HYDRO ELECTRIC POWER COMMISSION OF ONTARIO, ENGINEERING DEPT.
Sarnia, July, 30th. 1934.

Mr. J. C. McCormick,
Indian Agent,
Sarnia.

LIGHTS FOR INDIAN MISSION HOUSE.

Dear Sir:-

We have your letter of July, 28/34, regarding the Alloy Steel Co., supplying the Indian Mission House, with lights free of charge.

We have no objection to this being done as the Steel Co., manufacture, their own current and not a consumer, of the hydro. The property is a portion of the Indian Reserve, and we realize that mission would have a very little income. It certainly would be a great help to the band, to have lights at this place, therefore we would suggest that you make any arrangements with the Steel Co., and we will make no objection.

Yours truly,

G. C. Allen,
Supt. Sarnia, R. P. D.
