

## CHINESE CLANS WAR IN STREETS

One Dead, One Dying, Others  
Hurt in New York  
Battle.

New York, June 26.—The furious war that sleeps but never dies, in spite of threats, promises and solemn treaties, broke out again this Sunday afternoon, within the little triangle of narrow streets, just off the Bowery, known as Chinatown. In 90 seconds three Chinamen were shot, two of them fatally, of whom one has died, and more than 40 shots from revolvers splattered against the walls. In three more minutes seven Chinamen were arrested.

It happened that the 2,000th anniversary of the founding of the Society of the Four Brothers fell on this, the day of rest, and in its honor the members were to give a dinner in Pell street at 5 o'clock. A monster scarlet flag, scalloped in green, floated from the hall, and guests began to arrive from all parts of the city, and from neighboring towns. Sunday is market day for Chinatown, the streets are thick with sightseers, the chop-restaurant thrives best, and in the rooms the dice rattle faster and the dominoes click.

It was in the midst of this restless, bustling throng, soon thick with policemen, that the shooting began at 4 o'clock. There is no certainty of the precise provocation, but it is generally understood in Chinatown that the Ong Leong tong did not elish the fact that Chu Hien, recently acquitted of the killing of an Ong Leong tong man, was to be the guest of honor.

The Hip Son tong, the Ong Leong tong, and the Four Brothers, occupying each their own street, and no prudent member of one society, trespasses on the territory of another. Pickets had been posted today at the end of Pell street by the Four Brothers, and scouts of the Ong Leong tong patrolled the adjacent boundary of Mott.

Somebody stepped over the line. Somebody began to shoot. It is doubtful if any white man will ever know who trespassed, and who punished, because the rain of bullets came too fast from too many directions at once for the eyes to catch the first flash. And no Chinaman will ever tell. Sen Chin, the inevitable innocent bystander, was the first to fall, shot through the abdomen. He will die. Chu Hien was shot behind the ear and in the back. He is dead. Chu Pan was shot through the left thigh. His injuries are not serious. Thus far it has been impossible to learn what tongue the individuals wounded belonged. All were taken to a hospital.

The police made a scramble for everybody that ran, but there were more honest fugitives than combatants, and the streets were thicker in Chinatown than burroughs in a rabbit warren. Seven were caught, some of whom, the police say, they saw shooting, and on others revolvers were found.

The reserves were called out, a cord was drawn tight about the entire quarter, all visitors were barred and no curiosity allowed to enter the night. Then the interrupted dinner of the Four Brothers, with Chun Hen as the guest of honor, went on.

## THE CHURCHES ATTACK STEEL CORPORATION

Commission Reports Conditions  
in Bethlehem Worse Than  
Pittsburg.

New York, June 26.—The social service commission of the federal council of Churches of Christ in America, pronounced in a special report made public tonight that the living conditions for laborers of the Bethlehem Steel Company are worse than those alleged to exist in Pittsburg by the Pittsburg survey, whose report aroused such wide comment.

A special committee of the commission reports that just before the recent strike 61 per cent of all employees worked regularly seven days a week, and intensifying the evils of a 12-hour day, was the existence in many departments of a seven-day week. Twenty-eight per cent of all employees worked regularly seven days a week, and in addition were those who worked regularly on Sundays as overtime.

Moreover, the committee reports that although it is claimed by the management that Sunday and overtime work is in some departments at least optional, it is nevertheless true that foremen and gang bosses have compelled men to work on Sundays against their protest, on pain of discharge.

The wage scale for these long hours is declared by the committee to be such that "it leaves no option to common laborers but the boarding-house method of living, with many men to the room. When a man has a family with him, they take in lodgers or even the woman goes to work. It is reported that immigrant parents send their little children back to the old country to be reared, while the mothers go to work."

A number of practical recommendations are made in the report, which urges laws to compel three shifts in all industries operating 24 hours, and to require one day of rest for all workmen in seven-day industries. The 12-hour day and the seven-day week are characterized as "disgraceful civilization," but adds that "they will not be avoidable until society requires the backward members of the community to conform to the standards required by decent members of the community."

## ATTACK ON LODGE BY BUTLER AMES

The Latter Formally Announces  
Candidacy for United  
States Senate.

Washington, June 26.—Representative Butler Ames, of Massachusetts, publicly announced his candidacy for the United States Senate today in a formal statement embodying an exceptionally bitter attack on Senator Henry Cabot Lodge.

Mr. Ames in his statement says he becomes a candidate after having failed to induce any one else to "take up the fight against Boss Lodge, and his political machine."

These are some of the things Mr. Ames says about the senator, and what he describes as the "Lodge machine":

"This machine, backed by all the large corporations and all the state and federal patronage at his command, has for many years served as a ready and efficient tool to crush out all political ambitions, endeavors and opinions not sanctioned by Mr. Lodge."

"His orders have gone out to crush not only for his own political ends, but to advance the financial schemes of the large railroads, banking and manufacturing interests he serves in the halls of Congress, as well as in the Massachusetts Legislature."

"It is reported that in his present extremity, fearing to seek re-election on his long public record in Congress and in the state, his one hope is that Mr. Roosevelt will create new confidence in his behalf by speaking for him as an old friend. It is hard to believe that the former president would lend himself to the political support of a consistently violated all the moral teachings of which he is the great exponent."

"With direct primaries it is universally admitted that Mr. Lodge would have no possible chance of election. The Lodge machine and the lobby worked in the Senate (Massachusetts) again this year successfully to defeat the direct primary bill which had passed the House of Representatives."

The defeat of Mr. Lodge, and the termination of this machine will tend more than anything else to party success, not only in the state, but in the nation. It will restore confidence in the republicanism of Massachusetts, and the Legislature lobby from the political machine, and by defeating a public official who has so long served the private interests rather than the public good."

Mr. Ames says he expects the Lodge men will try to prevent pledging of candidates in the hope that they may be controlled later. To prevent that he says he will try to compel every candidate in Massachusetts to declare in the coming election to pledge himself to the issue he has raised.

## COINS FOR CHINA

Order to Proceed With Manufacture  
Has Been Issued.

Berlin, June 27.—The politically unexpected happens. In the middle of the hottest dog-days, Germany finds itself suddenly confronted by many political sensations. One is the Dernburg's resignation and the change in the colonial department continues the topic of the day. No minister has ever been so popular with the people and at the same time so unpopular with his fellow ministers, and so disagreeable to the Central party like Dernburg. And it is an open secret also, that the very people who should have supported him—the conservatives—disliked him just as much as their brothers. No sooner would Dernburg start a speech but the right side of the House would start to lose its occupant until not a man remained. It was remarkable how they all would suddenly grow thirsty the moment Dernburg stood up in his seat.

That, however, would have made no difference at all, if it had not been for the Central. Dernburg's fall was a recognized number in the progress of that party.

It is said is not meant as a contention, but rather as a report, of the general impression of the people. Every one of Germany's citizens not connected with the Government likes Dernburg. And everybody also is convinced that only the Central can have been the cause of the colonial minister's downfall.

All that would be necessary now, to finish them altogether, would be to vote for the raise in the price of beer. However, there is hardly any danger of that. The gentlemen of the Central, being mostly Bavarians, love beer too much themselves. But then, in the middle of every summer, when Parliament is off on its vacation, politicians find it self facing conditions the consequences of which may be strenuous.

## THE NAVAL MANOEUVRES

Powerful Fleet to Assemble in the  
Channel During July.

London, England, June 27.—The annual naval manoeuvres open on July 4, and orders have been received at the dockyards that as many ships as possible are to be completed for the manoeuvres. It is said that the participating fleets may be as strong as possible.

The combined Atlantic and Mediterranean fleets will leave Gibraltar this month for the Lizard, and there they will meet the home fleet, the various divisions of which are ordered to assemble at the same point on July 2.

The force which Admiral Sir William May, senior naval officer abroad, will command will be one of unequalled strength. Should it be possible for each fleet concerned to muster its full total of ships, there will be present seven Dreadnoughts, three Invincibles and 22 other armored cruisers, 108 torpedo-boat destroyers, 36 torpedo boats, 50 submarines, and about 50 miscellaneous craft, such as protected cruisers, scouts, depot ships, and mine-layers.

Although strict secrecy is maintained as to the scope of the operations, it is believed that the Atlantic fleet and the fully-commissioned divisions of the home fleet will be combined against the reserve fleet of the home fleet and the Mediterranean fleet. This would give 23 battleships and 13 armored cruisers in the first force, and 16 battleships and 13 armored cruisers in the second.

There will be 45 admirals in the combined force—an unprecedented number to take part in manoeuvres.

Riga, Russia, population 355,000, is to have a new central passenger station with approaches, an improved custom house quay, harbor extension and new warehouses.

## STABBED BY TRAMP

Intoxicated Hobo Makes Savage Attack on a Farmer.

Preston, June 27.—Friday evening as Andrew Oliver, a prosperous farmer living outside the corporation, on the Galt road, was attending his many chores, he found a tramp lying in his sheep pen, apparently under the influence of liquor. Mr. Oliver requested him to leave the premises.

Unnoticed by Mr. Oliver he drew a knife from his pocket, and in a rage, deliberately attempted to stab Mr. Oliver in the heart. Fortunately the knife missed the mark, striking him in the armpit of the left arm, inflicting a deep wound, measuring fully three inches in length.

Not satisfied he circled about Mr. Oliver, repeatedly attempting to stab him, but being warded off he disappeared in the darkness.

Mr. Oliver was taken to Galt, where his wounds were attended to, and the chief of police notified.

Early Saturday morning Chief Levan, of Preston, was notified of the occurrence, and ordered to keep watch for the offender, but the chief had already found him on the streets at midnight, and not being satisfied with his appearance, placed him in the cells. He gave as his name William Rogers.

The prisoner was identified by Mr. Oliver, and appeared before Magistrate J. D. Webster, and pleaded guilty to the charge of stabbing with intent to kill. He was remanded to Berlin jail.

The combined Atlantic and Mediterranean fleets will leave Gibraltar this month for the Lizard, and there they will meet the home fleet, the various divisions of which are ordered to assemble at the same point on July 2.

The force which Admiral Sir William May, senior naval officer abroad, will command will be one of unequalled strength. Should it be possible for each fleet concerned to muster its full total of ships, there will be present seven Dreadnoughts, three Invincibles and 22 other armored cruisers, 108 torpedo-boat destroyers, 36 torpedo boats, 50 submarines, and about 50 miscellaneous craft, such as protected cruisers, scouts, depot ships, and mine-layers.

Although strict secrecy is maintained as to the scope of the operations, it is believed that the Atlantic fleet and the fully-commissioned divisions of the home fleet will be combined against the reserve fleet of the home fleet and the Mediterranean fleet. This would give 23 battleships and 13 armored cruisers in the first force, and 16 battleships and 13 armored cruisers in the second.

There will be 45 admirals in the combined force—an unprecedented number to take part in manoeuvres.

Riga, Russia, population 355,000, is to have a new central passenger station with approaches, an improved custom house quay, harbor extension and new warehouses.

## STABBED BY TRAMP

Intoxicated Hobo Makes Savage Attack on a Farmer.

Preston, June 27.—Friday evening as Andrew Oliver, a prosperous farmer living outside the corporation, on the Galt road, was attending his many chores, he found a tramp lying in his sheep pen, apparently under the influence of liquor. Mr. Oliver requested him to leave the premises.

Unnoticed by Mr. Oliver he drew a knife from his pocket, and in a rage, deliberately attempted to stab Mr. Oliver in the heart. Fortunately the knife missed the mark, striking him in the armpit of the left arm, inflicting a deep wound, measuring fully three inches in length.

Not satisfied he circled about Mr. Oliver, repeatedly attempting to stab him, but being warded off he disappeared in the darkness.

Mr. Oliver was taken to Galt, where his wounds were attended to, and the chief of police notified.

Early Saturday morning Chief Levan, of Preston, was notified of the occurrence, and ordered to keep watch for the offender, but the chief had already found him on the streets at midnight, and not being satisfied with his appearance, placed him in the cells. He gave as his name William Rogers.

The prisoner was identified by Mr. Oliver, and appeared before Magistrate J. D. Webster, and pleaded guilty to the charge of stabbing with intent to kill. He was remanded to Berlin jail.

## LOSS OF DERNBURG FELT BY GERMANY

Resignation of Popular Minister  
Forms Chief Topic of  
Day.

Berlin, June 27.—The politically unexpected happens. In the middle of the hottest dog-days, Germany finds itself suddenly confronted by many political sensations. One is the Dernburg's resignation and the change in the colonial department continues the topic of the day. No minister has ever been so popular with the people and at the same time so unpopular with his fellow ministers, and so disagreeable to the Central party like Dernburg. And it is an open secret also, that the very people who should have supported him—the conservatives—disliked him just as much as their brothers. No sooner would Dernburg start a speech but the right side of the House would start to lose its occupant until not a man remained. It was remarkable how they all would suddenly grow thirsty the moment Dernburg stood up in his seat.

That, however, would have made no difference at all, if it had not been for the Central. Dernburg's fall was a recognized number in the progress of that party.

It is said is not meant as a contention, but rather as a report, of the general impression of the people. Every one of Germany's citizens not connected with the Government likes Dernburg. And everybody also is convinced that only the Central can have been the cause of the colonial minister's downfall.

All that would be necessary now, to finish them altogether, would be to vote for the raise in the price of beer. However, there is hardly any danger of that. The gentlemen of the Central, being mostly Bavarians, love beer too much themselves. But then, in the middle of every summer, when Parliament is off on its vacation, politicians find it self facing conditions the consequences of which may be strenuous.
