LOCAL MARKET.

London, Wednesday, May 2. There was a much larger atendance of farmers at the market today. Sales were brisk in every line, with the possible exception of hay. The only reduction in prices was for hay and dressed hogs.

Grain-There was a brisk demand for the fifteen loads of oats that were mar- \$1 38; June, \$1 38 bid. keted. Sales were made mostly at \$1 32 to \$1 33 per cwt. No other grain

Hay and Straw-There were 37 loads to \$14 for the best loads and \$11 to \$12 50 for inferior; straw was in good car lots here. demand at \$ 6to \$6 50 per ton.

Butter and Eggs-Butter sold quickly at 25e for crocks, and 26c to 27c for pound rolls. Eggs were firm in price and scarce. Sales were made at 16c to 161/2c per dozen wholesale, and 17c re-

Vegetables and Roots-There was a

number offered. Prices were lower at \$8 50 to \$9 per cwt; some sold at \$3 75. Butchers' Meat-Veal was dull at \$5 to \$7 50. Beef sold at \$5 50 to \$7 per ewt. Lamb was firm at 13c per pound for yearlings or \$6 to \$7 each for spring

LIVE STOCK MARKETS. TORONTO.

Toronto, May 2.-Live Stock-There were 110 loads in today, including 1,920 cattle, 177 sheep, 1,800 hogs and 348 calves. Quota- St. Catharines

stumbled across a bit of ore and sent The mine is one of the best equipped it to Europe as a curiosity, never

The Country's True Gold Mine. "But the banana farm is Costa Rica's true gold-mine. The returns night, and the work of taking out the are quick, the crop is sure, and the bodies will continue throughout the profits enormous. One farm was pointed out to me, which five years before had been a tropical jungle. Today the Limon Bank is willing to loan one million dollars in gold on it. The

method of preparing such a farm is interesting. The land must be lowland, and well watered, for it takes four hundred pounds of water to grow one pound of banana. So the country near the coast is the most desirable. In some districts in Costa Rica the rainfall amounts to 267 inches, in one year. Added to that is the intense tropical heat, and a rich alluvial soil, partly volcanic. So the reeking luxuriance of the growth may be imagined. "When a banana farm is to be made

the peons go over the ground, felling the huge trees. These are neither burned nor cut up. In eighteen months the biggest tree in the country has crumbled and rotted away into soil, Guelph, and Rev. Mr. Henderson, of owing to the great heat, the moisture London, made addresses at this and the ever-active insect life of the morning's session of tme Synod of tropics. With the forest or jungle once cleared of its standing timber, it is un-Hamilton and London, on the aug- derbrushed with machetes, and markmentation problem. The final result, ed out in rows, fifteen feet by fifteen after, much discussion, was that the feet, with all the debris still on it, tree delegates put themselves on record as trunks and all, to rot down into fresh delegates put themselves on record as soil. In each space is planted what believing that some of the charges are called four 'bits,' that is, four not doing all that they can for their pieces of the tuberous banana-tree support, but that wherever there is a root. The first 'bit' grows up, bears really weak charge the committee on its 'navel,' and its solitary bunch of augmentation will supplement the bananas, and is cut down, all in twelve months. Then the second 'bit' takes amount the field raises to bring it up its place, over the same root, grows up and bears, and in turn gives way to 176% An overture from the Presbytery of the third, and to the fourth. LARDER LAKE

Proprietary Goldfields, Limited

Owing to the phenomenal rush for shares in the above company, the first limited amount of stock at our first offering of \$1 00 per share will be exhausted sooner than expected. The price will then be materially advanced.

The advance will take place any day and probably without noticejust as soon as the stock has been introduced by placing a very limited amount at our initial price of \$1 00 per share-most of which is

I am not urging anyone to take on Larder Lake Proprietary. The stock is fast selling itself, and n a short time will all be placed in Canada and the United States.

I am anxious, however, that my Canadian following get what they want at the first price. Hence this Canadian advertisement to give you notice that the ground-floor opportunity will not last much

My following has consistently made money by acting on my advice. Thousands will testify to that.

I have never advised the purchase of a stock without it materially advancing in market value within a reasonable time.

My method after placing a stock with the public is to see that it is listed on the Exchanges. In every such case the result has been a legitimate market at an advanced price.

That is my record.

Larder Lake Proprietary will shortly be listed on the Exchanges and placed on the New York and Boston curbs.

I predict that very soon indeed it will stand at several dollars a share. I furthermore know that after the stamp mill materializes results, and it should be running within six weeks, that they will be of a sensational nature and I know that the stock will then surely see \$10 a share. A bold prediction, I hear some say, but those who shortly accept my invitation to take the trip to Larder on the special train I'm going to run from New York, Boston and Toronto will think my prediction conservative enough when they are on the ground and see what I and my engineers have been investigating and verifying for six months past.

The facts about the Larder Lake Goldfields, and the Proprietary

Company in particular, are far too great to present here. Full particulars, however, may be secured on request by calling personally, or by mail, telegraph or phone.

Again I say, I am not urging the purchase of this stock, for it is selling itself even faster than we can take care of the orders from Canada and the United States-two days behind now-but I am anxious that my Canadian following get into this, by far the best thing I have ever recommended, at our first offering price.
