

COUNTY GETS BIG PRICE FOR BONDS

Debut Issue of Five Per Cent. Brings 100.18.

BEST PRICE EVER PAID

Highest Received By Any Municipality For Issue.

The highest price ever paid in Canada for municipal bonds was received by the County of Middlesex for their debenture issue of \$55,000 15-year five per cent. bonds when the tender of the Matthews bond firm, of Toronto, was accepted at a price of 100.18. This is 18 points above par and the highest price ever received by the county or ever offered in Canada.

From 19 tenders received after the county had sent out advertising offering them for sale, a surprising number of American bond houses replied. The offer of the Matthews Company, has completely surprised county officials and this morning, Warden C. C. Henry and County Clerk John Stuart were preparing to close the deal in a jubilation mood.

Among some of the leading bond houses who tendered were Ames, at 99.87, Cochran Hay, at 99.7, and others. Such an offer as this may be taken as a sign of the confidence in the County of Middlesex and its financial position. It is an indication that this rating is a good one to live.

The debentures were ordered issued at the last meeting of the County Council for the purpose of carrying on the road construction work in the county.

EASTER LILY IN BLOOM.

The schedule of the plant world has apparently been somewhat disrupted by the comparatively warm weather and springlike rains of the past three weeks. Mrs. Charles Garnett, 715 Maitland street, has an Easter lily plant which is in full bloom. This is the second appearance of blooms on the plant this year. According to florists and agriculturists it is very unusual for an Easter lily to bloom at this time of the year.

REDUCE FARES ON STREET RAILWAY

Manager John Recommends 5-Cent Fare To Committee

SIX TICKETS FOR QUARTER

Question Will Come Before Council At Next Meeting

ST. THOMAS, Sept. 30.—Manager John, of the municipal railway, at the meeting of the committee this evening recommended that the fares be reduced from seven cents to five cents and six tickets for a quarter. He stated that the seven-cent fare was obsolete and that the railway would gain more patronage by the reduced fare. The committee favored the move and recommended it to the Council at their next session. The matter of issuing weekly tickets was left for further consideration. It was planned to issue these tickets each Monday, the tickets being good for any member of the family.

Manager John reported two minor accidents, but as the car drivers were in the wrong each time no action will be taken against the city for damages. A communication from the M. C. R. asking the street railway commission if they had any objection to cancelling the contract calling for maintenance of the spur from the M. C. R. to the building now occupied by the Metal Signs Company. The contract dates back to the days of the London & Lake Erie Railroad, and the communication was referred to City Solicitor W. B. Doherty.

COUPE AND STREET CAR FIGURE IN COLLISION

ST. THOMAS, Sept. 30.—Some excitement was caused at noon today when a coupe driven by Richard C. Cochill, manager of the Windsor Holmes, Limited, and a street car came together at the corner of Stanley and William streets.

The accident happened at 12.30 o'clock. Mr. Cochill, coming south on William street, was looking east on the M. C. The street car, which was in charge of William Knight, suffered a bent retriever and a broken trolley pole, and a delay of a few minutes was occasioned while the necessary repairs were made. Mr. Cochill escaped with a shaking up and a slight cut on one hand.
