STOCK MARKETS.

New York, Dec. 5-Noon.-No develop ment of material importance transpire during the forenoon session today, ar the market was relatively narrow and u interesting. The feature of the marke was the sharp advance in Alton, preferre Whether this advance was due to th knowledge that the suggested deal is going through, or merely to manipulation remains to be seen. There are some evidences that the movement is not wholk a natural one, but in view of the fact that the stock is being accumulated in blind pool, any developments are possible it is intimated rather broadly in certain quarters that Clover Leaf is likely to follow Alton so far as market movement is concerned. Among the tractions there has not been animation. The railroad list generally has been steady, but with-out other specific features. The Steel out other specific features. The Steel stocks have been erratic, at times weak, and generally irregular. The minor Steel and Iron stocks, Car Equipment and Supply stocks have been heavy, and some evidence of pressure in that quarter has been noted. Specialties are comparatively neglected. The market has been generally dull, and it is likely to continue for the afternoon. Sales to noon were 204,000

> . JO MESS OF THE YEAR The most important problem with which the city council will have to deal this year will probably be the matter of Niagara power for London, and the defraying of the city's share of most important business is liable to

spring up at any moment. Beck has a scheme on foot which he intends to place before the council as soon as possible. It is his worship's idea that it is a mistake to elect aldermen for one year only, as just when the aldermen are beginning to understand civic business they are liable to be defeated. He thinks that the mayor as well as the aldermen should be elected for two years, the same as are the school trustee, the hospital trustees and in future the

If the mayor's scheme goes through six of the present aldermen will retire at the end of the year, drawing lots to see who shall do so, and thereafter but six alderman will be elected each year. The elections will also be held

on New Year's Day. THE MAYORALTY CAND DATES. Mayor Beck and Dr. Campbell were around the city hall at noon, and both received many handshakes from friends. The decter's defeat did bear heavily on him and he was brigh and cheerful.

The mayor would say nothing about election other than what i contained in his statements, made in his speech of last night. Today Mr. Beck received a telegran of congratulation from Mayor Urquhart, of Toronto. His worship also re ceived a pictorial postcard from Syd ney, New South Wales, signed: an Old London Boy, Who Extends Bes Wishes," Nobody around the city hall

SIZING UP THE RESULT.

The result of Monday's vote as far as the aldermen are concerned, puzzles civic experts. Ald. Matthews' success astonishes his own friends much more than it does those politically opposed probability, have some trouble decid- to him, and several city fathers are ing upon who shall be appointed to the chairmanships of the several commen willing to study and try the new method. That Ald. Matthews has burned Roman fire in an extravagant manner all year, all who have attended the council meetings are well aware Hops (at London)—Pacific coast firm, of them look askance upon Ald.
