in the expenditure of public monies and in the correcting of these abuses I agree with you, Mr. Editor, that clergymen do not help matters by exercising control. In fact in certain mixed communities it has done

more harm than good. Further I would say that there are Road Boards who have expended pablic monies free from the control of
