

PLAYING POLITICS AS A BOARD OF HOME POLITICS

Prof. Bryce Calls that the Worst Feature of the Much-Discussed Conference.

(Canadian Associated Press Cable) London, May 31.—Prof. James Bryce, M.P., speaking at Bracknell, said the only reason for the change of front in the premier suggesting a colonial conference before the general election was that it would enable the ministers to show the country into a policy it would not otherwise accept.

RUSSIAN PRESS IS BITTER.

Demands the Immediate Convocation of a National Assembly.

St. Petersburg, May 31.—The catastrophe which has overtaken the Russian fleet has given a tremendous impetus to the demand upon Emperor Nicholas for the immediate convocation of a national assembly, without awaiting action upon the report of the Rouglin report commission.

The above popular paper is even more bitter. It says: "Enough. Blindfolded for 200 years, the Russian people have been marching to the brink of destruction, but the bandages are now torn from the eyes of 130,000,000 of Russians, and they will neither be led nor driven over the precipice. Let the people speak. The bureaucracy has had its say, and has crowned its work with national shame and humiliation. It now listens to what those who have suffered in silence and who have supported it in luxury have to say. From this moment a convocation of the people has become an absolute necessity for our air we breathe. If bureaucracy this time stands between the emperor and the nation, let it beware. The Russian people have learned the lessons of Russian history—the history of the senesky sobor of 1613.

Defeat for Government. The Japanese are not fighting the Russian people, but the Russian bureaucracy, which has rejected with energy the talent of the nation for the benefit of scoundrels and the serving courtiers. Our only consolation in this bitter hour is the conviction that it is not the people but the government which has suffered defeat. Enough."

A 14-YEAR-OLD JUDGMENT.

Windsor Business Temporarily Tied Up to Satisfy Big Claim.

Windsor, May 31.—On the question of ownership of the stock and fixtures of the store formerly occupied by J. A. Roe & Co., dealers in engineers' and mill supplies, hinges the execution of a 14-year-old judgment for \$10,000, and interest, a total of about \$18,000, held by James Morrison, Toronto, against Roe.

Roe was formerly in the employ of Morrison. He opened a branch here. Two weeks ago he sold it to Wing Co. of Detroit. Wing claims he bought the stock in good faith, and that the judgment cannot be executed. Business is being continued, but the stock is still under seizure. Roe, who is now in Detroit, claims to know absolutely nothing about the matter.

Doctors Said That Lumps and External Swellings Would Turn to Running Sores.

Mrs. Jacob Kaehler, Zurich, Ont., says that Burdock Blood Bitters Saved Her from Many Years of Suffering.

She writes:—"Now imagine how joyous and great was my surprise when a friend of mine told me that Burdock Blood Bitters would cure me, so that the lumps and external swellings, which the doctors told me would turn to running sores, would disappear. I took her advice, and can say that I have no doubt but that Burdock Blood Bitters has saved me from years of suffering. It is with the greatest pleasure and with a thankful heart that I give this testimonial, knowing that Burdock Blood Bitters has done so much for me, and you are at perfect liberty to use this for the benefit of others similarly afflicted."

Burdock Blood Bitters is the best blood medicine on the market to-day, and is composed entirely of roots, herbs, barks and berries.

ENCRICLED BY AWFUL FIRE. Then Togo Offered Chance to Surrender That Was Taken.

London, June 1.—The Daily Mail's Tokyo correspondent says that the captain of the Russian cruiser Admiral Nakhimoff, who is now a prisoner, received the following story of the battle between the Japanese and the Russian fleet: "We first saw the Japanese at six o'clock on the morning of May 27, when suddenly and unexpectedly we encountered the enemy's fleet as we were moving to the east of the island. The steamed towards us and opened fire. Only ninety minutes after the firing began a sudden shock was felt under the hull of the ship, and it began to sink with great rapidity. My belief is that she either struck a mine or a torpedo, and that she was unable to stop. As she sank there was a great deal of confusion among the crew, and many were killed. The ship was completely destroyed."

Philippine Gas. Difficulty has been experienced in obtaining illuminating gas from the coal obtainable in the Philippine Islands and after experiment the government laboratories have found that a much better quality of gas is obtainable from the oil of coconuts.

IS SCIATICA CURABLE? Many who have used poor remedies think sciatica is well nigh incurable, but it doesn't take long to change this opinion when Polson's Nervine is used. It is a powerful, penetrating, pain-relieving power unknown in ordinary treatments. With Nervine failure is impossible. E. S. Jenkins of Portland, Maine, says: "I spent a small fortune on sciatica, but the only one of real relief was Nervine. I used a few bottles and was cured. I can recommend it to anyone who is suffering from sciatica; it is excellent also for rheumatism and neuralgia." For nearly fifty years Nervine has been curing the worst cases; it will cure you, too. Large bottles, 25c; all dealers.

A BILIOUS HEADACHE. Is one of the meanest things in the world. To prevent biliousness use Dr. Williams' Pink Pills for Pale People. It is a clean, pure, and powerful medicine, gives tone to kidneys and liver, and never has a sour stomach, but you will have vigorous, bracing health by taking Dr. Williams' Pink Pills for Pale People, or five boxes for one dollar.

SHOULD PROTECT THE MINISTER OF HEALTH?

Queen's Quarterly Renews Question By Saying "Yes"—Dr. Willoughby Suggested for Position.

Queen's Medical Quarterly has given new life to the question of a portfolio of health in the Ontario government in an editorial, in which Dr. Willoughby is mentioned as an appropriate man for the position. The idea is strongly favored by Dr. Hodgetts, who is in charge of the portion of the provincial secretary's department dealing with public health.

And the Horse Monte Carlo Involved in a Story That May Become Interesting.

It was Monte Carlo—not the real Monte Carlo, away over the mountains but the horse that was the sensation of the day at the Woodbine race-day, that induced some people to get themselves into a heap of trouble. Monte Carlo was looked upon as a "good thing" and a "good bet" in the betting ring. A whole lot of people went to him.

MESSSENGER BOYS HUSTLED.

Weren't to a Fire, But in Bike Race for a Cup. If you feel just a wee bit grouchy this morning when you go to work, for goodness' sake do not vent your ill-temper on the first messenger boy that you meet, and especially upon the first "Whoop" cried by the C. P. R. boys. In front was their firm hope "ward" with a good lead. Round and round they went, the race sped till the tenth lap, when Gibson of the G.N.W. had worked his way slowly but surely to the front and was running pedal to pedal with Ward. In taking the turn in some way the two riders got badly mixed and collided. They fell to the ground, but Ward in a moment was on his wheel again and pedaling for all he was worth and soon regained the distance that he had lost. Gibson was not so fortunate; he finished a "tailender."

When the five-mile contest was ended the C. P. R. boys were adjudged the winners. Their team finished as follows: Bert Ward ("Wardie"), first; John Macdonald, "Big Mac," second; Wm. Montgomery, just "Bill," third; with Brown, Yelding and Gibson of the G. N. W. following. The time was 15:07 and the winner says that he rode a "Planet" that may be his for winning the race.

The cup has been offered for contest by the Cycle and Motor Company for "Whoop" cried by the C. P. R. boys. The course of the race was running pedal to pedal with Ward. In taking the turn in some way the two riders got badly mixed and collided. They fell to the ground, but Ward in a moment was on his wheel again and pedaling for all he was worth and soon regained the distance that he had lost. Like most rocking stones the under surface is roughly pyramidal in shape, and one of the favorite tricks of those who are showing the curiosity to visitors is to place nuts under the stone and with a push from the opposite side cause them to nearly as with a hammer. There is some 200 miles from Buenos Ayres and the stone is not so well known as others more accessible, but it is easily raised as the largest on the continent and the natives are justly proud of their possession.

SIR JAMES WATSON'S OPINION

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarhose." No case of Catarrh can exist where Catarrhose is used; it is a miracle worker, relieves almost instantly, and cures where other medicines fail. Other treatments can't reach the diseased parts like Catarhose, because it goes to the source of the trouble along with the air you breathe. Catarhose is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Catarrhose, which alone can cure Catarrh.

AG AND ITS POPULARITY

Fifty years ago Putnam's Corn Syrup was introduced. Its sale has been enormous. Why? Because it is the only painless remedy for corns, warts and bunions. Doubtless you've proved this yourself.
