

Honored by Women

When a woman speaks of her silent sufferer, she speaks of a sufferer who is not known to the world. Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

IT MAKES WEAK WOMEN STRONG
IT MAKES SICK WOMEN WELL

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the World's Favorite Prescription, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement once a day.

President Angus is not building banks

President of Bank of Montreal Accompanying Sir Thomas as Sightseer

Captains of Finance Spend Quiet Evening Aboard Private Car—Smoking

"Not being at the head of the bank of the Royal Bank, but merely at the head of the bank of the Bank of Montreal," said President R. B. Angus, of the latter institution, last night, "I can't say anything about the bank's intention as to the erection of a new bank building in Calgary."

Then President Angus, Sir Thomas and the accompanying capitalists aboard his private car indulged in a hearty laugh.

Stated in the observation compartment of the rear car the captains of finance were having a quiet evening, smoking and talking over business matters. Through the cloud of fragrant Havana smoke President Angus said the Bank of Montreal was desirous.

"What can you say regarding the financial situation and any contemplated changes in the affairs of the Bank of Montreal?" he was asked.

"Nothing, only we are not creating any new buildings, and doing anything else, just taking a trip, viewing the prospect of the west."

It was evident someone had a good story under way when the conversation occurred, and the auditors were awaiting the climax, so everybody roared. President Angus's brief statement, and as he repeated it, dropped off the rear end of the coach he caught the final remark:

"As I was saying—"

THANKSGIVING DAY
MONDAY, SEPT. 21

Calgary, Sept. 12.—The cabinet council had not yet considered the date for Thanksgiving, but the holiday will probably be fixed for Monday, September 21.

CONCRETE TRUNK SEWER
TO SERVE MANCHESTER

Plans for a big 36-inch concrete trunk sewer, to serve the Manchester district, and estimated to cost approximately \$132,000, have been approved by City Engineer J. T. Child.

The plans will be sent to the city commissioners with a recommendation that by law be prepared to cover them, and sent up to the council for approval.

The sewer as planned will be a main artery draining a district covering the entire New Manchester division and vicinity. The sewer will be 32,980 feet or 2.64 miles in length. The estimated cost follows:

12,360 feet, at \$10 per foot, \$123,600
Engineering and sundries, 5%, 6,252

It is planned to run the sewer from the New Manchester subdivision northward parallel to the Macleod branch tracks of the C. P. R. to Twenty-sixth street, thence east along Twenty-sixth street, thence north, turning south again to Thirteenth street east, and running along Thirteenth street east to Thirteenth street, thence east on Second street to a junction with the present big trunk sewer on Fifteenth street east.

There is no other way to reach so many people with the facts regarding the losing of finding of articles of value as through the Want Columns.

BUSINESS FAILURES IN CANADA RATHER LARGE

Ottawa, Sept. 12.—Unofficial figures just compiled throw interesting light on the comparative and proportionate number of failures in Canada and the United States. It will perhaps come as a surprise to most Canadians to learn that the proportionate number of business ventures that collapsed in the Dominion is greater than in the United States. For the year 1911 there was one business failure in Canada for every 5,100 of the population. In the United States the proportion was one in every 6,978.

Old folks who need something of the kind, find NA-DRO-CO LAXATIVES most effective without any discomfort. Increased does not need. See a box at your druggist's.

City in Brief

Chief Cuddy is providing his men who do night duty with electric torches.

The executive of the Calgary Industrial and Development bureau will hold a noon day meeting at the Board of Trade rooms today.

Joe Jenner, a bartender at the King Edward hotel, was arrested yesterday on a charge of stealing a gold watch from a guest.

When Magistrate Sanders dismissed the case of John Trefer yesterday on a charge of assaulting Ben Charles, he remarked he was sorry there was not enough evidence to convict him.

The Hon. George Morfay, minister of public works for New Brunswick, will address a public meeting on Friday night in the Liberal League rooms, Beveridge block.

The crops in the south are two weeks in advance of last year, and so far have not been damaged whatever either by rain, hail or frost, said J. Lamont, of Nanaimo, who was in the city yesterday.

Chief Cuddy is preparing a book of rules and regulations for his men, which will be something similar to those used by the Toronto police force, except that there will be changes made to suit local conditions.

The police, acting on advice from Macleod, are holding Ivy Littlewood, a sixteen-year-old girl who has been missing for some time. She was found last night on Eighth avenue by Detective McDonald.

Robert G. Patton was arrested yesterday on a charge of stealing \$40 worth of auto tools. The car from which the tools are alleged to have been taken from, belonged to C. C. Snowden company.

Victor Fitzgerald and J. McDougall, the two men arrested of assaulting and robbing W. Sullivan while in bed at a rooming house on Ninth avenue, are still held by the police, as it is expected other charges will be laid against them.

J. Cameron, on behalf of Bayshore Paul, a half breed, has served notice of appeal from the decision of Inspector Sweetapple, who recently said that the man was guilty of a fine of \$50 for supplying Indians with liquor during the Stampede.

The License Victualers' association are preparing for the local option campaign which will be held in the districts in the north this fall. For the purpose of organization work, a meeting will be held in Calgary in the near future.

Rev. and Mrs. C. C. McLaren, who have been touring Europe for the past three months, returned to the city yesterday and have taken apartments in the Underwood block. Mr. McLaren describes his trip as one filled with delights, and the trip across the ocean was devoid of anything but pleasure.

The application for a wholesale liquor license by Joseph Galletti for Riverside was refused yesterday morning by the license commissioners on the ground that it would be contrary to the act, as the premises would not be the required distance from a church.

The application of George Beaumont, of Balmore, for a new hotel license at Ogden, the C. P. R. car shops, was also turned down.

The arbitration case between the C. P. R. and the Canadian Lumber and Homestead company over the value of a gravel pit, which the railway company expropriated a short time ago, is being heard at the court house.

The members of the board of arbitrators are Judge Carpenter, A. H. Clarke, K. C. and Col. Sanders, of Edmonton. Acting for the C. P. R. are G. W. Walker and O. N. Biggar, K. C. Edmonton, and for the company are Frank Ford, J. C. Cunningham, J. J. McLennan and A. B. Cunningham, of Toronto.

SECOND WEEK OF ORPHEUM VAUDEVILLE DRAWS

Bill is Excellent, and the Big House is Filled to the Limit of Capacity

"Le Ballet Classique" is One of the Big Features and Joseph Jefferson is Another

The second week of the Orpheum vaudeville attractions at the Sherman Grand opened almost as successfully as the first, both in point of attendance and the quality of the bill, thereby putting the quietus on the pessimistic ones who predicted that the management had overdone the thing.

The identified character of the two week bill only served to show by comparison what a variety of attractions is being offered for the theatre-going public of Calgary.

This week's bill opens with a cyclone novelty by the Berg Brothers, which is clever and "travelling" with a few clown acts interspersed to relieve the tension. The act furnished by the Three Collegians is a good one, the setting is novel and their singing made an instantaneous hit with the audience.

Bowman Brothers furnished an amusing comedy skit, while Mae Melville and Robert Morris, in their sketch entitled "Just Married," handed out some new jokes and catchy songs.

"Le Ballet Classique" has the name of a French ballet in which some very clever dancing is done by Miss Domine Martin and her company. The incidental music by the orchestra throughout the act is added in no small degree to its effectiveness.

Sketch for the week is a musical farce by C. DeMille, called "In 1912." It is a story on some thin line in pieces, but there is no doubt about the quality of the act.

Jefferson, Pellos Morris and Blanche Bender. The first two named come from historic families in the theatrical profession. The bill concluded with an exhibition of magic, music and skill by the Great Asahi and his company, which surprised anything but the most experienced.

The magic ever seen here. The feats of magic are all new, while the acrobatic features of the act are dazzling in their cleverness.

WALKER WINS WETASKIWIN

Wetaskiwin, Sept. 12.—In the majority contest here today, Dr. H. J. C. Walker was elected, receiving 174 votes to 143 for his opponent Dr. W. Dugan.

White Wife of Johnson Commits Suicide

Black Champion Says Wife Broke Down in Effort to Keep Him Up

Believes He is Suffering From Some Mental Derangement as Result of Reno Fight

Chicago, Sept. 12.—Mrs. Etta Johnson, the white wife of Jack Johnson, champion heavyweight pugilist, died as a result of nervous prostration and had been afflicted with suicidal mania for some time.

The body of Mrs. Johnson, who shot herself, was found yesterday in the bathroom of the hotel where she was staying.

Johnson said that the nature and extent of his sufferings after the championship fight had been kept secret by himself.

"I am still suffering from the effects of that fight to some extent," he said.

Johnson gave his testimony in court yesterday when his wife's efforts to keep him from committing suicide were what broke down her own health.

"It is believed that I incurred brain trouble as a result of the exertion during the fight with Jeffries. This was the testimony of Johnson at the inquest here today over the body of Mrs. Johnson, who shot herself."

Johnson said that the nature and extent of his sufferings after the championship fight had been kept secret by himself.

"I am still suffering from the effects of that fight to some extent," he said.

CITIZENS ARE PICKED FOR "BOOBS" BY SMOOTH PAVING FIRMS

In his report to the commissioners, Mr. Child stated that he had sent three samples No. 2, 3 and 4, to the city engineers for their analysis.

The report would be that they are all practically the same, though the city engineers and the council have contracted to pay a widely varying scale of prices for the same.

The engineer's prediction is borne out by the report.

Where Does the Council Stand?

The engineer has been holding up the samples of the Canadian Mineral Rubber company to find out whether the city intends to pay \$2.50 a square yard for the same kind of paving that has been used for \$1.25 a square yard.

He has asked the city commissioners what they intend to do about the matter, and it will be interesting to see how much influence the paving interests have with the commissioners and the city council.

The following are the samples supplied by the various firms and long-made quotations from the report made in reading Mr. Howard's report.

Sample No. 1.—The Canadian Mineral Rubber company, Sample No. 1.

Sample No. 2.—The Canadian Mineral Rubber company, Sample No. 2.

Sample No. 3.—The Canadian Mineral Rubber company, Sample No. 3.

Sample No. 4.—The Canadian Mineral Rubber company, Sample No. 4.

Sample No. 5.—The Canadian Mineral Rubber company, Sample No. 5.

Sample No. 6.—The Canadian Mineral Rubber company, Sample No. 6.

Sample No. 7.—The Canadian Mineral Rubber company, Sample No. 7.

Sample No. 8.—The Canadian Mineral Rubber company, Sample No. 8.

Sample No. 9.—The Canadian Mineral Rubber company, Sample No. 9.

Sample No. 10.—The Canadian Mineral Rubber company, Sample No. 10.

Sample No. 11.—The Canadian Mineral Rubber company, Sample No. 11.

Sample No. 12.—The Canadian Mineral Rubber company, Sample No. 12.

Sample No. 13.—The Canadian Mineral Rubber company, Sample No. 13.

Sample No. 14.—The Canadian Mineral Rubber company, Sample No. 14.

Sample No. 15.—The Canadian Mineral Rubber company, Sample No. 15.

Sample No. 16.—The Canadian Mineral Rubber company, Sample No. 16.

Sample No. 21.—The Canadian Mineral Rubber company, Sample No. 21.

Sample No. 22.—The Canadian Mineral Rubber company, Sample No. 22.

Sample No. 23.—The Canadian Mineral Rubber company, Sample No. 23.

NO CHANGE FOR REBUTTAL EVIDENCE, SAYS CHILD

City Engineer, Despite Alderman Hornby's Statement, Denies He Had Opportunity

Despite the published statement of Alderman A. Hornby, chairman of the late investigating committee, that City Engineer Child was given an opportunity to offer rebuttal evidence before that body, the city engineer maintains that he has not.

"All I have to say," said Mr. Child yesterday, "is to repeat what I said in my communication to the commissioners."

The engineer then quoted the question as follows:

"The committee went out of their way to procure evidence which they thought would be detrimental to me. True, I had a copy of the so-called expert's report on curbs and gutters handed to me, and as it was contrary to the facts, I was obliged to make my own made two months previously. I could give no rebuttal evidence."

"To show the committee the truth, I went to the city engineer and asked him directly for the original report. He told me that Alderman Sams replied:

"If the engineer wants to offer evidence it is up to him to come before us and bring his evidence."

"I was busy with my work in here right along, and how was I to know when they were considering the report?" he concluded the engineer.

TOO LATE FOR CLASSIFICATION.

WANTED—Respectable, well educated young man, with office and general business experience, good prospects; salary about \$80. Reply in own handwriting, with references, to Box 3374, Edmonton.

WANTED—Furnished or unfurnished house in vicinity of 12th avenue and 2nd street east preferred. Box 1221, Edmonton.

FOR SALE at a bargain if taken at once, six pair blankets used one week. Inquire 525 26th avenue west. 1435-36

TO RENT—Two unfurnished rooms, on ground floor, housekeeping privileges. Apply 234 6th avenue west. 257-258

WANTED—Fifty ambitious men to enter our fall and winter classes for courses of instruction in automobile and tractor engine work. Term begins October 1st. Evening classes from 7.30 to 10 o'clock. Make all inquiries at the Secretary's office, 201 Centre street. Phone 223 and 268.

FOR RENT—One half, eight roomed house on lot and one-half, five roomed house, modern with gas, near 2nd street east. See owner, 516 14th avenue east. 576-168

WANTED—Solicitor for fixture business and housekeeping privileges. Only one with electrical experience need apply. Enterprise Electric Co., 215 10th street. 254-255

WANTED—Armature winder and expander all round machine men, steady work and highest wages to the right men. Apply Enterprise Electric Co. 215-216

WANTED—To buy, flat, top, single day, or will trade three "second hand" cars for a new one. Apply Enterprise Electric Co. 215-216

City Needs Another One

Although the plant is capable of turning out, when working to full capacity from 1,700 to 1,800 yards of asphalt concrete per day, it was figured that early in the year the plant would not be able to do more than a third of the paving which the city requires.

Had the plant been constructed last year, as urged by the Morning Albertan, the city of Calgary would have saved as yet uncomputed thousands of dollars.

The city's new asphalt plant was practically completed yesterday and will be ready to be in operation today.

It was constructed under the direction of Superintendent H. C. Brown, an Oxford man, who has been in the asphalt business for nearly 20 years, and before coming to Calgary was in charge of asphaltic construction work in the city of Seattle, which also owned and operated the municipal asphalt-paving plant. Since the installation of the Seattle municipal paving plant, asphaltic paving prices in that city were cut to the bone and thousands of dollars saved to the city.

The city's new plant is located near Mowat park and will be operated with power produced by steam furnished by the city's new garbage destructor plant adjoining the asphalt plant.

WILSON'S ELY PADS

The destruction of the house by a public utility. Almost every American State Board of Health is carrying on a crusade against the use of asbestos in the construction of buildings, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use Wilson's Ely Pads, they will be free from the danger of contracting tuberculosis.

Wilson's Ely Pads are made of a special material which is impervious to the germs of tuberculosis, and they are so constructed that they will last for years.
