TWENTY PAGES.

CALGARY, SATURDAY, JUNE 7, 1913.

TWELFTH YEAR—No. 85

HOW'S THIS FOR A CANADIAN FAMILY?

IT IS NOT A FATHER'S FAMILY, BUT A GRAND-FATHER'S FAMILY. TEN GRANDSONS AND ONE GRAND-DAUGHTER OF MR. AND MRS. ALGIE, OF ALTON, ONTARIO. THEY WERE GATHERED IN TORONTO THIS WEEK TO ATTEND THE ANNUAL DINNER GIVEN BY THEIR GRAND-PARENTS. THEIR PHOTO WAS TAKEN ON THE STEPS OF THE LEGISLATIVE BUILDINGS, TORONTO, IN THE COURSE OF A TALLY-HO RIDE ROUND THE CITY.

TREGILLUS MARKET PLAN MEETS WITH APPROVAL

Representatives of the Consumers' League, the Local Council of Women, the United Farmers of Alberta, and a Fruit Concern, Investigate and Approve of the Proposition

COUNCIL WILL BE ASKED TO BUILD NECESSARY CAR SPUR

REPRESENTATIVES of the Consumers' League, the Local Council of Women, the Vernon Fruit company, and the United Farmers of Alberta, who have investigated the present market plan, are heartily in favor of Ald. Tregillus' plan to utilize this building, provided the necessary facilities for the transportation of goods from the railway can be provided over the street car line.

The Consumers' league, which was organized by the women of Calgary for the purpose of establishing the market on a successful basis, has gone carefully into the plans of Ald. Tregillus, the details of which meet with their entire approval.

Mr. E. P. Newhall, chairman of the House Economics Committee of the House of Commons, writes that such a plan should be a thoroughly practical man who knows Alberta and is quite familiar with conditions and individuals in this locality.

The appointment of a market manager has not yet been considered by the aldermen, although the name of Mr. H. G. Wells, who has taken a very keen interest in the problem, has been mentioned casually by several aldermen. Mr. Wells has not been approached, but it is generally conceded that if he would consent to undertake the responsibility he is the best man available in the province to organize the market, on a successful basis and to institute a successful system of co-operation between consumers and producers under the peculiar conditions which pertain here.

FRUIT COMPANY ENDORSES THE PLAN

The Vernon Fruit Co., who anticipate better conditions through this medium of distribution, also endorses Ald. Tregillus' plan to use the present market building.

Mr. S. J. Tees, manager of the company, has written the following letter to Ald. Tregillus:

"We read of your market plan in The Morning Albertan and we heartily recommend it. We are a commission company and would just as soon handle Alberta produce as B.C. We have recently sold our Broken Cans, an Alberta company with an Alberta character. We have sufficient business to insure the success of your scheme and will be pleased to give it our heartiest support."

COUNCIL ASKED FOR SMALL EXPENDITURE.

If the council will authorize the expenditure of about \$1000 to build the necessary street railway spur into the market building it is likely that the new street railway freight cars will be used to transfer produce arriving on the C.P.R. to the market at a fairly low rate.

One Round Davis Wins

Buffalo, N.Y., June 6.—The 5 round, George (One Round) Davis, of Buffalo, had the best of Snider Kearns, of Brooklyn, in a ten round bout here to night.

DUTY OF THE BRITISH LIBERALS IS TO INSIST UPON EXPLANATION OF NAVAL MYSTERY, SAYS STAR

London, June 6.—Tonight's London Star says:

"The duty of the Liberal members is to insist upon a clear, explicit and definite explanation of the whole mystery of the painful position which the Canadian Liberals are placed in as a result of the shipyard additions to the margin of naval strength necessary for our safety. And now, efficient in patriotism that they they are told they did wrong to have placed the safety of the whole empire in jeopardy. British ministers. We must demand plain dealing in this business. If the empire be in danger let it be told what the danger is and where it is to be met. Let the Canadian people be taken into our confidence and treated fairly and candidly."

FAIR WEEK CROOKS IMMATURE CALVES, SLAUGHTERED TO GET LIMIT IF FOR CALGARY MARKET, CONDEMNED

Individual Said To Be Making a Business of Dealing With This Class of Meat; Diseased Beef Not "Rare" In Calgary.

URING the past month 23 immature calves, slaughtered on head inspection for the month, which shows that 138 condemnations were made by the inspector.

The following is the detailed report of condemned meat:

Diseased calves	84
Immature calves	23
Dead heifers and longhorns	12
Hogs	7

That diseased meat is not at all rare in Calgary is evident from the report of the Medical Health Officer, on head inspection for the month, which shows that 138 condemnations were made by the inspector.

The following is the detailed report of condemned meat:

DR. MAHOOD TO START CAMPAIGN AGAINST SALE OF UNCLEAN MILK

Health Officer Says Many Dairy Herds Supplying City With Milk Are Affected With Tuberculosis and Everywhere There is Lacking of Sanitation.

DAIRYMAN, ILL OF SMALLPOX, SENT IN HURRY TO ISOLATION HOSPITAL

THE Jensen dairy is under quarantine for smallpox. After making a portion of the delivery yesterday morning, the brother of Mr. Jensen, proprietor of the dairy, visited Dr. Wilson and after a hasty examination, the doctor diagnosed the case as one of smallpox in a very advanced stage. Dr. Mahood, medical health officer, ordered an immediate quarantine of the dairy, and Jensen was rushed to the isolation hospital, where he is now seriously ill.

This is the ninth case of smallpox discovered within four weeks, and unless precautions are taken by all individuals who have been exposed, a serious epidemic may follow.

Jensen's dairy supplies milk to the Ruskin family, where a little girl, ill of the disease in an advanced stage, was recently discovered and taken to the hospital.

BORDEN WOULD PAY FOR CONSTRUCTION OF SHIPS

Premier Announces Policy of the Government On Naval Question and Severely Criticises Opposition and the Senate; Strenuous Debate Up to the Time of Prorogation

TIMES TOO HARD TO PERMIT THE HOLDING OF AN ELECTION

OTTAWA, June 6.—The second session of Canada's twelfth parliament, in many ways the most remarkable since Confederation, came to a dramatic conclusion today. Prorogation day is usually quiet; the chief interest attaching to the military display which marks the closing ceremonies. Today the developments and discussions within the walls of parliament were so interesting that the fuss and feathers were practically forgotten by those closely associated with the proceedings, although the populace turned out in considerable numbers to see Deputy-Governor Fitzpatrick arrive with the usual escort. They were scattered shortly after by a sharp downpour of rain.

The most interesting development occurred at the morning sitting when there was a sharp final debate on the naval question and a pronouncement by Premier Borden as to the future action of the government in view of the fact that the naval bill has been killed by the senate. Mr. Borden announced that assuming that the cable dispatch stating that Mr. Churchill proposes to build three additional ships is correct, parliament would again be asked to vote the \$35,000,000 and the ships would be purchased for the use of his majesty. Mr. Borden was severe in his comments on the action of the senate.

The ex-minister of public works again took up the navy question and was in the midst of an eulogy of Canadians as fighting men in comparison with others when the Black Rod from the senate arrived on the scene. Mr. Hazen created a roar of laughter by preventing the Black Rod from proceeding for a moment as he endeavored to reply to the ex-minister of public works.

The members left for the senate at a quarter past four and the session of the most historic parliament of Canada was concluded.

Sir Wilfrid Laurier called the attention of the prime minister to the fact that the government has placed in the mouth of the governor-general a statement at the beginning of the session to the effect that there were circumstances which made it imperative that there should be help given to the naval forces of the empire. To that end a measure had been promised and introduced by the government did not succeed in convincing parliament that there was such emergency as was shown in the speech from the throne. They had convinced this house but not the other branch of the legislature where the bill did not pass. "We are entitled to know," said Sir Wilfrid, "what action the government proposes to take under the circumstances."

Mr. Borden said the question deserved serious consideration and a plain answer.

"It appears," he said, "we have failed to obtain the consent of parliament to the measure which was brought down by the government. We obtained the consent of this house of commons which represents the people; we did not obtain the consent of certain gentlemen in another chamber who were merely the echo of the expressed intention of the Right Hon. gentleman, because it was announced by members from the other side of the house before the bill left this house that it would be defeated in the senate and notwithstanding the protestations of the Right Hon. gentleman, every one, including his own followers, admits that. He has referred to the senate as the upholder of democratic institutions."
