

GOOD THINGS COMING TO THEATRES OF ST. JOHN

GUIDE FOR LAUGHTER

Pranks and Tricks Performed The Lee Children

The following is what you will see at the Star Theatre this evening in "Tell It to the Marines":

1. Playing war with butler, Jane and Katherine tie lighted fire-crackers to the servant's coat-tail.
2. Butler bombards Jane with cream puffs which she catches on her face, eating the cream.
3. Slipping a pair of dice into the minister's coat pocket, causing father to order him from the house.
4. Upsetting a dusky maiden bending over a wash-tub.
5. Shooting of Roman candles in their room, the children send one through the hat of a guest. Hat lands on marble bust, cocked to one side, and the eyes wink at it.
6. Jane and Katherine in small automobile skid into a cow, stop under her, squeeze the milk funnel, steal a drink and scot away.
7. Jane and Katherine run pell mell into a haystack, while driving their automobile and almost wreck a barn and two apple cider drinkers.
8. The children halted for speedies, take a summons away from policeman and make a monkey out of him.
9. Zig zagging in between ten automobiles standing alongside a curb.
10. Upsetting a gang of lounge lizards on a corner.

FROM JAZZ TO GRAND OPERA

Bringing its message of happiness and breathing the romance and glory of Fairyland, "Cinderella," a fascinating fantasy founded upon the well-known and always welcome story of little Cinderella and her glass slipper, will be the attraction at Imperial Theatre May 7 and 8. The production which will be seen here is under the direction of the noted author-manager, P. Stuart-Whyte, and is his third English pantomime offering in Canada. The story of Cinderella lends itself admirably for stage use and affords vast opportunity for lavish scenic effects and beautiful costumes. The dialogue is bright and witty, while the thirty song numbers contain most everything from jazz to grand opera.

NO MORE HEREDITARY TITLES; PRESENT CEASE ON DEATH OF HOLDERS

Ottawa, April 30—When the special committee of the house of commons which is considering the matter of titles resumed its deliberations this morning, the minutes of the first meeting at which it was decided to recommend that no more hereditary titles be conferred and that those in existence cease with the death of the present holders of such titles, was concurred in.

Dr. Cowan of Regina said that in connection with the debate on titles at the last session of the house the attitude of Sir Robert Borden had been misrepresented. He said that the order-in-council, the details of which the prime minister then announced, covered exactly the same ground as the recommendation decided upon by the committee in regard to hereditary titles.

Duncan Ross and other members of the committee thought that there was at least a slight distinction. The order-in-council did not specify the time at which these titles should cease and this was covered in the recommendation.

Sir Herbert Ames said to cut off the giving of titles immediately and without warning at the present time would be unjust. With the war conditions a thing of the past the cutting off of titles would not matter much. Sir Herbert referred to the recently created order of the British Empire. He thought it would be unfair to prohibit Canadians from participating in these honors.

Hon. Rodolphe Lemieux was also opposed to a continuation of the giving of titles. Making complimentary reference to Sir Herbert Ames, he declared that it did not require a title to cause him to be recognized as a great public servant.

The granting of knighthoods and distinctions in Canada, he said, creates a spirit of funkyness. We should do as the French people did in 1789 and abolish all titles.
Dr. Michael Clark said that the French people did some other things toward the end of the eighteenth century. Nothing was to be gained by using such words as "nobility" and "funkyness." Snobbery ran through all classes. He agreed that in the past many titles had been wrongly granted, and that hereditary titles should be done away with. The committee, he said, should not stand in the way of recognition of men who have rendered fine war service.

A. B. Copp said some men received titles who were worthy and others who were not, and the latter had debilitated the whole situation.

Sir Herbert Ames held that it would be unwise for Canada to take action by itself and suggested that it be the subject for an imperial conference.

HALIFAX VOTING ON CITY GOVERNMENT.

Halifax, April 30—A plebiscite is being taken today on the question of abolishing the board of control system and reverting to the aldermanic form of city government. This morning a fairly heavy vote was reported in the south end wards, where the majority appear to favor going back to the old system. In the north end districts, reputed to be a board of control stronghold, voting was not very brisk during the forenoon.

King's College

Canon Smithers presented the report of the Governor of King's College. It was stated that the advance movement had resulted in subscriptions of \$22,100 up to Dec. 31, 1918, and \$36,000 had been paid in. The diocese of Fredericton was asked to give the salary of a divinity professor for the current year. The estimated expenditures for the current year were \$16,000 and the maximum received \$12,600. Reference was made to the conferring of the degree of D. C. L. upon the Rev. Canon Smithers of Chatham, N. B. Canon Smithers added that since the beginning of the year a bequest of \$15,000 had been received from the estate of Lady Haliburton, but not \$15,000 as at first announced.

School for Girls

R. W. Hewson presented the report of the trustees of the church school for girls, Windsor, N. S., reporting the continued and growing success of the school, and eighty-two regular pupils, twenty day-schoolers, and twenty by-pupils. Financially the school was in a healthy condition, the debt having been wiped out.

Sunday Schools

The report of the standing committee on Sunday schools was submitted by Rev. W. P. Dunham. The committee reviewed the work of the year and recommended that it was desirable that the Sunday school be reorganized as a department of the general church work and that the responsibility of financing the Sunday school be accepted by each parochial corporation.

Rev. G. W. Fisher suggested the establishment in the Sunday schools already existing of a branch of the church lantern exchange.

Rev. F. W. M. Bacon suggested that the schools might be improved by including more public school teachers to aid.

Dr. Carter said that the majority of teachers aided in the Sunday schools already existing. One denomination now gave religious instruction in the schools after hours and he thought they might undertake something of the same nature. The school houses might be used for any worthy public purpose and he thought that no trustee board would refuse permission.

Has Your Wife a Trade?

"Impertinent question" you say! Well perhaps. But it brings to mind the fact that unskilled female labor is very poorly paid.

If your wife is ever likely to become a breadwinner, you should put her in training now. Then, should the necessity arise, she will be able to produce an income sufficient to support herself—and children, if any—in some degree of comfort.

There is only one other way to make sure that your wife and kiddies will not come to want after you're gone—that is, by means of adequate life insurance.
