**Consider This Fact**

That just about 5 women out of every 25 you meet on the street are doing themselves justice in the way they wear their corsets. If we could interest the remaining 20 women to consider how all-important is the question of a perfect-fitting, correctly tailored-to-order corset they would quickly discard the ready-made store variety (the better makes of which cost equally as much as do)

Twenty-four school teachers, already enrolled for tuition during the vacation, speaks well indeed for the 30-day Styl-la-bic Shorthand System. Under no other system could they even begin to complete a course in the short time at their disposal. Many high-school students also find a boon in 30-day shorthand and the hundreds of splendid testimonials on file speak well indeed for the progressive Moon College, 282-284 Yonge-street.

A dozen students with only 20 days' study, and some with only 12 days, able to write shorthand at the rate of 70 to 90 words per minute, seems almost incredible. A call during class hours will convince even the most skeptical of the merits of the 30-day Styl-la-bic Shorthand, as taught by the owners, the Moon College, 282-284 Yonge-street. They offer free tuition if unable to verify every claim made.
