Will Not Advise Poland Unless Bolshevik Make Unprovoked Attack,

London, Feb. 5.—The peace discussion between the Poles and the Bolsheviki are bing watched in diplomatic circles here wit the deepest interest, since the general feeling is that the peace of Europe depends upon whether the treaty is signed. In other words, Poland is regarded as the keystone of the present situation, and it is felt that as long as hostilities continue between her and soviet Russia tranquility cannot be reestablished in the rest of Europe.

The Allies do not propose to use Poland as an arrowhead to pierce Bolshevik Russia. The Allies cannot place themselves in a position of advising Poland to attack the Bolshevik, nor can the Allies promise aid to Poland in such event. S. Frank Glass. M. P., on his return from Ottawa yesterday stated that the outlook for the Port Stanley harbor is not very encouraging. Although the harbor serves a million people in Southwestern Ontarlo, the Government does not seem very anxious to improve it. The plans of the engineers which were turned in to the department called for the removal of the east pier with an extension of one hundred and fifty feet. Which was to be dredged to a depth of sixteen feet.

Only Spending \$20,000.

The estimate of the engineers called for an expenditure for a sum of between \$250,090 and \$300,090. Unless very strong pressure its brought to bear on the people at Ottawa, the only things that will be done to the harbor this year will be a few minor repairs, amounting to about \$20,090. The Government, Mr. Glass said, ordered the department to scrape Much Promised.

This amount, together with the \$12,-000 subscribed by Middlesex, and the probable endowment of a cot by the women's organizations of London Township and enotations by the Yacht Club

probable endowment of a cot by the women's organizations of London Township, and another by the Yacht Club of Goderich (the endowment of a cot amounts to \$1,000), proved most encouraging to the committee.

It was announced at this meeting that the board of education had accepted the proposition of a contest in the public and separate schools for the best design to be used on the pamphlet to be issued by the committee shortly. The prize offered is \$5. A second prize has also been offered by a friend of the cause.

Theatre Sildes.

This is but part of the publicity work which the committee is carrying on, however. Another scheme will be the showing of slides in the local theatres, reminding people of the hospital scheme. Just previous to the meeting of the hospital committee, there was a short meeting of the men's advisory board, at which Lleut.-Col. W. M. Gartshore was elected president, and Brig.-Gen. Protest Against Internationl's Methods in Handling Last Strike Situation.

Toronto, Feb. 5 .- A special from Coized as follows:

The miners in the Cobalt, Gowganda and Kirkland Lake districts in Northern Ontario will decide during the next three weeks whether they shall cast their lot with the "one big union," or form a purely district organization to affiliate, perhaps, later with the Dominion Trades and Labor Congress.

The One Big Union has many adherents in these camps, and it is making a strong bid to win over the majority of the miners. An office has already been opened in Cobalt, and has a considerable foothold. The organizer of the lumbermen who recently caused so much trouble in the Port Arthur area has organized all the Finns at Cobalt into a union, and is making a bid for the other miners and workers in the camp. The International Miners' Union, with headquarters in Denver, has completely lost its hold in Cobalt, says the Star correspondent.

The correspondent points out that the task of arresting and delivering the men for extradition would fall on Noske. He adds that passive resistance apparently will be the attitude of Germany toward the allied
