London, March 24.—In a letter to the fix Leadership Committee Parell sort intended in the statements of Mr. Healy intended in the statement of the Chilters and the statement and come forward as candidate in the House of Commons, vesterday, Mr. Smith, in addressing their assault in the states, however, that he had in the states, however, that he had intended in the states had a state of the states however, that he had intended in the states had a state of the states however, that he had intended in the states had a state of the states had a state h

ing the interests of the Newfoundlanders. It was perfectly true that it re-enacted old powers, but simply with a view to securing peace and averting the terrible consequence which would result from a breach thereof. The Imperial Government was compelled, much against its will, to insure the performance of the treaty obligations by the Local Legislature. The Government did not desire to interfere in the internal concerns of the colony, but while the treaty remained unrevised it must be respected by all the Queen's subjects, wherever they might be. It had been a source of great sorrow that repeated requests to the Newfoundland Government had failed of their object. Successive governments in England had done their best to mitigate the undeniable inconvenience, harrassing all existing conditions in Newfoundland. He could only hope that good counsels would prevail, and that the colony would take steps to obviate the necessity of action on the part of the Imperial Government.

London, March 25.—The Portuguese have declared a state of siege in Manicaland, South Africa, part of which territory is the scene of the operations of the British South Africa Company, between which company and the Portuguese authorities there is much hostility. It is believed in official circles in London that if this reported action of the Portuguese is true it will result in a further strain of the relations between Great Britain and Portugal. It is stated the purpose of the Portuguese is to coerce the English who have settled in Manicaland.

ELECTION FRAUDS.

Barefaced Attempt to Steal Mr. Land-

OWEN SOUND, March 24.—At the recount of ballots cast in the last South Grey campaign held here yesterday there was developed one of the most diabolical political plots that has ever been perpetrated in the Dominion of Canada. It will be remembered that Dr. Landerkin, the Reform candidate, was declared elected by a majority of 46 by the returning officer. This majority at the recount to-day was reduced to 3. The method adopted only failed of success owing to the gains made in the polling districts, the ballots of which had not been tampered with. The ballot boxes of polling districts Nos. 1, 10, 16, 18, 21, 35 and 37 had been opened, the envelopes containing the ballots cast for Dr. Landerkin carefully opened and 26 marked ballots abstracted, the parties substituting therefor 26 ballots with forged initials, marked for Blythe, the Tory candidate. The envelopes were then rescaled and placed back in the box, which was then ready for the recount. By this dodge Blythe would have had a majority of six, but, as stated before, this majority was wiped out and Dr. Landerkin will again take his seat as representing South Grey. The envelopes bore in their backs unmitakable evidence of having been tampered with. In justice to the returning officer, Mr. G. F. McCaul, and his deputies, it must be said their declarations in all the cases not correspond with the sworn statements of the deputy returning officer, makes it imperative that they at once place themselves right with the public. That a most gross fraud was perpetrated is beyond doubt, and vigorous steps are now being taken to ferret out the guilty parties and bring them to justice. The great bulk of the Conservative party in South Grey are honest men, who are not for one moment to be associated with such work as this, and it is simply an outrage that such a man as Mr. McCaul should be placed in such a painful position through the practices of a ruffianly gang, who, if they get their just deserts, will shortly be shouting loyalty and serving her Majesty in Kingston.
