**B. C. MINERAL EXHIBIT FOR SEATTLE FIRM**

**R. L. Broadbent Reports That He Has Nearly Completed B. C. Section of Canadian Exhibit**

R. L. Broadbent, who is in charge of the mineral display of the Canadian exhibit at the Alaska-Yukon-Pacific Exposition in the city, and reports that he has nearly completed the collection of the British Columbia section.

The mineral exhibit will be very complete, as it includes intact the display which was shown at the Franco-British Exhibition in London last year. This has been supplemented by additional specimens from most of the provinces, while a few specimens of the special class have been taken to obtain a large showing.

Mr. Broadbent states that the specimens secured from the Trail mines and smelter and from the Tye smelter will be very complete. He says the Canadian exhibit has been taken to the coast mines.

He has been in charge of the Canadian mineral exhibits at St. Louis, at Lieges, at Milan and at Christchurch, N. Z.

**ARREST FRENCH GUNSMITH ON A SERIOUS CHARGE**

Victor Ista, a French gunsmith, who has been working for Pichon & Lenfestey, was arrested on Saturday on the charge of having forged the pistols. The firm had been missing stuff for some time, and last week Ista left to go to Vancouver, B.C., believing that they had got sufficient evidence to warrant the action, on Friday last Mr. Lenfestey went over to Vancouver with the intention of getting his former employee arrested. When he got there, however, he found that Ista had taken the Princess Charlotte back to Victoria.

The local police were communicated with by wire and the man was arrested by detective Richards and O'Leary as he stepped off the Charlotte on her arrival here. His employers claim that he has taken a quantity of cutlery, including a lot of kitchen knives, and that they also miss a number of gun fittings, files, a revolver, which he is alleged to have pawned, as well as other articles.

A remarkable feature is that a search of his box at his rooming house reveals the fact that he contained a quantity of lead balls belonging to his landlady. Altogether there was \$13 worth of goods, and Ista was charged with theft in the police court tomorrow morning.

Ista is French by birth, and has been in Victoria for a couple of years or so. So far as the police are aware, this is the first time that any such charge has been made against him.

**TRACK LAYING WILL COMMENCE AUGUST FIRST**

Track laying will commence upon the first hundred miles of the G. T. P. out of Prince Rupert on the afternoon of August 1st. The announcement of E. J. Chamberlin, the general manager of the railway, who has returned to Victoria from the northern city in embryo. He was accompanied by Larry Rupt.

It was Mr. Chamberlin's first visit to Prince Rupert, and he expressed himself as highly pleased with conditions there. The work is making rapid progress, the clearing operations and the work upon the sewers and street improvements is being urged rapidly. The weather, moreover, was fine. For the three days which the party spent there, rain was not in the shower of a half hour's duration on Thursday night.

While a large influx of people is expected with the sale of lots, and while the contractors may require additional men until track laying begins, the contractors will not require many additional men until track laying begins, the contractors will not require many additional men until track laying begins.

**E. J. Chamberlin, General Manager of the Grand Trunk Pacific Railway, Returns From Prince Rupert**

The harbor especially delighted the general manager, and he expressed the opinion that it was the finest on the coast. The outlook from the town-site is most imposing, and well worthy the city which Mr. Chamberlin believes is destined to be the greatest upon the Pacific Coast.

**DEE JONES NOT ALLOWED TO LAND IN VICTORIA**

Dee Jones is a persevering and elusive young person. He calls himself a jockey, but he is not successful in persuading the Dominion immigration authorities that he is a desirable addition to the local population. He came over on Friday from Seattle on the Whatcom, but was not allowed to land. However, the manager for the ship, and later on, while the steamer lay at the wharf, he made his way ashore and disappeared.

Now, a boat which allows a refused immigrant to land is liable to be fined \$500, according to the Whatcom. He immediately communicated with the police. He was soon heard of out at the track, but when a detective went out there he was not there. The officer was informed that Dee Jones was digging in California, though the exact location of his favorite claim bed was not disclosed. Yesterday, however, Detective Clarys made another trip out about the time the horses get their evening feed. Sure enough, he discovered Dee Jones, grooming a horse many times taller than himself with the utmost energy.

His industry did not avail him. He was taken back to the city lock-up and this evening will give a free ride to Seattle on the Whatcom.

**NATURAL CAUSES**

**Jury Finds Death of Daniel Steele Due to Internal Hemorrhage.**

That death was due to natural causes was the finding of the coroner's jury which sat yesterday afternoon at the city hall to investigate into the sudden death of Daniel Steele, well known to the city, who was suddenly stricken on Store street on Friday afternoon and who succumbed half an hour after his arrival at the St. Joseph's hospital. Hemorrhage of the pancreas was the cause of the death according to the evidence given by Dr. George Hall, who yesterday performed a post-mortem examination of the body. The disease, an extremely rare one, works with startling rapidity. Dr. Hall stated that there was absolutely no evidence of poisoning or of death having been caused by violence.

Louis Smith, proprietor of the Light House saloon, corner of Wharf street and Cormorant street, stated that shortly after noon on Friday the deceased came into the saloon but did not stop, passing through to the street again. A few minutes later he returned, stating that he had been seized with a sudden pain in his abdomen. He was given him. Smith then left the saloon but later when he returned the deceased was still there, but in a very serious condition. The perspiration was pouring from his face, though his hands were icy cold. A black vomit called and Steele rushed to the hospital, where he died very shortly after being admitted.

The jury returned its verdict without leaving its place. The jury was composed of Capt. J. C. Brownrigg, foreman, William McInnis, John Graham, Albert J. Fuller, John F. Magon and George D. Cass.

The funeral was arranged for today, leaving the family residence, Market street, at 8.45 this morning, and the Roman Catholic cathedral at 9 o'clock.

**INQUEST BRINGS OUT BUT FEW NEW FACTS**

**Mystery Surrounding Identity of Unknown Has Not Been Elucidated**

"Found drowned" was the open verdict returned by the coroner's jury which sat yesterday to investigate into the circumstances surrounding the death of the unknown man whose body was discovered on the beach near the Clover Point rifle range on Friday morning. The evidence submitted at the inquest brought out few, if any, particulars which have not already been published in the Colonist. In the identifying of the unknown was not established and beyond getting the evidence to point to the fact that the man was living in the house at 740 Burdette avenue, who testified to the unknown having lodged with them and having been a couple of years or so. So far as the police are aware, this is the first time that any such charge has been made against him.

**TRACK LAYING WILL COMMENCE AUGUST FIRST**

Track laying will commence upon the first hundred miles of the G. T. P. out of Prince Rupert on the afternoon of August 1st. The announcement of E. J. Chamberlin, the general manager of the railway, who has returned to Victoria from the northern city in embryo. He was accompanied by Larry Rupt.

**PREMIER WHITNEY DENIES RUMOR**

Toronto, Ont., April 12.—According to the Mail and Empire, the Ontario government is to set aside a million acres of land in the Rainy River district, including Hunter's Island, as a forest reserve. This announcement, however, is denied in the Globe by Premier Whitney.

**COMMERCIALS CLAUSE NOT DECIDED**

Washington, D.C., April 12.—No decision in the Commercial Clause controversy was announced by the Supreme Court of the United States today.

**EASTER WAS OBSERVED IN CITY CHURCHES**

**Large Congregations Heard Easter Sermons in All the Churches of the City—Floral Displays Beautiful**

Victorians are usually favored with good weather during Sundays, but seldom have they enjoyed a more perfect day than yesterday proved to be on the occasion of the greatest of all Christian festivals. The sun shone out of a cloudless sky with remarkable warmth, the early part of the season being somewhat dull. The snow-capped Olympics across the straits, and all nature seemed determined to enter into the joyous spirit of Resurrection.

The congregations attracted to the various churches were large and at each morning and evening services the churches thronged. Weather conditions were very favorable, and all that could be desired in opportunity was given for the display in all their gorgeousness of the pretty floral decorations which the ladies deemed essential to the season.

The floral displays in the churches were more than usually attractive and the musical programmes meritorious.

At Christ Church Cathedral. At Christ Church Cathedral the Bishop preached to a large congregation in the morning, his discourse dealing with the significance of Easter and its lessons to humanity. In the evening the sermon was preached by Rev. J. Griffith. The musical arrangements at both services were of the most attractive and the solo singing in the evening by Mr. A. T. Goward, "Awake, Thou Slumberest" (Stainer), proving very enjoyable.

A feature of the services at St. John's church, where, by the way, the floral decorations were of the most beautiful, was the excellent musical programme, selections on the fine organ by Mr. Burnett contributing to the successful service arrangements to a notable degree.

Church of Our Lord. At the Church of Our Lord, Rev. T. W. Gladstone, the rector, took for his morning subject "The Mystery of the Resurrection." His discourse was ably decorated. Hundreds were unable to gain admittance.

Metropolitan Methodist. At the Metropolitan Methodist church Easter services were arranged as always made a leading feature. Here the younger members of the congregation were given a special opportunity of the decorating of the interior of the sacred edifice and the notable success of the service was due to the devotion of much favorable comment. The major portion of the services both morning and evening was given to the recitation of admirable musical programmes, features of which were some selections in oratorio style, such as "The Messiah" and "St. Matthew's Passion," and solos by Mrs. D. C. Reid, Joseph Burnaby, William Marsh and Mrs. W. J. Hutton.

Presbyterian Methodist. The young ladies of the Centennial Methodist church each year take a special interest in the services at that edifice, at the Easter season, and yesterday they excelled all previous years in the decorations of the interior of the church. The floral arrangements were of the most beautiful, and the solo singing in the evening by Mrs. D. C. Reid, Joseph Burnaby, William Marsh and Mrs. W. J. Hutton.
