### PROGRESS OF ANGLICANS IN DIOCESE OF TORONTO

Report of Registrar Shows Substantial Increases in Membership and Finances.

The registrar of the Diocese of Toronto has just issued his report on the present standing of the Anglican Church in the ten rural deaneries which compose the diocese, as well as its progress during 1907.

Almost every department shows a substantial increase. Those in membership are given as: Communicants, 12,796; confirmation—candidates, 157; clergy, 189; parishes, missions, etc., 307; churches, 246.

Financially the showing is particularly good, the increase aggregating \$16,468. The increase in clerical stipends was almost \$8000.

During the year five new missions have been opened, mainly in the environs of Toronto, and a number of others, both in the city and outside. In addition, three missions, which had

been closed for some time, have been re-opened.

The cost of new churches, enlargements and improvements during the year will amount to a total of nearly \$100,000.

While no advance in building operations over last year is noted, there is a good, healthy condition of affairs generally, and the outlook for the town is most satisfactory.

Emerson Maxwell, at one time mentioned as tender in the Metropolitan Bank, East Toronto, and later in the Elmira branch, is in St. Michael's Hospital, suffering from severe illness.

The East Toronto Lacrosse Club play the Elks in Dovercourt Park on Saturday afternoon at 4 o'clock. There will be a general practice on the "rye" field on Friday night at 7 o'clock.

**RICHMOND HILL.**  
Curlers Plan Most Enjoyable and Well-Attended Trip.

**RICHMOND HILL, July 31.**—(Special.)—A jolly party of excursionists left the village at five o'clock to-night, bound for Scarborough Beach. The party was under the auspices of the Richmond Hill Curling Club and numerically and socially was a great success.

**NORTH TORONTO.**  
Anglicans Will Build New Schoolroom—School Board Gets Grant.

**NORTH TORONTO, July 31.**—A special vestry meeting was held in the schoolroom of St. Clement's Church last night, when it was decided to erect a new school building, immediately west of the present school-room. The style of the building will be very much the same as the church, and will be 60 by 30 feet, connecting with the present school by a door, and will be used by the day school.

The treasurer of the public school board received the legislative grant, amounting to \$184. Last year's grant was \$171.

Mrs. (Rev.) Powell and her three daughters returned home from a month's sojourn at Gregory, Muskoka, on Monday, July 30. The party was most enjoyable, and the Muskoka trip was a great success.

Claim Matter of Union Requires More Consideration—Storm at Aurora—Items.

**EAST TORONTO, July 31.**—Workmen employed on the construction of the new stores at the corner of Lee-avenue and Queen-street have encountered some difficulty in the work, owing to the presence of water in the cellar.

The Bell Telephone Company are rapidly installing the necessary appliances in their fine large offices, a little to the north of Queen-street and Lee-avenue.

Aug. 5, the date fixed by Mayor Ross and the council as Civic Holiday, is regarded as eminently satisfactory as interfering little with business conditions.

Joseph Price and family have returned from a short trip east on their staunch craft Philaris II. While in Frenchman's Bay they report one of the roughest storms they ever visited that section of the country. One large schooner was torn from her moorings and drifted into the lake, but was later recovered.

The town council have so far failed to improve the condition of the roadway south of Kingston-road, on Lee-avenue, where deep gullies are worn on the eastern side, in front of Mr. Ames' property.

A. P. Bell Telephone Company is completely remodeling his residence. Complaints are rife regarding the dust on the Kingston-road in both the town and township limits. Scarcity of water is given as the cause of the limited sprinkling.

Dr. Slaley now comfortably located in his handsome residence, at the corner of Main-street and Kingston-road. The condition of the East Toronto athletic grounds is not what might be expected from the personnel of the directors, being covered with weeds and rubbish.

The action of the council on Monday night, rescinding the "good roads" movement, renders it certain that no concerted plan for high-class roadways will be undertaken this year. Only the most pressing and needful repairs will be carried out. Lateness of the season and a desire to economize has led to this course.

Mr. and Mrs. John Baird, parents of Mayor Baird, leave to-night for Montreal, and will sail on the Virginian on Friday morning for Liverpool. This is the first time Mr. Baird has crossed the Atlantic since he arrived in this country from Ireland forty-seven years ago. They will make an extended holiday and visit points of interest in England, Ireland and Scotland.

Mayor Baird returned last night from a two weeks' stay at Muskoka, and feels greatly benefited by his vacation.

Mayor Baird was unable to find out whether a public funeral would be held over the victims of the Humber disaster, as telephonic communication could not be established with him on Saturday night. Late in the afternoon he was informed that unless the bodies would all be found there would not be a public funeral, and the mayor received no further information until it was too late for him to reach the Junction to-morrow.

The abnormal boom in real estate in the Junction has caused considerable scarcity of money amongst the loan companies, and in consequence the building of numerous houses is at a standstill at present thru want of funds to continue the work.

**CAPELLI HAD BRAIN STORM GETS NEW LEASE OF LIFE**

Mr. Justice Britton Grants Murderer Reprieve for Fifteen Days.

Frank Capelli, an Italian under sentence at Parry Sound to die this morning, for the murder of a man named Dow, was reprieved by Mr. Justice Britton yesterday, until Aug. 15.

This is the first time in the history of the province that such an order has been granted by any other than the trial judge, but Mr. Justice Teetzel, who sentenced Capelli, is out of the city holidaying in Prince Edward.

The motion for a reprieve was made by C. A. Moss, acting for H. F. Keefe, Capelli's solicitor, of Port Arthur. It was opposed by Edward Bayly, for the attorney-general.

Mr. Moss filed an affidavit of Mr. Keefe, to the effect that Capelli, who was formerly a carpenter, was a prisoner in the post-mortem on the body of Dow, could, if he had been called, have given important testimony that was not brought out at the trial.

Capelli's Brain Storm.

"Dr. Robertson," the affidavit reads, "is of the opinion that Capelli, in his hospital, when he said Capelli had a serious injury to his head from the falling thereon of a large hoisting derrick, and I believe that sufficient facts could have been elicited from Dr. Robertson to show that the man Capelli, who was formerly a carpenter, which took place long before the offence for which Capelli was being tried, was not able to stand any sudden exertion, all of which would have been material evidence on behalf of the prisoner to come before the jury on whether the crime should be one of manslaughter or murder, and I believe that had the evidence of Dr. Robertson been presented to the jury, the jury would have reduced their verdict to manslaughter."

Mr. Keefe also stated that he can produce an eye-witness of the crime who can show it resulted from a drunken row in which the prisoner was struck about the head, where he had been previously injured, and that the death of Dow was unpremeditated.

A special messenger was despatched to Parry Sound with the order for a reprieve, and last there be any accident a telegram was sent to the sheriff advising him that the order was on the way. The attorney-general also notified the sheriff to the same effect.

Prisoner's counsel had previously made application to the minister of justice for a commutation of the sentence to imprisonment for life. This was refused. An application will now be made for the commutation of the sentence on the ground that new and important evidence has been discovered.

**THE DISCOW.**  
Capelli with others early in the year, visited the house of some friends named McCormick. The bottle passed freely and the gathering became merry. The culmination came when Capelli made an attack on Mrs. McCormick, throwing her to the floor. A man named Dow pulled Capelli off.
