

**MANUFACTURERS WANT DUTY
ON IMPORTED LEAF DOUBLED****Cigar Men Decide to Ask for Other Changes to Promote
the Growth of Canadian Tobacco.**

A most important meeting of the cigar manufacturers of Canada was held in this city Saturday. It was called for the purpose of discussing the raising of the duty on imported leaf and inaugurating but one stamp for cigars manufactured in Canada, the object being to protect Canadian tobacco and encourage its growth. The result of the meeting was that a resolution in accordance with the above was passed, though not unanimously. All the leading cigar makers of Montreal were present or were represented. The resolution carried provided for the following demands, which will be presented to the Government shortly. It was said at the meeting that the Government has already practically agreed to grant the request.

First—That the present duty of ten cents a pound on imported tobacco be increased to twenty cents a pound.

Second—That the rebate of ten cents a pound allowed on cuttings of imported tobacco shipped out of Canada be done away with.

Third—That in future the Government issue but one stamp for cigars manufactured in Canada, no matter whether they be made from Canadian leaf or imported leaf.

The spectacle of manufacturers asking for an increase in the duty on imported tobacco is somewhat unique, and it requires some explanation. According to the statements of the manufacturers, who favored the idea,

they are actuated by a desire to promote the growth of Canadian tobacco. They argue that tobacco fit for all purposes can be grown in this country, but that the Canadian article is suffering from the effects of an unwarranted prejudice.

They say also that the tariff militates against the Canadian article. The rebate on "cuttings."

In the first place, the action of the Government in allowing the rebate duty of 10 cents a pound on foreign tobacco cuttings shipped out of this country, and refusing to allow Canadian cuttings to be exported, helps the foreign product. The detriment to the Canadian article, at present the Government, actuated by a desire to rule, where they are made into cigars, cigarettes, cut tobacco, etc. But the Government, in order to protect itself against any dishonest manufacturers, has cuttings with the imported article, for the sake of securing the 10 cents a pound rebate, lays down the law that if any manufacturer ships Canadian tobacco cuttings out of the country, he will get no rebate on any consignment of cuttings which he exports. Thus there is an inducement for the manufacturer to ship cuttings of the imported article.

**CHICAGO HEBREWS
RIOT IN CHURCH****Denounce M. Witte and Russian
Tyranny During Service in
the Synagogue.**

Chicago, Sept. 25.—The police were called to quell a riot last night in the Russian synagogue, Clinton and Judd streets, where Adolph Krause was addressing a Jewish meeting. Several persons received slight wounds, and ten men and women were arrested. Mr. Krause was giving an account of his interview with Mr. Witte, the Russian envoy at Portsmouth, at which he asked justice for the Jews through Mr. Witte's good offices.

"We may trust the word of Mr. Witte that he will do all in his power to ameliorate the sufferings of the Jews," Mr. Krause was saying, when suddenly a number of Jewish society sprang in his face.

"Do you trust a Russian politician?" he shouted.

Before Mr. Krause had time to answer, there was a shout from several hundred men and women in the audience: "Down with Witte," "Down with tyranny," came the shouts. While the excitement was at its height, the doors of the synagogue were locked, and some one telephoned for the police. In a few minutes several patrol wagons, filled with officers, were on hand. The leaders were arrested, and the meeting was dispersed.

WANTS OLD MILL SITE**G. T. R. Negotiating With Mr. Rum-
ball for Bathurst Street Land.**

It is understood that the Grand Trunk Railway is negotiating with Mr. Fred G. Rumball for the exchange of the property on Bathurst street upon which the factory of the London Box Company stood before the fire.

The company needs the ground to carry out its intentions of removing its rails south so as to do away with the present curve west of Richmond street, and it is said that it is willing to hand over the property on the southwest corner of Adelaide and Horton streets to Mr. Rumball for a site for a new mill, in exchange for the Bathurst street property.

Mr. Rumball is now largely interested in the Columbia Handle Company, the Crescent Milling Company, and several other firms, all of which are located in the immediate vicinity of the site now offered him for the planing mill by the Grand Trunk, so that the action looks like an advantageous one for him should he choose to accept the deal.

The different works are consolidated, it will mean that the southwestern section of the city will still further be benefited, as many men will be employed.

GOOD FARM LAND.

Toronto, Sept. 25.—A. J. Halford, of Windsor, who has just completed a survey of the townships of Westley and Moody, just west of Lake Abitibi, reports to the survey's department that most of the land in both townships is good agricultural land.

**CALLS WIFE TO SPEAKING TUBE
TO HEAR HIM SHOOT HIMSELF**

New York, Sept. 25.—Assenting reluctantly to listen to one last word from her husband, from whom she was estranged, Mrs. Henry Koch pressed her ear to the speaking tube leading from the vestibule of an apartment house in East New York yesterday. A moment later she had sprung back with a cry of fear. Up the tube there had come the muffled report of a revolver. Ten minutes later, Dr. Whiton pronounced Koch dead. The man had called his wife to the speaking tube to hear him shoot himself. The wife told the police that it was impossible for her to live happily with her husband. In a letter found after his death, Koch declared the woman had forsaken him.

Koch not only besought friends to

**KEEP OUT OF IT,
SAYS SOLICITOR****Mr. Meredith Advises City Not
to Dabble in That Fence
Trouble.**

City Solicitor Meredith has written the city council advising that inasmuch as parties personally interested have seen fit to bring the matter into court, the city will do well to keep out of the dispute concerning the high board fence around the new building at the corner of Dundas and Richmond streets.

Mr. Meredith, it is understood, also holds to the view that the contractor, under the bylaw, has the right to occupy one-third of the street, and that he may obstruct the sidewalk if he sees fit while building operations are going on.

As the matter is being tried in court, he is to be removed, the people will need to appeal to the courts, but it appears as though even then they will be none too sure of having the object of their grievance taken down.

CHANGING STREET NAMES**Bylaw Ready for Two Readings at
Council on Monday Night.**

The bylaw for changing the names of a dozen city streets has been drawn up by City Solicitor Meredith, and it will be given a second reading at the council on Monday night next. Then it will be sent to the county judge for his approval, after which it will be read a third time and finally passed.

RIDDLED WITH BULLETS**Two in Head and Three in Body,
But He Will Recover.**

New York, Sept. 25.—After the removal of five 35-caliber bullets from the body of Joseph Guidivinski, a railroad detective, wounded on Aug. 18, in a battle with a freight thief, was pronounced yesterday to be on the road to recovery. The detective, according to the Fordham Hospital surgeons, presents one of the most remarkable cases of physical endurance that has ever come under their care. After his battle with the thief, Guidivinski was believed to be dead, but he was driven by the left temple, two bullets entered the forehead near the left temple, two lodged in the head, and a fifth struck the left thigh, piercing the bone. He revived, and was immediately put on the operating table. After three hours' operation, two bullets were removed from his head. Two weeks later an attempt was made to reach the bullets in his abdomen. One had lodged in the wall of the stomach, but the other was in the spleen. This necessitated a long and extremely difficult operation. Two minor operations followed, and the last piece of lead was removed yesterday.

CAUCASUS ARBITRATE**Tartars and Armenians Arrange to
Settle Differences Peaceably.**

Baku, Sept. 24.—A conference of representatives of the Armenians and Tartars under the presidency of Prince Louis Napoleon, Governor-General of the Caucasus, has just been concluded, during which the principal conditions of an entente were agreed upon.

Ten Armenians and ten Mussulmans, all millionaires, undertook to guarantee the strict observance of the agreement.

The conference also resolved to form an arbitration court to consist of five Armenians and five Tartars, which will draft the details of the agreement and remove any difficulties that may arise.

The agreement will become effective Oct. 15.

ASSASSIN AT PEKIN**Blows Himself and Four Chinese
Officers to Pieces.**

Pekin, Sept. 24.—At the Pekin Railway station today, when one of the four commissioners appointed to study foreign systems of government was leaving, a bomb was exploded inside a private car.

Four officers were killed and twenty were seriously wounded, among them being Wu Ting Fang, former minister to the United States.

The would-be assassin, who was inside the car, was blown to pieces.

DANGER TO OCEAN LINERS**A Derelict Whale is Floating Some-
where in the Atlantic.**

New York, Sept. 25.—A derelict whale, the latest danger reported lurking in the middle Atlantic, direct in the course of trans-Atlantic trade. Last Wednesday the tramp steamer St. Andrew, of the Phenix Line, in today, ran into a flathead whale, measuring eighty or ninety feet, and cut off ten feet of its tail. This portion of the animal, which the whale needs for steering apparatus, and deprived of it, the whale is like a rudderless ship.

The St. Andrew was not injured by the encounter, but the mutilated whale, according to the captain, will probably float there like the derelict of a ship and prove a menace to smaller craft.

IGICHI TRIES SUICIDE**Feels That He is Responsible for the
Loss of the Mikasa.**

Tokio, Sept. 25.—Capt. Igichi, the commander of the battleship Mikasa, which was sunk in Sasebo harbor on Sept. 12 by explosions following a fire on board, was absent from the city when the fire was discovered, but immediately went on board and did his utmost to save her. Since her loss he has been much depressed.

The captain collected the survivors and told them he considered himself personally responsible. After the audience he jumped at a revolver and evidently with the intention of committing suicide. He was taken to a hospital in Sasebo, where he lies in a serious condition.

MENINGITIS OUTBREAK**Dread Disease Again Appears in Two
Carlton County Townships.**

Ottawa, Sept. 25.—Cerebro-spinal meningitis has again broken out in the townships of Huntley and March, Carlton county, where it did not before. There are three cases in Torbolton, children of the Messrs. Bresnahan, under the care of Dr. Groves, of Kilmarnock, and Dr. Groves, of the latter has six other cases under treatment now, four in March township and two in Huntley. The type of the disease is worse than that which prevailed during the epidemic. Six of the nine cases were paralyzed. Good hopes are entertained for the recovery of the three.

Dr. Groves, who is medical health officer for the three townships, has quarantined them, and every house is placarded.

CHURCHILL'S BIG TASK**Is Trying to Raise a Moustache—
May Marry Miss Wilson.**

London, Sept. 25.—Winston Churchill, who is just about to start on a motor tour of the continent with the Duke of Marlborough, is filling a large place in the public eye just now. He has completed the life of his father, Lord Randolph Churchill, for which three of the biggest publishers in the world are bidding. He is reported to be engaged to Muriel Wilson, the famous beauty of ten years ago, who is now a widow. The last is generally regarded as the most difficult achievement of the three.

His book is looked forward to with keen interest. A competent judge who has read the proof of the first volume tells me he has been eminently dignified, thoughtful and almost judicious in his treatment of his father's career.

The domestic relations of Lord Randolph Churchill are necessarily only glanced at, the son's marriage with Muriel Wilson is a subject which he has treated with a certain reserve.

Winston Churchill's alleged matrimonial designs on Muriel Wilson are an old story. He was said last year to be desirous of marrying her, but she was already married to the Earl of Aberdeen's daughter, also called Muriel. Churchill's father, Lord Randolph, was a friend of the Earl of Aberdeen's daughter, and he was said to be desirous of marrying her, but she was already married to the Earl of Aberdeen's daughter, also called Muriel.

The arrangements for the funeral, which will be held from the family residence, 173 Mill street, have not yet been completed.

JAPS STILL FEEL SORE**Memorials Against Ratification of
Peace Now Number Hundred.**

Tokio, Sept. 25.—The Emperor is giving personal attention to the memorials presented to the throne against the terms of the peace arranged with Russia. These memorials now number a hundred. The agitators who are trying to interview privy councilors, advocate the refusal to ratify the treaty of peace, and the public is almost unanimous in demanding the resignation of the cabinet. Even the moderates do not conceal their grief at the result of the negotiations.

CAUCASUS ARBITRATE**Tartars and Armenians Arrange to
Settle Differences Peaceably.**

Baku, Sept. 24.—A conference of representatives of the Armenians and Tartars under the presidency of Prince Louis Napoleon, Governor-General of the Caucasus, has just been concluded, during which the principal conditions of an entente were agreed upon.

Ten Armenians and ten Mussulmans, all millionaires, undertook to guarantee the strict observance of the agreement.

The conference also resolved to form an arbitration court to consist of five Armenians and five Tartars, which will draft the details of the agreement and remove any difficulties that may arise.

The agreement will become effective Oct. 15.

NEW GUNS FOR VIGILANT;**Look Out, Mr. Poacher!**

Quick-Firers Will Hurl Explosive Shell Four and Half
Miles—May Not Conform With Agreement.

[Special to The Advertiser.]
Ottawa, Sept. 25.—The department of marine has got four three-pounder quick firing guns lying at Halifax to place on the Vigilant, the Canadian cruiser on Lake Erie, but before doing so it has been decided to get the opinion of the imperial authorities as to whether this would be in conformity with the Rush-Bagot agreement of 1817. In that agreement it was provided that the largest gun on the lakes was to be an 18-pounder, muzzle loader, which would fire a ball about 300 or 400 yards. The quick-firing guns can send an explosive ball 4½ miles. Now the question arises would it be permitted under the agreement to have the modern gun on board. This point will be referred to the colonial office. The marine department here is determined to put a stop to the poaching of American fishermen on Lake Erie and the United States authorities are desirous of assisting.

Toronto, Sept. 25.—Hon. Dr. Reame, Minister of Public Works, returned this morning from a trip in New Ontario, Manitoba and British Columbia. The minister said today that the relation of the Booth and numbers of other American fishing companies to the Ontario fisheries department would be the subject of investigation. It has been unofficially stated that some of the boats engaged in the fish poaching have been collected, own boats operated in Ontario waters in the names of private individuals.

**HUNS BOODLY
CENSURE KING
OF ENGLISH DUKE****Francis Joseph Criticised for
Not Listening to Parlia-
mentary Statement.**

Budapest, Sept. 25.—The executive committee of the coalition parties, summoned to discuss the situation arising from the ultimatum presented to the Hungarian leaders by the king-emperor, have passed a resolution to censure the king-emperor for not listening to the parliamentary statement. The committee in a statement to those who represent the majority in the Hungarian Parliament, constitute therefore the leaders of the nation in its public affairs.

The committee further indignantly censured those who advise his majesty to take such a course, and approve the action of the coalition leaders in declining to negotiate with Count Goluchowski, and in declining the ultimatum presented by the king-emperor as a violation of the constitution and the rights of the nation. The committee further indignantly censured those who advise his majesty to take such a course, and approve the action of the coalition leaders in declining to negotiate with Count Goluchowski, and in declining the ultimatum presented by the king-emperor as a violation of the constitution and the rights of the nation.

DEATH OF EX-ALD. BOYD**Had Served the City at the Council
Board for Sixteen Years.**

By the death at an early hour this morning of ex-ald. John Boyd, another of the city's oldest residents is dead. Mr. Boyd was the eldest of five children of Robert and Mary Boyd, who emigrated to Canada from Ireland in 1861. He was born in King's county, Ireland, on May 10, 1848, and was thus 57 years old when he came to this country. His father was a merchant tailor, who engaged in business as soon as he arrived, and continued until his death in 1888. His life was long and eventful, and he was a member of the city council for sixteen years. He was married to Miss Sarah Morris, of St. Mary's, and they had four children, three of whom are now living. He was a member of the city council for sixteen years, and was a member of the city council for sixteen years. THINK SECRET IS OUT**Fear Germany Has Plans of Sub-
marine Vessels.**

Paris, Sept. 25.—Consternation reigns in French naval circles, according to the usually well informed Matin, owing to a fear that the plans of the French navy to construct a fleet of submarines have been obtained by German naval constructors.

Dispatches published recently in several papers stated that a submarine boat had been launched at Kiel and that the vessel had been constructed on plans by a French engineer. It is asserted that these plans were treasonably sold to Germany.

M. Laubeuf, a naval constructor, upon whose plans the latest type of French submarine has been built, in an interview yesterday declared his belief that the boat launched at Kiel is a copy of the Aligrette. The description of the vessel, which M. Laubeuf obtained, tallies exactly with the measurements of the Aligrette.

It is further alleged that Druce was seen and recognized by many persons after his escape from the Aligrette. He is still alive. The death of the fifth Duke of Portland did not occur until 1878.

THE WEATHER.**Tomorrow—Fine and Warm.**

London, Monday, Sept. 25.
Sun rises, 6:07 a.m. Moon rises, 1:58 a.m.
Sun sets, 6:11 p.m. Moon sets, 4:24 p.m.
Toronto, Sept. 25.—3 p.m.
Some local showers or thunderstorms have occurred today in the Ottawa and St. Lawrence valleys, and the winds have been strong again on the lakes. In the Northwest Territories and Manitoba the weather has been fine, with local frosts during last night in Saskatchewan and Manitoba.

Minimum and maximum temperatures: Victoria, 48-56; Vancouver, 54-58; Edmonton, 40-58; Calgary, 34-50; Qu'Appelle, 34-50; Port Arthur, 36-58; Parry Sound, 40-58; Toronto, 42-72; Ottawa, 40-58; Montreal, 44-56; Quebec, 38-52; Halifax, 42-60.

FORECASTS.

Monday, Sept. 25.—8 a.m.
Today—Fresh northwesterly, with north winds; fine and cool; local frosts at night.

Tuesday—Fine and cool.

TEMPERATURES.

Stations.	8 a.m.	Min.	Weather.
Calgary	52	42	Fair
Winnipeg	52	42	Fair
Parry Sound	42	32	Fair
Toronto	44	34	Fair
Ottawa	44	34	Fair
Montreal	44	34	Fair
Quebec	44	34	Fair
Halifax	44	34	Fair

WEATHER NOTES.

Gales are indicated for the Gulf of St. Lawrence and in the Maritime Provinces, and a marked cool wave now over Lake Ontario. Scattered showers are reported from Alberta and Saskatchewan, and heavy rains in British Columbia.

LOCAL TEMPERATURES.

The highest and lowest readings of the thermometer at the local observatory for the 24 hours ended at 9 a.m. Saturday were: Highest, 63.5°; lowest, 45° above zero. Highest, 70.5°; lowest, 35° above.

**WILL UNCLE SAM
DISCIPLINE CUBA?****Disorders of Island May Lead
to Another War.**

ARMY AND NAVY EXPECT IT
President Roosevelt May Intervene
If the Internal Disorders
Continue.

New York, Sept. 25.—The Tribune publishes the following from Washington: Nothing official came from Cuba today, but nevertheless occurrences such as those at Cienfuegos this week, when the American arms over the consulate were for the second time defiled in a political rally, awaken anxiety in army and navy circles. Officers of both services are taking account of their readiness for active service and feel that they are getting nearer to a campaign, which many of them believe is inevitable before a great while.

These officers look upon the present national campaign as likely to give rise to provocation which the United States cannot avoid meeting in the only manner possible to insure the peace of the island and to prevent the annihilation of all the prosperity which this country has created.

One of the highest ranking and best posted officers of the army, who served in the island at the time of the American occupation, said today:

"Cuba may be able to take care of herself for a few years, but the United States will surely have to take hold in the long run. We all know that when we evacuated Cuba, and everything that has occurred since has merely strengthened the conviction that the island is not fit to govern itself. It will last another year or two of fall in the present election, the first conducted without the supervision of the American troops, will make little difference.

"Fortunately the army was never so ready in all its history, not even in 1901, to undertake quick work anywhere. Only two months ago President Roosevelt was assembled with urgent dispatch at Newport News, and landed as soon as possible at Portland, Me. The intention was to keep the army until the Quartermaster General could estimate the expense. The general staff was found to have its plans complete for this or any similar movement, including all railway and steamship accommodations, and was prepared to move in this case within three days after the preliminary warning whatever to garrison or carriers."

**CLAIMS ESTATE
OF ENGLISH DUKE****Australian Will Attempt to
Wrest Title and Riches
From Nobleman.**

London, Sept. 25.—Very determined will be the attempt to be made soon to wrest from the Duke of Portland his title and vast estates. So strong is considered the case of the claimant, George Holmby Druce, that a limited liability company with a capital of \$50,000 has been registered at Somerset House under the title of "The Duke of Portland Claimants." Mr. Druce, it may be remembered, came to England from Australia in May, 1903. From that time he has been busy with his solicitor gathering every possible shred of evidence that bears on the fact of his title and estates. During two and a half years he has been busy with his solicitor gathering every possible shred of evidence that bears on the fact of his title and estates. During two and a half years he has been busy with his solicitor gathering every possible shred of evidence that bears on the fact of his title and estates. During two and a half years he has been busy with his solicitor gathering every possible shred of evidence that bears on the fact of his title and estates.

CATHOLIC FEDERATION**The American Military Orders Amalgamate and Form Single Camp.**

Chicago, Sept. 25.—Commanding officers of the Catholic Knights of America and of the Knights of St. John took the first step yesterday toward amalgamating the military orders in the country under the general name of Catholic Military Federation. The federation was organized by a committee from each order at a secret meeting held here.

Officers and an executive committee were elected, headed by Dr. Hubert Stratton, of Chicago, as president. The federation represents a membership of 30,000 men, 20,000 of whom were members of the Knights of St. John, and the remainder members of the Catholic Knights of America.

The federation will hold its national encampment at Buffalo next June.

FAVORS "T" RAIL**Engineer Says It Will Do for the
South London Extension.**

City Engineer Graydon is favorable to the proposal to allow the street railway company to put down "T" rails on the streets of South London. Those who are prominently identified with the scheme are also agreeable, so that it looks as if South London will have its new belt line in operation by July 1, 1906.

Mr. Graydon says the "T" rail is just as good as any other when it is set used on the streets which are paved with asphalt or the like.

Schooner in Collision.

Detroit, Sept. 25.—The little Canadian schooner, laden with canvas, collided with the steamer Algonquin at South East Bend, St. Clair River, yesterday, but the extent of the damage is not known. The Algonquin was struck amidships. After the collision the Vienna went alongside the schooner, which was in tow of the Algonquin.

ALL DISPUTES GO TO HAGUE**IN NORWAY-SWEDEN AGREEMENT**

Stockholm, Sweden, Sept. 25.—The Associated Press has succeeded in securing the text of the protocol signed at Karlstad Saturday by the delegates appointed to arrange the terms for the dissolution of Norway and Sweden. The document will become law when ratified by the two parliaments. It consists of five main articles, and 35 sub-clauses. The first article deals with arbitration; the second with the neutral zone, and the demolition of the fortifications; the third with the demilitarized zone, and the demolition of the fortifications; the fourth with the demilitarized zone, and the demolition of the fortifications; the fifth with the demilitarized zone, and the demolition of the fortifications.

**BORDEN IGNORED
BY CONSERVATIVES****Quebec Section of Party Re-
pudiates His Policy.**

FULL POWER TO BE GIVEN MONK
Neither Mr. Borden Nor Hugh Gra-
ham, of Star, To Be Invited to
the Coming Convention.

Montreal, Sept. 25.—The Conservative party in the Province of Quebec are in open rebellion against the leader of the party, Mr. R. L. Borden, and the local leaders have decided that no invitation should be extended to Mr. Borden to attend the approaching convention.

The leaders of the party have held three important meetings during the past week, and in preparing the programme for the convention have made the first article one that renders it impossible that any invitation should be extended to Mr. Borden.

Further a decision has been reached that neither Mr. Hugh Graham, of the Montreal Star, nor any of his associates should be present at the convention.

The first action the leaders for the Province have decided to take, as officially stated by a leading official of the Lafontaine Club, will be to repudiate the stand taken by Mr. Borden on the school question in the new western provinces, and to claim for the Catholic minority the right to have separate schools.

A particularly interesting interview between some of the local leaders and Mr. Hugh Graham was described by the official of the Lafontaine Club as follows:

"When the leaders of the party went to see Mr. Graham the latter claimed that it was money that was needed to win elections in the Province of Quebec."

In answer the local leaders told Mr. Graham that he could keep his money, and they would show that the Conservative party in this province did not need it.

"We intend not only naming Mr. F. D. Monk our leader, but we intend giving him a free hand, a thing he has never had up to the present time."

KANSAS BANK FAILS**A State Banking Institution Goes
Into Voluntary Liquidation.**

Kansas City, Sept. 25.—The Kansas City State Bank, W. O. Cox president, failed to open its door today, having gone into voluntary liquidation. The bank had loaned \$165,000 to the Bank of Commerce and Finance, which failed last July owing depositors several hundred thousand dollars. The Kansas City State Bank was organized in 1888, and had a capital of \$200,000. The last statement showed loans of \$4,000,000; deposits, \$4,750,000; surplus, \$11,000.

The following notice was posted on the door at the opening hour today:

This bank has gone into voluntary liquidation through the Fidelity Trust Company. Checks drawn against this bank will be paid on presentation to the trust company."

Naval Base at Singapore.

London, Sept. 24.—The Sunday Observer says that the British Government has decided to establish a naval base at Singapore as part of a vast scheme of imperial defense, which includes the compulsory purchase of the Tanjongpagar docks.

Battle is On in Gotham.

New York, Sept. 25.—Campaigning for the control of the city administration for the next four years, and for the election of the county and borough officials throughout the city, was in earnest today. Leaders of the democratic forces will take active charge of the fight for Mayor McClellan's re-election.

Delegates from the Republican organizations, the Citizens' Union, and the Municipal League, will meet again tonight to make another attempt to defeat Tammany.

M. Calvaignac Dead.

Paris, Sept. 25.—Georges Calvaignac, who was Minister of War during the existing period of the Dreyfus case, died suddenly today of a heart attack. He had been suffering from illness for some time. He was born in Paris in 1852.

Riot at Bull Fight.

Nimes, France, Sept. 24.—Twelve thousand spectators of a bullfight here today broke up the chairs, other seats and boxes and then ran to the barriers surrounding the arena, because the matadors refused to kill another bull as an encore after they had dispatched five.
