

- Inflammation, 27.
 abscess, 29, 32.
 actinomycosis, 41.
 acute, of brain, 195.
 acute endocarditis, 102.
 bladder in, 147.
 blister, 28.
 by chemical injury, 28.
 by nitrate of silver, 28.
 and emulsion, 40.
 causes of, 27.
 chronic, 33, 37, 178.
 cystitis, 147.
 encephalitis, 195.
 syphilitic, 197.
 endocarditis, 102.
 endothelial cells in, 40.
 fibroblasts in, 34.
 granulation tissue, 33, 35.
 infective, 29.
 in lymphoid tissue, 39.
 membrane in diphtheria, 29.
 neuritis, 190.
 orchitis, 149.
 pericarditis, 176.
 peritonitis, 178.
 plasma cells in, 34.
 pleurisy, 178.
 position of, 27.
 produced by radium, 27, 28.
 pus, 29.
 bladder, 147.
 syphilitic, 37.
 in testis, 150.
 tuberculous, 39.
 of brain, 199.
 giant cells in, 40.
 injury, 23.
 chemical, 28.
 giant cells in, 26.
 mechanical, 24.
 Intestine, 117.
 atrophy of, 117.
 colitis, 121.
 inflammation of, 117.
 in typhoid, 118.
 lardaceous disease, 117.
 metallic poisons, 118.
 Peyer's patches, 118.
 tuberculous ulcers, 119.
 Intestine, villi, 117.
 Iodine stain, 8.
 Iron in liver, 131.
 Irritants of lung, 95.
 Jenner's stain, 212.
 Karyolysis, 5.
 Karyorrhexis, 5.
 Keratinisation, 11.
 Kidney, adenoma of, 146.
 Bright's disease, 190.
 colloid casts in, 146.
 fibromata, 146.
 homogeneous cast, 141.
 hypernephroma, 146.
 lardaceous disease of, 145.
 nephritis, acute glomerular, 140.
 acute parenchymatous, 141.
 chronic interstitial, 143.
 subacute interstitial, 142.
 subacute (chronic) parenchymatous, 141.
 Lamina, internal elastic, 107.
 Langhans' layer in chorionepithelium, 79.
 Lardaceous degeneration, 8.
 Lardaceous disease of intestine, 117.
 of kidney, 145.
 of liver, 131.
 of spleen, 138.
 Large round cell sarcoma, 68.
 Lead poisoning, 198.
 Lashman's stain, 212.
 L. meningitis, 193.
 syphilitic, 195.
 Leucocythæmia, 174.
 spleen in, 139.
 Leucocytosis, 175.
 Leucopenia, 175.
 in enterica, 175.
 in tuberculosis, 175.
 Leukaemia, lymphatic, 174.
 spleno-medullary, 171.
 Liver, acute yellow atrophy, 129.
 brood capsules in, 134.
 cirrhosis, 126.
 atrophic, 126.
 hypertrophic, 127.
