If you would be pungent, be brief; for it is with words as with sunbeams—the more they are condensed the deeper they burn.—*Southey.*

A married woman is always wiser than an unmarried woman; but it is often the wisdom that comes from disappointment, sorrow and discontent.—*Century.*

A French chemist has recently discovered that the confectioners of Paris are using soap for their charlotte-russes and cream cakes instead of real cream, and no one ever knows the difference. A quantity of soap is dissolved in hot water, and when cold is beaten to a stiff foam, with a few drops of oil of poppies, until it is stiff and just like whipped cream. It is then sweetened and beaten again and used like real cream. It is not very healthful, and so the Paris Board of Health has ordered that it be stopped, and the chemists are busy finding all confectioners who use the soap mixture in their candies and cakes.

Dear Sirs,—

It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acid Cure is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

The true past departs not. Nothing that was worthy in the past departs—no truth or goodness realized by man ever dies or can die.—*Carlyle.*

There are two things needed in these days—first, for rich men to find out how poor men live; and, second, for poor men to know how rich men work.—*Edward Atkinson.*

You are surprised at your imperfections, why? I should infer from that, that your self-knowledge is small. Surely you might rather be astonished that you do not fall into more frequent and more grievous faults, and thank God for his upholding grace.—*Jean Nicholas Grou.*
