OAK

See OAK HALL'S Stock of Children's Suits.

Mr. Torrington's first orchestral concert, given at the Pavilion on Tuesday evening, was a most gratifying success. The large audience present testified very warmly their appreciation of every number given, and demanded encores in the case of several of the solo efforts. Mr. Delahunt's bartone songs were fairly given, though our own Warrington has doue them more to our liking. Miss McManus acquitted berself admirably under the circumstances. Had her selection been a taneful English ballad. however, the effect upon the audience would have been more marked. Mrs. Petley rendered a selection from "Ernani" in a manuer that secured a hearty recall. Mr. W. W. Lauder's performance of Beethoven's Emperor Concerto was brilliant, and established that gentleman's claim to a first place amongst the piauists of the day. Herr Otto Dosenbach proved himself to be one of the best violinists our city has heard.

The Choral Society's second concert, under the leadership of Mr. Edward Fisher, will take place on Tuesday evening next, when Mendelssohn's "Athalie" will be given.

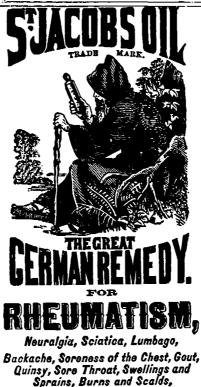

Prof. Cromwell's Art Entertainments are amusing and edifying iarge audiences at the Grand this week. If you cannot afford a journey to the art centres of the world, the next best thing is to go and see this exhibition.

Prince Daschkoff says that the Czar will get his roof shingled in August next. — koff is one of the Czar's private and pulmonary ministers.— N. Y. Commercial Advertiser.

Men who write alleged splendid hands, acquired by some new process of self-instruction, all sign their name alike. There is as much character in their hand-writing as there is in a lot of old newly-cut pine shingles.—N. Y. Commercial Advertiser.

The Spirometer.

THE INTERNATIONAL THROAT AND LUNG INSTITUTE. 75 Yonge street, corner King and Toronto." A body of French and English physicians are in charge. Great reormation in medical science. The Spirometer, the wonderful invention of Dr. M. Souvielle, of Montreal, an ex-aide surgeon of the French army, which conveys medicinal properties direct to the seat of the disease, has proved in the leading hospitals of Europe to be indispensable for the cure of catarrh, catarrhal deafness, bronchitis, asthma, and lung disease. Dr. Souvielle and a body of English and French surgeons and physicians are in charge of this, the most scientific institution on this continent. We wish country practitioners who have not sufficient practice to distinguish the different forms of lung disease to bring their patients to our institute, and we will give them free advice. This institute has been organized by this body of scientific men to place Canada in a position to compete on scientific views with any part of Europe, and to protect the people from the hands of insignificant men. Dr. Souvielle's Spirometer and its preparations were invented after long and careful experiments in chemical analysis and use in hundreds of cases to prove its effects. He has the sole right in France, England, the United States and Canada. Last year over 1,000 letters of thanks were received from all parts of Europe, Canada and America for the wonderful cures performed by the Spirometer. Hundreds of the leading people of this country given as references. Write or call at the International Throat and Lung Institute, 75 Yonge street, corner of King, Toronto, and you will be received by either of the surgeons. Consultations free to physicians and sufferers. Call or write, inclosing stamp for pamphlet giving full particulars free.
