if you could meet wishes of Tomlin-son and committee."

TOO MUCH TALKING

Premier Drury Despairs of

Legislature Ever Getting

Thru Session.

Conservative Leader Ferguson asked in the legislature yesterday if the government could give any idea as to

when the session would be over. Would it indicate what further legis-lation it proposed bringing down?

When the house opened it was hoped they would conclude their labors by

Easter, now only three weeks away. The premier did not care to say at

present what legislation was coming down, and added that at the rate they

were going it would be Easter next year before they would get thru. He

declined also to say anything about

inducing a good proportion of the

While the proceedings of the population going from one graveyard Sutherland Radial Commission have been very varied yesterday brought forth a boomerang in the shape of Robert M. Feustel, of Fort Wayne, Ind., president of the Indiana Service Corporation, who, altho brought here as a witness by the anti-radial interests, was so unbiased in his evidence that he proved to be one of had made every effort possible to the best witnesses yet heard for the reduce the time of travel. For a radial service in competition with all sides that it was a welcome change to have a witness who never attempted to dodge a question, who maintained such a neutral atti-tude while on the witness stand. Under cross-examination by Robert McKay, K.C., Hydro counsel, he was asked his opinion on a radial operating on conditions such as the pro-

ing on, and in nearly every instance prenounced them as favorable. Witness was asked what would be a fair figure for killowat hours per for a 70-foot modern type of car.

sed Hydro Radials would be operat-

hours per car mile with 65-foot cars seating from 65 to 70 passengers," was "The Hydro car being 70 feet would

show approximately the same power consumption?" "Yes, that would be about it." Does it take more or less power more frequent service and to run a car in the country than in obtain most of the traffic.

'It takes three times more power per car miles in the city than in the country because in the city so much behind other traffic, and stopping and starting up again so often." Witness agreed that with a private right of way to the centre of the city the Hydro Radials would thus be given a tremendous saving in power con-

Ontario Power Cheapest.

Asked regarding cost of power on his own lines, the Indiana Service Corp., witness stated that it would ing expenses, exclusive of taxes. When told that the Hydro would get power at \$26 per h.p., he considered t would mean a saving of five per cent, over what it cost his line. This was based on the 1920 prices of coal. He did not think coal prices would good roadbed and the cost of operation ever go down to pre-war prices. Mr. McKay, K.C .- Yes, the pre-

war prices are gone. Mr. Hellmuth, K.C.-I thought most things were going down?
Mr. Justice Sutherland—He only referring to counsel fees.
Mr. McKay, K.C.—I have not noticed any drop in mine, Mr. Hellmuth, K.C.—They

Speaking of the success of the Indianapolis to Louisville line, the witness stated that this had been done for thirsty passengers journeying to Kentucky to quench parched throats, but that the supply of wet goods was w pretty well exhausted. He found that roads operating between two cities were usually the most success-

"Then it can be said that roads of 100 miles or less operating between a large centre and a more moderate sized centre are the most success

"Yes, that is right, because it is the two centres that really carry them." It was pointed out that this would be the case of the Toronto-Hamilton Line and the Toronto & Eastern Line of the Hydro projects.
Asked regarding lines operating between two small towns about miles apart, witness said that the would not be great as towns in that category were generally so dead that there was no reason for the

ernment for Changes in Present Act.

5c; fisher, 50c; cross fox, \$1; lynx, C. R. Wheelock (Orangeville). 25c; mink, 25c; raccoon, 5c; ermine

Witness said that over a distance greater than a hundred miles a rathat could not be operated successfully, as people could not be induced to ride for many hours on a radial, as on a long journey people preferred the added comfort of the steam rail-They asked that the stamping system now in vogue in Quebec be substituted for the present coupon system from beaver and otter. They object to disclosing their fur shippers' names and addresses, claiming that such information is a trade

It is also recommended that no competition with steam lines speed was by far the icense be required for the destruction of bear, wolf, fox, lynx or ermine greatest asset, It was pointed out to as they are game destroyers and a the witness that speed was one of the menace to domestic animals. main attractions of the Hydro lines. and that frequent service would be Permits for Export.

given as compared with infrequent Permits should be necessary for the export of furs from Ontario and if the service of the steam lines.
Witness sureed that this should restamping system is adopted then the game wardens should be authorized to sult in the Hydro obtaining the bulk of the business.

He was asked if bringing the Hydro stamp furs in the province, thereby making them legal for any purpose. line into the centre of the city of destination at a high speed instead of It is also recommended that the fol-lewing fees be charged for licenses: having to transfer to a slow-mowing city car at the city boundary or spend One hundred dollars resident fee lowing one to carry on business on 30 or 35 minutes nosing along behind his premises or elsewhere in the pro-vince; \$125 resident wholesale license, traffic until the centre of the city was reached was not an important factor.
"It would probably be the determining factor of success," was the reply. allowing one to carry on business on their premises or elsewhere; \$1 nonresident wholesale license permitting Asked whether passengers preferred buying in market centres from whole-sale dealers only; \$200 non-resident steam or electric road, he said that time of travel being equal, frequency license permitting buying anywhere in of service would show the bulk of the business as the radials could give a the province: \$300 non-British subject permitting buying anywhere in the province; \$25 shop or store license more frequent service and they should permitting buying on premises only and selling elsewhere under regula-Witness declared that a good radial tions.

Aid for Returned Men. Hon. D. Carmichael, minister withcut portfolio, held a conference vesterday with Secretary Conroy of the G.W.V.A., who proposed the establishment in this city of a corps of comthe line was first constructed. He considered an electric radial line much missionaires in order to absorb a great many cases of returned soldiers ir the city, who have difficulty in making a living. The idea, explained not be expected to give the frequency by Mr. Conroy, is to have amputation cases, problem cases and so on em to be used by the Hydro would be excellent for the purpose of taking sible head over them, and to have the n'en fitted with neat uniforms.

The minister expressed the opinion but thought a lighter type of car that it might be advisable to intro-should also be used for the slacker duce a bill in the legislature dealing periods as experience had shown that with this subject and asked for comthat it might be advisable to intro-duce a bill in the legislature dealing

> Retail Shoe Men Take Issue With D. A. Cameron

p'ete data on the question

The World has received from Howard C. Blachford, secretary National Shoe Retailers' Association of Canada, D. A. Cameron, manager. Canadian Bank of Commerce, in regard, to re marks said to have been made by the latter in addressing the Kiwanis Club last Wednesday. The letter in part s as follows:

"I hasten to respectfully reply and state that the local members of this association feel that, as far as the retail shoe men in general are concerned, you must be misinformed in order to state that much of the blame for present conditions rests on the retailers, because he has not been willing to reduce his prices to present day values; an despecially we note our reference to present price of shoes. "For the most part, shoe retailers have reduced the price of their merchandles until they not only show a loss on their inventory sheets, but are continuing to retail today at prices quite on the level, if not below the resent replacement value.
"The members of this organization

feel that you have not dealt fairly with the retailers of shoes by creating wich had been making a collection in the minds of the public a wrong im-from fellow-workmen and others to pression of actual conditions."

GOOD ROADS MEMBERS ELECT NEW OFFICERS

The new officers of the Ontario Good Roads Association were elected as follows: Honorary presidents, K. W. Local Dealers Ask the Gov- McKay and L. E. Allen; president, T. Mahony; first vice-president, W. H. Brown; second vice-president, J Curry; secretary-treasurer, Hon. G. S Henry: directors: F. A. Senical (Plan-Suggestions have been made by local fagenet), J. A. Sanderson (Oxford), W. fur dealers to the Ontario government H. Pugsley (Richmond Hill). J. E. that the present revalties on furs are Jameson (Southampton), S. L. Kenfar too high to allow for profit and far too high to allow for profit and suggest that royalties should be: Bear, 50c; red fox, 25c; silver and black fox. (Toronto), A. B. Rose (Brantford), \$5; marten 25c; muskrat, 2c; skunk, Major Johnson Hanna (Enterprise).

SEPARATE SCHOOL BOARD ASKS HIGHER MILL RATE

The separate school board is asking for a 12½ mill rate instead of the 10 mill rate which has been struck by the board of education. They claim that it will be impossible to carry on this year on less than 124 mills and they are putting in basis.

City hall officials say it can be ar ranged, but will cause a lot of con-fusion and would require a separate board.

WITHDRAW PAPERS FILED IN MISTAKE

Says Particulars Inadvertently Lodged.

Justice Middleton has dismissed the application of Shirley Denison, K.C., acting for Hon. W. R. Riddell and Hon. F. R. Latchford, commissioners appointed by the provincial government as timber investigators, to have the action brought against them by the Spanish River and Puln Company. Limited, dismissed In this action plaintiffs ask that the commissioners an investigation of their affairs in a manner which, the company alleged, exceeded their jurisdiction. Justice Middleton, in his judgment, says that the commissioners will, no doubt, keep themselves well within the ambit of their appointment. If, however, they overstep these limits the plaintiffs can have recourse to courts for relief.

ticulars filed by Mr. Denison on Feb. 21, last, counsel took full responsibility for such filing, and unreserv edly asked leave to withdraw the

Timber Commission Counsel the construction of the commission, and have them define what they con-

restrained from proceeding with

In regard to the statement of par-

papers as they were put in entirely THREE ARBITRATORS by inadvertence. In this connection, Justice Middleton says that there was no justification for the filing of the documents, which directly and inferentially made certain charges against the plaintiffs. He further said hat it was an unheard of thing to file any document in answer before the plaintiff has formulated charges Justice Middleton advises counse o discuss before the commissioners

Inquiry

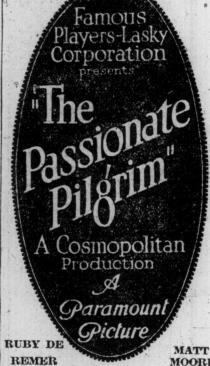

Council Will Consider Controllers' Recommendations at Monday's Meeting.

There will be a non-contentious program for the city council on Monday. Some of the recommendations of

the board of control are: That a minimum wage clause be inserted in all city contracts; that legislation be applied for to provide that the value of the T. S. R. property to be taken over by the city shall be determined by board of three arbitrators; and that certain properties be purchased in connection with the extension of Teraulay street.

STARTS Megent Monday

Folks'll rave about this superior production, because it's there! It has everything—and then some!
