

Miramichi and the North Shore, etc.

THE MIRAMICHI YACHT CLUB'S next race is to take place on Thursday of next week.

A FRENCH METER is equal to ten decimetres and is 3 1/4 inches or, decimally expressed, 39.375 inches.

COURTESY notes—of the Union Bank of P. E. I. are being pushed on the Miramichi. They are well worth. Look out for them.

POISONED BY CANNED BEER—George Boucher, setting traps to fish for trout at Bogon, on Nepisiguit River, six miles from Bathurst, was poisoned on Saturday by eating canned beer.

MARITIME BANK DECISION—Some of our merchants and many of our spectators, who had bought up a discount of a large amount of Maritime Bank money with the view of lifting their notes in that bank, fell very blue over the recent decision of the Supreme Court. Globe.

GLAD TO HEAR HIM—Many of Rev. G. M. W. Carey's friends had the pleasure of hearing him again yesterday, after an absence of six years. Mr. Carey presided in the German street Baptist church in the morning and in the Brussels street church in the evening with old time earnestness and vigor. His home is now at Brentford, Ont.—Globe.

RACINGS—Bathurst Driving Park association is to have its fourth annual meeting on Tuesday, Sept. 6th. There will be three races, the first open to horses that have never won public money, the second for three minute class, and the third a free for all. The prizes will be \$20, \$30 and \$70, respectively.

ANTHRACITE—Discovery of anthracite coal has been made on the property of Mr. Nix, a farmer living about six miles east of Campbellford, Ont. The quality is said to be of the best, having been tested by an expert chemist in Toronto, and the indications of a large seam are good. The proximity of this bed of coal to the iron beds is of the greatest importance to that part of the country.

THERE IS A LITTLE MATTER that some of our patrons have seemingly forgotten entirely. It is a matter of a few dollars, but it is a matter that has never won public money, the second for three minute class, and the third a free for all. The prizes will be \$20, \$30 and \$70, respectively.

PERSONAL—Mr. W. M. Tweedie who has been some years in London, and who has achieved high distinction as a student, has returned to his home in Hampton, as the London correspondent of the Globe Mr. Tweedie is a large acquaintance among our readers. We hope to see him find way to do in some of our college institutions.—Globe.

WE regret to learn that Mr. John Shanks has lost the sight of his left eye, by accidentally cutting it with a knife in his tool factory. He has been under the treatment of Dr. Bruce of St. John, but has not recovered. The eye still gives him much pain.

Mr. Thos. Hill an old-time resident of Newcastle, which he left 21 years ago, is revisiting the Shiretoons.

THE "TWO BROTHERS" with about 80 tons of Mackel on board, was in port this week. She stored her fish and again proceeded to the mackerel grounds. Her skipper reports that a few evenings before she came to two American schooners took about 100 barrels each, just outside the bar.

THE S.S. Meria, owned by W. S. Loppin, Esq., has also landed 200 tons of mackerel, the result of a three-week cruise, and again proceeded to the bay.

FOUNDED BY TROUBLE—Some sailors of the Italian bark Olivari in port last week, were on the watch for a morning in search of mushrooms. They gathered a large quantity of what they supposed to be mushrooms and brought them home and had them cooked. All who ate them were dangerously sick. Dr. Job Benson was called to attend the sick men, when it was discovered they had eaten toadstools instead of mushrooms. They died en masse.

DIED IN THE ASYLUM—Mr. Peter Gratton, of Beauceville, died in the lunatic asylum on Tuesday, after a residence there of about two months. He was somewhat eccentric in his habits before his admission and is thought to have left behind him considerable money. It is known that he had over \$11,000 in one place and what there may be in banking institutions is a mystery. He was a bachelor and had no family. A general settling was in Beauceville.—Tribune.

THE LAW COMMISSIONER was in session last Monday afternoon at St. John—present, Chief Justice; Judge Waters; C. W. Weldon, Q. C.; A. O. Earle, secretary; F. E. Baker, Q. C.; A. A. Shekleton; L. L. Silas; Alward, D. C. L.; and D. Chasidoff, Esq. A large part of the afternoon was taken up in reading the suggestions of the profession in certain proposed changes. The almost unanimous opinion of the profession is that the trial of cases by a jury of jurists should be abolished. And they are right.

ORDINARY PASSENGERS AND MAILS DEPART—The Oblo of last Monday said: "The indignation of passengers by the English mail steamer on Saturday for the Maritime Provinces could not be measured by any known process. They were angry, or rather, they were with rage. It appears that the steamer arrived at Rimouski about five or six o'clock in the morning. A train was on the track, and the passengers joyfully hastened toward it, supposing it was for them and the English mails. That is not the Government way of doing business, however, and the passengers were very much disappointed. The vessel then started out of the station, but it carried only one passenger, a young son of the Marquis of Lansdowne, who was about to join his parents. The other passengers had to wait until four or five o'clock in the afternoon, when the regular train came along."

WHERE THE WAGON WAS—We have no disposition to press the matter this week, but it appears that the *Advocate* is prompted to take up the Bay du Vin incident referred to last week, and to make reference to some real or supposed recollections of other people, who, so far as we have heard, have used in any way whatever the observation or even distorted the particular prejudices or views of any persons or communities. There is a marked difference between private conduct which affects only the individual, and that which intrudes itself upon the privacy and even property rights of others. The *Advocate* did not—as the *Advocate* states—analyze because of Sunday drunkenness and misconduct, but plainly stated that no

day was a fitting one for such work. It is a poor religion that is asleep all the week, but awake and alert with pharisaical purification on Sundays only.

ROBERTING GUNS—Naval manoeuvres took place on Thursday last off the mouth of the River Thames. The attacking squadron operated in the Downs and, together with a force of marines and blue-jackets, were landed from the vessels, captured the entrance to the Thames and the River Medway. The attacking and the defending squadrons, the Thames and the Medway, retired seaward. The squadron, while retiring, met Admiral Hewitt's defending squadron and was obliged to return, and was hopelessly trapped.

During the manoeuvres a Norddeutscher gun burst on board the torpedo boat Curlew and several seamen were seriously injured. One of the guns on board the iron armoured ship Black Prince also burst and injured several seamen.

The explosion was due to the premature ignition of blank cartridges, the absence of projectiles interfering with the proper working of the guns.

A SOUVENIR OF THE QUEEN'S JUBILEE is the title that Messrs. J. & A. McMillan have given to their handsomely gotten-up work which tells all about the jubilee events of the days set apart for that purpose in St. John. The cover bears the coat of arms of the city, an upper corner having a branch of oak leaves, while on the lower is the monogram V. R. and the year 1837-1887. There is a carefully prepared index, while the inside gives a chronicle of all the jubilee events in a pleasing form. The services at St. Paul's and Centenary churches, participated in by the artillery at the former and infantry at the latter, on Sunday, are published in full, and the other churches also receive mention. A large share of space is devoted to the oratorical and musical festival, the parade of the Polymorphians, presentation of the Queen's gift by St. George's School, and the military display. The Souvenir will be a valuable addition to any library.—Tel.

MATRIMONIAL—Mr. Geo. A. Smith, who holds a prominent position in the large dry goods firm of Manchester, Robertson & Allison, in St. John, was married last Thursday night to Miss Maud Winter, daughter of Mr. Thos. Winter, of Newcastle. The ceremony took place in St. Andrew's Church, Newcastle, and was performed by the Rev. Mr. Sewell, rector. As the wedding was quite a social event the church was packed long before the ceremony commenced. When the bridal party arrived they had to work their way through a crowded entrance. The bride was attired in a travelling suit of gray, and was attended by her sister, Miss Louise Winter, as bridesmaid. Mr. Charles Smith, brother of the groom, acted as best man. Quite a number of invited guests occupied the front pews of the church. After the ceremony the bell was rung, the organ played "Mendelssohn's 'Wedding March'" and a crowd on the sidewalk cheered the bridal party as they entered their carriage. A reception was held afterwards at the home of the bride's parents, to which a number of guests were invited. The bride received many handsome presents, among which were a gold watch and jubilee brooch from the groom. arrived on Saturday about mid-day to hold an inquest.

The coroner and jury examined the body externally, and were hearing the witness Peter White, when Dr. Stockton of St. Mary's arrived to make a post mortem examination. Dr. Stockton and Dr. King both again examined the body externally, and found no marks of violence whatever. The internal examination showed little wrong with the deceased except his heart, which weighed only four ounces, the medical man concluding that failure of the heart to do its duty under great excitement was the cause of his death. There was no indication of either a blow or a kick having injured the deceased.

The prisoners were not present at the inquest, having been arrested and taken to jail by Justice Gogan and Coroner. They were sent back to amend their verdict, but could not agree to do so.

A despatch of Monday last from Richmond says: "Bohich had his examination before Stipendiary Magistrate Bliss on Saturday and was discharged from custody."

THE P. C. BAZAR. The Roman Catholic Bazaar, which closed in the Chatham Skating Rink last week, was a great success in every way, about \$2,000 being realized, notwithstanding the general dullness of business this season. Much interest was manifested in the drawings on Saturday night, everything connected therewith being fairly and satisfactorily conducted. The official list of prize-winners is as follows:—

Mass on Shipboard. The crew of the French flag ship La Minerve, were very engaged all day Saturday in cleaning the ship, making all tight below and aloft, and getting everything in readiness for the reception of visitors yesterday. Although a goodly number of citizens were expected, there was no anticipation of the thousands who all day long thronged the wharf, and crowded and struggled to board the ship, but such was the case and it will be putting it at a low estimate to say that fully ten thousand of our citizens as well as other during the day, walked or rather struggled over the decks of La Minerve. As was previously announced, mass was celebrated on board at 10.15 o'clock, by the Rev. Abbe Becker, the ship's chaplain. The service was conducted on the upper deck, which had been suitably arranged for the occasion. The deck was covered over an aft by an immense awning, and on this were stretched canvas sails, which, seen from the inside, gave the appearance of an oblong tent. The ship's flags were used to good effect for the purpose of decoration. An altar had been erected in the fore part of the quarter deck, and when the immense congregation which had assembled were seen kneeling on the frigate's deck, with a hundred of the crew standing as a guard of honour at each side of the temporary altar stood other guards, armed with brightly burnished brass boarding pikes and axes, the scene was not only a most picturesque, it was solemn and impressive. The congregation was so large that it was with difficulty that kneeling space could be obtained. All our prominent French-Canadian Catholics were present, and among others were noted French Consul-General Adahil, Vice Consul Shaw, Judge Dugas, ex-Mayor Beaumont, Mayor of the city, the Hon. J. G. Gagnier, and Mr. Auguste Girard and daughter, and several of the aldermen, all of whom were accompanied by ladies.

At the conclusion of the mass the hymn "Rock of Ages" was sung, and at the hostess's pipe the canvas sails fell as if by magic, the interior decorations and altar were removed and the ship made ready to receive the guests. Those, however, were not admitted on board before 12 o'clock, and during the interval the ship's land performed a selection of music. As the hour for receiving visitors struck the ship's band and orchestra, in the upper harbor police on duty had all they could do to prevent accidents at the gangways. From that hour until 5 o'clock the crew was so great on board as to be almost indescribable. So great, in fact, that it was impossible to see anything either on or between decks. The officers and men in their power set up a gale, but guiding any one in the jam was simply out of the question. Everything on board the ship was as bright as a new pin, while the officers were ready in gold lace, and the men were the pink of neatness.

Church Centennial. The Metropolitan issued a circular letter to the clergy in his Diocese calling attention to the fact that to-morrow the 12th instant, is the day appointed for commemorating the centenary of the consecration of the first American Bishop in British America. He asked them to bring the matter prominently forward in their churches on Sunday, and if no collection had been made this year in the church addressed for the mission of the Society for the Propagation of the Gospel, that it be done on that occasion.

At the evening service in St. Mary's Chapel, Chatham, on Sunday evening last, the Rev. Rev. D. Forsyth, addressed the congregation on the subject of the centennial, and traced the progress made by the Church in the colonies since the formation of the Society for the Propagation of the Gospel in 1783, to the fact that even in the United States there was no regularly organized episcopate until Bishop Seabury was consecrated at Albany in 1784 by the bishops of the Scotch church, since which time the episcopate in the United States had grown until it now embraces 22 bishops and 3700 priests and deacons. In what was known as Canada, the Diocese of Quebec was formed in 1793 and then comprehended Upper and Lower Canada, and it was not until 1839 that the next diocese of that of Toronto, was established. The formation of other dioceses of Canada were traced in their order, viz., Montreal in 1850; Huron in 1857; Ontario in 1862; Albany in 1873; Niagara in 1875.

The Diocese of Newfoundland was set apart from that of Nova Scotia in 1839 and that of Fredericton in 1845. The diocese of Rupert's Land was organized in 1840 and that of Moosejaw in 1872, Saskatchewan and Athabasca in 1876, the latter being now known as Mackenzie River—while, in 1884 the diocese of Qu'Appelle and the new diocese of Athabasca were established. In the space of 36 years, six dioceses were formed from the original one of Rupert's Land.

In 1859 the Diocese of Columbia was formed at Brandon in 1870, the diocese of Western Manitoba, Celestine and Columbia in 1878. To sum up, there have been, since Bishop Inglis was consecrated to the see of Nova Scotia, 19 dioceses constituted in British North America, in which there are 980 priests and deacons, 190 of whom are still missionaries of the Society for the Propagation of the Gospel.

The formation of the diocese of Quebec in 1793 until 1814 no dioceses were formed in the latter by Act of Parliament. A copy of King's book entitled "Treatise on the Horse or the Home Doctor," which usually sells for 75 cents, will be given free to all who apply for it at the
