

SIMPSON, HALL, MILLER & CO.,

In order to protect our Canadian Trade, we have opened a branch factory at Montreal, and have fitted it up with the latest and most improved machinery for the manufacture of all kinds of Electro Silver Plated Flat and Hollow Ware. We have imported a full corps of operatives from our main factory at Wallingford, Conn., U. S., which will enable us to turn out goods equal to any manufactured in the United States. The branch factory is under the personal supervision of Mr. G. W. Hull, who has long been recognized as one of the most experienced and practical managers of this kind of manufacture in the United States; this in itself will be a sufficient guarantee that all the work turned out of the Montreal factory will be fully up to the standard both in Quality and Finish.

IN HOLLOW WARE

We will, as usual, make a full assortment, including all the latest novelties. These goods will be found fully illustrated in our new catalogue, and are warranted to be equal to any goods of a similar kind manufactured elsewhere. All our goods bear our own Trade Mark and name, and are guaranteed to be first-class in every particular, no matter by whom sold.

IN SPOONS, FORKS

and other Flat Ware we will continue to manufacture goods worthy of the high reputation we have attained, and can recommend them as being equal to any goods in the world. They are all heavily plated with a coating of pure silver, from 10 to 20 per cent. heavier than the regular market standard, upon a base of 18 per cent. Nickel Silver, and are all hand burnished and finished equal to sterling silver goods. We are prepared to furnish them either in Plain or Fancy Patterns, in Extra, Double, Triple and Quadruple Plate. Each Spoon and Fork has the quality plainly stamped upon the back, and every dozen is warranted by special guarantee wrapper. Full particulars as to patterns, etc., will be found in our illustrated catalogues.
