MONDAY MORNING

YET GO IS NECESSARY **JUNC ON STRIKE**

Business Can Be Conducted Men and Employers Does in One Meeting Every Two Not Meet With Unanimous Approval, and Unless Ob-Weeks-Midnight Session is Probable To-day, With Many jectionable Points Are Eradi-Important Discussions, cated Men Will Stop Work.

City Engineer Rust's resignation, the proposed lite-saving station for To-ronto, the issand water lots question, and the report of the committee on the states are the chief in the proposed astrees will also be dealt with and as meeting to day. Numerous minor matters will also be dealt with and as meeting favoring the signing of the stabilish a fire marshal system for the result that the union and the boss-scasion. Mr. Rust's resignation was accepted in their report to-day recommend that the accepted astore the engineer be granted a bohus of the settling of the minimum of 32c. It was suggested by the board of control, who, in their report to-day recommend that the union of 32c. It was suggested by the proving the salary. What attitude

interesting will also be dealt with and as many of these latter are calculated to produce lengthy debates, the probabil-ity is that there will be a midnight ecssion. Mr. Rust's resignation was accepted in their report to-day recommend that the engineer be granted a bonus of three council will take remains to be the single council will take remains to be the an increase of 4 cents was demanded some time ago, which would the engineer be granted a bonus of three council will take remains to be the single council will take remains the to the single council will be taken in the matter until the single council will be taken in the matter until the single council will be taken in the matter will the taken the single council will be taken in the matter will take the taken take the engineer be granted a bonus of three months' salary. What attitude the council will take remains to be seen. Mr. Rust, however, is desirous of his resignation being finally accept-ed at once, and in view of this it is believed the council will take definite action. In all probability, however, a keen discussion will ensue and ed at once, and in view of this it is believed the council will take definite action. In all probability, however, a keen discussion will ensue and some of Mr. Rust's critics will probably be censured for their attitude. Life_saving Station.

The board of control recommend that the Dominion Government be approached with a view to securing a permanent life-saving station for Toronto, together with a thoro revision of the existing laws to secure addi-tional life-saving aids. The controllers believe that more precautions should be taken in this respect and the probability is that council will endorse endations.

When the harbor commission was formed the water lots on the north shore of the island were conveyed to that body, but the island committee claim that these should be under the jurisdiction of the city. They have in consequence recommended that the lots be conveyed back so that the city can undertake the various improvements which are needed. The board of control recommend that they be allow-ed to take the matter up with the commissioners and the council will give their ruling to-day on the whole matter.

For Feeble-minded.

their In their report the committee on feeble-minded children and mentally want medical examinations made and they recommend numerous improve-ments for the accommodation of all such patients. The board of control have endorsed the report, but some

Doings YORK COUNTY

Matters were running along smooth ly in the consideration of other affairs when the reading of a letter by Mayor Brown from the board of control aroused the ire of the chief magistrate. The communication was to the effect that the board of control, on motion of Controller Church, had endorsed a resolution asking the North Toronto Council to meet with them on Monday morning to join in opposing the double-tracking of Yonge-st. by the Me-tropolitan Railway.

"I want to say right here and now," said his worship, "that I consider that letter nothing but an insult to this council and town, and I for one resent. it. I am not surprised at Controller Church making such a motion, but that

Church making such a motion, but that his colleagues should support him is beyond my comprehension." Knocks the City. Continuing, Mayor Brown said: "Af-ter going to work and trying in good faith to arrange a deal with the rall-way company to improve our streets. we would be faise to ourselves to now go down and oppose what we are try-ing to get. What has the city ever done but give us the cold sholder?" said the mayor, holly, with the mem-ory of the annexation defeat upon him. This view was likewise taken by ev-ery other member of council, with the exception of Councillor Ball, who made a strong appeal for the town to go a strong appeal for the town to go slow in the matter and not throw down the city's offer to confer.

"There are other ways in which the city can help us," said Councillor Ball, "and we oug t not to show resentment b cause they did throw down annexation. It was the moneyed men, not the c.t.zens, did that. I charge that if we allow the Metropolitan to double track Yonge street thru the town and stop at the southerly limits we would only add to the congestion and I will oppose it," said he. He further said that he had tried unsuccessfully to get thru council a resolution asking the city

are to succeed. Says City Blocks Progress.
