## NO FORTS IN THE PACIFIC WILL BE JAPAN'S PLEA

Opposition Party Agent and Many Correspondents Coming to Parley.

Tokio, Oct. 13.—The Teikoku News Agency says it is convinced Japan will recommend to the conference abolition of the defenses in the Pacific from the viewpoint of assuring commercial freedom. Kotaro Mochizuki, member of the House of Representatives, is making on the Shinkyo as the special representative of the Kensei, an opposition party. It is reported that the Vietschok Government will send an unofficial delegate to the conference.

So great is the bustle preparatory to the sailing of the Japanese delegates, one would imagine half of Tokio was headed toward the capital of the United States. The newspapers which are sending numerous staff correspondents, devote themselves almost exclusively to the conference problems. In this connection some of them are hopeful and some fearful. Some attack the United States, while others excitedly demand results from the credit question.

The weather, which has ruined part of the rice harvest, has caused prices to soar higher, but still the workmen, and especially the shipbuilders, constantly are demanding higher wages and are getting them. The newspapers attribute to the Government the intention to propose international abolition of the regulations which prevent foreign shipping from engaging in Japanese coastal trade.

## Britain Explains Credits Viewpoint

Unless Bolsheviki Recognize Debts There Is No Assurance Behind Any Loan.

London, Oct. 13.—It is pointed out on behalf of the British Government that the stipulation made by the International Russian Relief Commission that the Russian Government must recognize its existing debts and its obligations to the British Government is a stipulation which the Russian Government should pay its debts at any time be repaid. This does not mean that any Allied Government is stipulating that the Russian Government should pay its debts at any particular time, but if the Bolsheviki Government were to repudiate the debt incurred by the Czarist Government, while negotiating any credits of its own, this would be a precedent for any Russian Government which might succeed in overthrowing the Bolsheviki Government and repudiate the debt incurred by the Czarist Government. There would be no security for current debts.

## Hoover Relief Assn. Feeding 20,000 Children Now

Besides Hunger Hundreds of Thousands Are Facing Winter Without Fuel or Clothing

New York, Oct. 13.—The Hoover Relief Organization is already furnishing meals daily to 20,000 children in the Kazan district of Russia, according to a cable report to Col. William M. Haskell, director of the American Relief Administration's mission to Russia, to administration headquarters here.

The latest kitchen to be opened in Samara district, Col. Haskell said, was in the village of Nova Makina, where 400 children were fed the first day. These figures are constantly increasing as new kitchens are being established in Kazan and Samara.

Reports from Kazan show this district almost as bad straits as Samara. The sick number 900,000 and most of these have no clothing to face the winter and fuel is scarce and costly. "The total number starving in the Tartar Republic," the report continues, "is about 1,250,000. Of this number the Government is caring for about 280,000. Five hundred children between the ages of five and fifteen, and 408,000 under five receive no help."

Col. Haskell adds report every week that the situation is becoming more and more desperate and that the gravity of the situation and importance of assisting America's work.

## Viscount Grey Favors Dominion In Ireland

Sees Danger Sinn Fein May Create Feeling of Insecurity.

London, Oct. 13.—Viscount Grey, addressing a Liberal meeting at Warwick tonight, discussed the Irish conference.

"The Irish delegates," he said, "are not dealing with the British Government alone; they are beginning to deal for the first time with British public opinion."

One danger, he declared, was that the Irish representatives might force the negotiations to a point where the British people really believed their self-preservation was imperilled. He believed that dominion partnership with Ireland, consistent with the safety of Great Britain, provided the naval defence of both countries was under one authority.

## Arms Parley View In League Council

Silesia Pretext for Considering It So as to Avoid Harding's Objection.

Paris, Oct. 13.—Another session of the Supreme Council, whereat the French and British attitudes to be adopted at the Washington conference are likely to play an important part in the agenda, was rumored today in well informed diplomatic circles. The time suggested for the session is immediately after the League of Nations council has announced its recommendations in connection with the Upper Silesian settlement. Although this would have the appearance of opposing President Harding's view that a preliminary conference of the big powers should be avoided, it is considered here that some sort of contact between the Powers is inevitable, following Premier Briand's declaration yesterday that his policy regarding internal and external affairs is based wholly on Allied solidarity.

It seems here that any decision by the Supreme Council regarding Upper Silesia is bound to bring up the question of a reduction in military forces, as Premier Briand has now confessed that Germany has practically complied with the treaty's disarmament clauses with the exception of her police or gendarmerie, and, therefore, there is little necessity of maintaining troops along the Ruhr frontier.

## A European Preliminary.

It will be during the discussion regarding the letting of the military sanctions that the general phases of the disarmament conference will be approached, with Belgium and Italian representatives thus taking part in the "European preliminary" before President Harding's conference actually fixes its agenda.

The Premier's insistence that the security of France from invasion, militarily or economically, by Germany must be the basis of any reduction in her present military strength is taken tonight by the Journal des Debats as an argument for an immediate and clear understanding with Great Britain, this newspaper declaring that Premier Briand has not a day to lose if he wishes to go to Washington.

"His first duty before the conference in Washington must be to explain

## York-Sunbury Farmers' Party Dwindled Out

Have No Desire to Contest the Riding. Unless Caldwell Can Produce the Kale.

Special to The Standard. Fredericton, N. B., Oct. 13.—"To nominate or not to nominate" is the question which at the present time is agitating the minds of the landed circle of the U. F. A. and C. Gordon Sharpe, the secretary arrived here last night for the purpose of ascertaining the lay of the land they found in short time that the U. F. A. or York-Sunbury, after a short but very brisk bye-election campaign in May last, had become aware of the fact that the saying "elections are not won with prayers" is as true in 1927 as ever it was. After a long and hard poll the "Embattled Farmers" squared off their election bills and they are by no means anxious to incur another set of them. The whole matter turns up a financial. If Caldwell can furnish the necessary "kick" from outside sources, the U. F. A. in this constituency will try to make a contest in York-Sunbury to annoy the Government forces and keep them employed here instead of taking part in other ridings, otherwise there will be nothing doing. There is no more hope of a U. F. A. candidate being elected here than there was in the bye-election.

The prelude to the National Liberal Conservative party in York-Sunbury, John D. Palmer, has issued a call for a nomination convention to be held in County Court House at 2 p.m. Saturday the 25th. The call will be answered with enthusiasm, and one of the largest and most enthusiastic conventions ever held here will take place at that time.

## The Kidneys

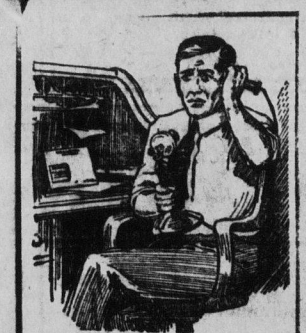

The office man and the outdoor worker suffer alike from derangements of the kidneys. Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.

In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.

Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:

"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also used Dr. Chase's Ointment with the best results, and never fail to recommend these wonderful remedies."
