### "ANANIAS" CALLS ALD. TANCOCK!

Ald. Saunders Shot Back Hot Stuff About a Certain Hot Air Furnace.

CHARGES WERE HURLED

Ald. Tancock Accused of Trying to Keep a Man Out of a City Job Who Owed Him a Bill.

It is becoming the usual thing for Ald. Tancock and Ald. Saunders to lock horns in council and committee, and last night, at the council meeting they furnished some diversion. According to the statements made on both sides, the Ananias Club must have a considerable membership in this city.

The storm broke when the report of the board of works was read awarding certain contracts. As a matter of fact, all the tenders were sent back to the board for further consideration.

When the question of sewer pipe came up, it was found that Thomas Patterson & Co. were much the lower on the straight pipe used by the city while Hayman & Mills were low on the junctions. It was recommended that the lowest tender in each be accepted. but Ald. Tancock favored dividing the tender equally between the two, and settling it in that manner.

However, there was so much confusion that the council decided to let the committee work it out at leisure, and sent it back. The next storm came when cement

walks were considered. It was recommended that George Norton be given the south section at 814 cents a square foot, and J. W. Anthistle at 8 cents a square foot for the north sec-"Mr. Anthistle's tender came in late.

and should not be accepted," said Ald. Saunders. "It was placed on the table long after the other tenders were ppened. This is not fair. Smallman & Ingram were cut out on a technicalty, and all should be treated fairly.' He also alleged that several contractors in the past had "cheated on this work," and declared that some walks had been laid on grass. favored only those contractors whose work in the past had been honest and

Ald. Stevenson wanted to know about hese walks, as he had heard the same story, and he thought the engineer should furnish such a report.

The Storm Breaks. Then the storm broke, Ald. Tancock, n closing the debate, paid his complinents to Ald. Saunders "Ald. Saunders has caused

trouble long enough," said Aid, Tancock. "He has democrately told an untruth. He belongs to the class of men Ananias was supposed to belong to and you know what they were called stances in no way reflecting the real feeling of the majority of the inhabing, and declares that I sent out no-

> council," continued Ald. Tancock, "intead of paying all his attention to the Woodmen of the World, he would have known something of it. He is too old a man to continue telling untruths. Mayor Beattle called him to order.

Who Is the Prevaricator? "I guess my reputation in the city just as good as Ald. Tancock's," shot back Aid. Saunders. "I have always tried to tell the truth, and that is more than Ald. Tancock. asked the city to pay me \$150 for a furnace that cost \$117. Ald. Tancock did that, and stated that it cost \$150. Nor did I ever try to make the city collect my bills. Ald, Tancock tried to It has been the custom for the keep a man who owed him a little money from getting a job on the city force. I will stake my honesty against The time. He knows that a tender came

Ald. Stevenson declared that the tento accept the invitation, as he hap- no doubt that a tender came in late, pens to be in prison on some political as the charge had been acknowledged by the tenderer.

"This is funny business," said Ald.

Ald. Tancock insisted that the tender was received in due form, and of the situation, and she politely wrote asked City Clerk Baker to verify his statement. Mr. Baker stated that so far as he could remember the tender was in the box with the others. However, all the tenders except those

Do Your Own Hammering, Chasing and Pierced Work in **Brass** 

# "Metalography"

The art of producing a design or picture on

Our homeworkers' sets are inexpensive and include all the implements required for the work.

The "Nonrub" blanks, which are made of the finest quality sheet brass, comes in the required shapes for making different articles, with patterns indelibly stenciled. Thus the homeworkers benefit by the skill and experience of Apollo studio's artists and craftsmen, and without any previous training or knowledge of metal work any person may make beautiful, decorative and useful articles of brass at merely nominal cost.

The instructions furnished with each piece explain just how the outlining, raising, chasing and assembling of the various designs is to be done, which is so simple that anyone can readily learn to do it.

Such articles as PIN TRAYS, MATCH SAFES, BELT PINS, BROOCHES, HAT PINS, LAMP SHADES, CANDLESTICKS. CIGAR TRAYS, PICTURE FRAMES, TIE RACKS, SHAVING PADS, THERMOM-ETERS, PAPER RACKS, PIPE RACKS. TOBACCO AND CIGAR BOXES, FERN DISHES, JARDINIERES, ELECTRIC LIGHT SHADES, BLOTTERS, PAPER KNIVES, etc., etc.

Thousands of amateurs have taken up metalography and are improving their spare moments by making beautiful brass pieces for the home. It is fascinating as well as instructive. See our display of new pieces and

ART COUNTER-EAST AISLE.

# A Great Season for Wash Suitings

No matter what fabric a woman purchases for her summer suit, the one important question is always asked: Will it wash? Of this she must first be satisfied, whether it be silk, cotton or linen suiting, otherwise the usefulness of your pretty summer suit is done with a few times wearing. Our linen and cotton suitings in all the pretty summer colorings are fast, and will stand the tubbing and the new mercerized finish requires close inspection to determine whether or not it is silk. Some recent arrivals are attracting much attention.

#### Motor Cloth 20c

# The Standard Rotary

Is the only Sewing Machine which, with its own mechanism, produces both a chain and lock stitch perfectly.

THE CHAIN STITCH is a modern necessity, insuring the elasticity in seams required by the many new creations, to insure comfort. There are many garments which cannot be suitably made without the chain stitch.

To change the stitch with the Standard Rotary from lock to chain you simply change the bobbin case and bobbin for the spider; easily done.

THE STANDARD ROTARY has proved its superiority and supremacy through its greater usefulness-proved it for over twenty years.

THE DEMONSTRATION in our store during the past few weeks has won many friends for this machine-many buyers and club members. too. If you contemplate buying a sewing machine, look into the merits of the Standard Rotary. Our prices are the lowest and our terms the

CLUB MEMBERS buy at cash prices, \$2.00 down, \$1.00 a week.

### A Few Reasons Why You Should Have a Standard Rotary

The Standard Rotary Shuttle never stops when the machine is in operation. Old-style shuttles start and stop twice to each stitch. The Standard moves onward continuously without a jar.

The needle bar has only two motions to every stitch, whereas on a vibrating shuttle it has four.

Is the most copied sewer; makes two motions of the treadles to three of other machines. In sewing the same length of seam it makes 175 stitches while others make 100.

It makes both the two-thread and lock-stitch and the single-thread chain stitch.

elastic stitch. Tensions not changed by change of speed, size of thread, thickness of goods, nor length of stitch. What other machine can do as much?

It makes the prettiest and most
